General Information 1997

Museum curator Grace McKenzie is shocked when she receives word that her ex-fiancé, Steven Hatfield, has been murdered. In his will, Steven has left her his art gallery in New Hope, Pennsylvania. Anticipating that she would turn down the bequest, he asked that she spend a week at the gallery before making her final decision. Motivated by a sense of duty to a man she

once loved, Grace agrees to go to New Hope for one week. She isn't the only person drawn to the small town. FBI agent Matt Baxter has returned to his hometown for one reason only—to clear his father of a bogus murder charge. While he and Grace seek answers, they discover that beneath the surface of this charming, peaceful town lies an old secret a few of its citizens would rather keep buried. And when their search takes an unexpected turn, they have only hours to find out where the truth lies—or be buried with it.

Gorgeous, incendiary, tempting as original sin, and totally off limits. He's rough, dominant, and hot as hell on wheels. Channing Hensley blew into my life like a firestorm, and I've been in love and lust with him since the minute I laid eyes on him. All in secret, of course. He doesn't know. No one can know the things I dream of him doing to me. No one can know that I - the picture-perfect sweet little good girl - want him to be my first. So I hid it away instead, in a letter, where I poured out my heart and my deepest darkest fantasies to the man with the body made for reckless choices, and the piercing green eyes that dare you to make them. The man with the dark past and the fierce gaze that lingers on me in a way that takes my breath away. He's six years older than me. He works for my family's law firm. He's totally wrong, utterly inappropriate, and completely irresistible. Fantasizing about Channing Hensley is so bad. But I want him.

Filthy, scandalous, and so sugary sweet your teeth will hurt. This one's a heaping dose of wrong in the right kind of way ;). If an older, dominant, obsessed alpha claiming his untouched heroine sounds like your cup of tea (oh, you know it is), then you should probably dive right in. Safe, no cheating, and a HEA guaranteed. No one is related in this story.

Recollections of My Slavery Days

The critically endangered Southern Resident killer whales are the most watched and studied whales in the world, yet they struggle for survival in the waters of Washington State and British Columbia. These urban orcas, a Pacific Northwest icon, are at the center of human politics as we attempt to learn from the past and find a sustainable future.

Where Truth Lies

Through countless scrubblings of St. Lawrence's Church floor, a poor washerwoman develops a devastating left hook. During the Great War she persuades the Birkenhead Shipyard to hire her as its first female laborer, beginning her transformation into a working-class legend. Set in northwest England, Hannah's Left Hook is a story of survival, feisty determination, and the occasional black eye. Hannah Corcoran and her family battle their way through the tumultuous events of the first half of the twentieth century. Whether it's a butcher who thumbs his scales, a foreman who exploits female shipyard workers while their husbands and brothers fight the Great War, an agent provocateur who escalates the food riots of 1932, or a sergeant who drafts under-age boys during WW II--Hannah's left hook strikes to defend the rights of the unemployed and the oppressed.

Sunfun Calypso

This historical work tells the story of Captain Vancouver and his mapmaker, Lt. Baker, an ancestor of the author. It describes in authentic detail the relationships with the First Nations people they met on voyages between Vancouver and Hawaii. The book was presented in the BC Legislature. and bonus material includes questions for educators.

Annotated edition of an important slave narrative first published in 1922. Written by William Henry Singleton, who has been a slave in Craven County, NC, this volume traces Singleton's years as a slave in antebellum North Carolina, His escape to Union-occupied territory during the Civil War, and his wartime service in the African Brigade.

Fishing Boats

The voyage of a lifetime. It was the early 1970s and the wild, delirious Sixties were fading into the past. But the craziness lingered, enough to infect three young men with the craving for a real adventure. And the adventure they chose was to build their own sailboat for a voyage to the South Seas. It was an improbable dream inspired by gallons of draft beer gulped down at one of Vancouver's classic beer parlours, the Cecil. But amazingly, they made it happen, sailed there and back, and lived to tell the tale!

The Marlinspike Sailor

'The boat appeared when I didn't expect or, frankly, need her. My bucket list was empty. Life was full But sailing towards me was a boat that would stir the waters, waking decades of loss, revealing history untold, and restoring a legacy that was lost in the wind. For her and for me, I had to wade into that water. I had to go, to search, to find.' Having fallen hopelessly in love with a 1930s Danish spidsgatter, a beautifully constructed 25 ft wooden double-ender,

Kaci embarks on an international search to unravel the mystery of the boat's past, and discovers the many lives Pax touched since she first hit the water in 1936. Kaci Cronkhite's seven year search for Pax's history is an elegant little gem, taking the reader aboard not only for sublime, wind-filled sails but also to eavesdrop the conversations and relationships that are built as she learns more about Pax's past, whilst hugely enjoying her present. Finding Pax is a story of discovery and reconnection like no other. The writing is poetic, spare, and full of wisdom: 'In sailing, in weather, in life and death, answers are not endings and questions are not to be feared. The unknowns keep us moving forward.'

