Scottish judge Lord Fountainhall reveals the events and Scottish opinions concerning the end of the House of Stuart.

Watson's Works' Indiana Pleading, Practice, Procedure and Forms

An impressively thorough exploration of the changing functions, character and experience of English towns in a key age of transition which includes smaller communities as well as the larger industrialising towns. Among the issues examined are demography, social stratification, manners, religion, gender, dissent, amenities and entertainment, and the resilience of provincial culture in the face of the growing influence of London. At its heart is an authoritative study of urban politics: the structures of authority, the realities of civic administration, and the general movement for reform that climaxed in the Municipal Corporations Act of 1835.

During the 18th century, letter manuals became the most popular form of conduct literature. They were marketed to and used by a wide spectrum of society, from maidservants and apprentices, through military officers and merchants, to gentlemen, parents and children. This work presents the most influential manuals from both sides of the Atlantic.

The Parish Register of Saint Peter's, New Kent County, Va. from 1680 to 1787

By: National Society of Colonial Dames, Pub. 1904, Reprinted 2019, 210 pages, Index, soft cover, ISBN #0-89308-770-X. Considering the fact that New Kent County is a "BURNED" county prior to 1865, makes this book one of only a few sources of information about this county during this colonial period. This is a very valuable resource tool when researching in this county. This BURNED county was formed from York County in 1654. New Kent county is the parent county to Hanover, King William, and King & Queen counties. This book includes Births, Baptism, Marriage & Death records as recorded in their original order along with a complete index.

Although literary-historical studies have often focused on the range of dissenting religious groups and writers that flourished during the English Revolution, they have rarely had much to say about seventeenth-century Baptists, or, indeed, Baptist women. *Baptist Women's Writings in Revolutionary Culture, 1640-1680* fills that gap, exploring how female Baptists

played a crucial role in the group's formation and growth during the 1640s and 50s, by their active participation in religious and political debate, and their desire to evangelise their followers. The study significantly challenges the idea that women, as members of these congregations, were unable to write with any kind of textual authority because they were often prevented from speaking aloud in church meetings. On the contrary, Adcock shows that Baptist women found their way into print to debate points of church organisation and doctrine, to defend themselves and their congregations, to evangelise others by example and by teaching, and to prophesy, and discusses the rhetorical tactics they utilised in order to demonstrate the value of women's contributions. In the course of the study, Adcock considers and analyses the writings of little-studied Baptist women, Deborah Huish, Katherine Sutton, and Jane Turner, as well as separatist writers Sara Jones, Susanna Parr, and Anne Venn. She also makes due connection to the more familiar work of Agnes Beaumont, Anna Trapnel, and Anne Wentworth, enabling a reassessment of the significance of those writings by placing them in this wider context. Writings by these female Baptists attracted serious attention, and, as Adcock discusses, some even found a trans-national audience.

From the earliest texts of the colonial period to works contemporary with Emancipation, African American literature has been a dialogue across color lines, and a medium through which black writers have been able to exert considerable authority on both sides of that racial demarcation. Dickson D. Bruce argues that contrary to prevailing perceptions of African American voices as silenced and excluded from American history, those voices were loud and clear. Within the context of the wider culture, these writers offered powerful, widely read, and widely appreciated commentaries on American ideals and ambitions. The Origins of African American Literature provides strong evidence to demonstrate just how much writers engaged in a surprising number of dialogues with society as a whole. Along with an extensive discussion of major authors and texts, including Phillis Wheatley's poetry, Frederick Douglass's Narrative, Harriet Jacobs' Incidents in the Life of a Slave Girl, and Martin Delany's Blake, Bruce explores less-prominent works and writers as well, thereby grounding African American writing in its changing historical settings. The Origins of African American Literature is an invaluable revelation of the emergence and sources of the specifically African American literary tradition and the forces that helped shape it.

The Case for the Enlightenment is a comparative study of the emergence of Enlightenment in Scotland and in Naples. Challenging the tendency to fragment the Enlightenment in eighteenth-century Europe into multiple Enlightenments, the

distinguished intellectual historian John Robertson demonstrates the extent to which thinkers in two societies at the opposite ends of Europe shared common intellectual preoccupations. Before 1700, Scotland and Naples faced a bleak future as backward, provincial kingdoms in a Europe of aggressive commercial states. Yet by 1760, Scottish and Neapolitan thinkers were in the van of those advocating the cause of Enlightenment by means of political economy. By studying the social and institutional contexts of intellectual life in the two countries, and the currents of thought promoted within them, *The Case for the Enlightenment* explains this transformation. John Robertson pays particular attention to the greatest thinkers in each country, David Hume and Giambattista Vico.