Hannah's Left Hook

Two narrators attempt to recreate all 209 of the fairy tales of the Brothers Grimm in a wild, fast-paced extravaganza. To make it more difficult, they attempt to combine them into one gigantic fable using Rapunzel, Rumpelstiltskin, Hansel and Gretel, Snow White, Sleeping Beauty, Cinderella and other more obscure stories like Lean Lisa and The Devil's Grandmother.

stimulate interest in the development of safe, clean, and highly efficient transportation. Building on the foundation of the bestselling first edition, *Modern Electric, Hybrid Electric, and Fuel Cell Vehicles: Fundamentals, Theory, and Design, Second Edition* updates and expands its detailed coverage of the vehicle technologies that offer the most promising solutions to these issues affecting the automotive industry. Proven as a useful in-depth resource and comprehensive reference for modern automotive systems engineers, students, and researchers, this book speaks from the perspective of the overall drive train system and not just its individual components. New to the second edition: A case study appendix that breaks down the Toyota Prius hybrid system Corrections and updates of the material in the first edition Three new chapters on drive train design methodology and control principles A completely rewritten chapter on Fundamentals of Regenerative Braking Employing sufficient mathematical rigor, the authors comprehensively cover vehicle performance characteristics, EV and HEV configurations, control strategies, modeling, and simulations for modern vehicles. They also cover topics including: Drive train architecture analysis and design methodologies Internal Combustion Engine (ICE)-based drive trains Electric propulsion systems Energy storage systems Regenerative braking Fuel cell applications in vehicles Hybrid-electric drive train design The first edition of this book gave practicing engineers and students a systematic reference to fully understand the essentials of this new technology. This edition introduces newer topics and offers deeper treatments than those included in the first. Revised many times

First Impressions

There is a growing crisis in our oceans as rates of infectious disease outbreaks are on the rise. Marine epidemics have the potential to cause a mass die-off of wildlife from the bottom to the top of the food chain, impacting the health of ocean ecosystems as well as lives on land. Fueled by sewage dumping, unregulated aquaculture, and drifting plastic in warming seas, ocean outbreaks are sentinels of impending global environmental disaster. *Ocean Outbreak* follows renowned scientist Drew Harvell and her colleagues as they investigate how four iconic marine animals—corals, abalone, salmon, and starfish—have been devastated by disease. Based on over twenty years of research, this firsthand account of the sometimes creeping, sometimes exploding impact of disease on our ocean's biodiversity ends with a hopeful message. Through policy changes and the implementation of innovative solutions from nature, we can reduce major outbreaks, save some ocean ecosystems, and protect our fragile environment.

Stagecraft Fundamentals Second Edition tackles every aspect of theatre production with Emmy Award-winning author Rita Kogler Carver's signature witty and engaging voice. The history of stagecraft, safety precautions, lighting, costumes, scenery, career planning tips, and more are discussed, illustrated by beautiful color examples that display step-by-step procedures and the finished product. This second edition offers even more in-demand information on stage management, drawing and drafting (both by hand and CAD), lighting fixtures, and special effects. Also new to this edition are current articles from Lighting and Sound America, brand new diagrams that illustrate hard-to-grasp concepts, and a plethora of information on European conversions, standards, and practices, making the skills you learn applicable to stage jobs on either side of the ocean! The accompanying website, www.stagecraftfundamentals.com is bursting with additional material such as an instructor's manual, exercises and study questions that coincide with chapters from the book, CAD drawings, color theory, manufacturing information, and so much more to help you along the way as you learn all about the world of theatre production! Praise for the Book: Beautifully written! The author has succeeded in relaying technical theatre information without being too technical and putting the reader to sleep. I read three

sentences and instantly knew this book was for me and the way I teach. When I think back on the insufferable intro to tech theatre books I had to read, I feel cheated I didn't have this one as a student. I will be using this text in my class! -- Rob Napoli, Designer and Technical Director at Penn State University, Berks Campus This text has tempted me to return to teaching with a textbook for the first time in seven years. The language is both accessible and informal yet the text goes a long way in debunking some of the typical jargon that may alienate students just getting into the field, or trying it out for the first time. The illustrations (the text is full of them) coupled with the stories reinforce the fundamental information being conveyed. -- John Paul Devlin, Associate Professor of Theatre at Saint Michael's College What a great idea! Thank heavens someone is doing this for students at that impressionable age. That has been one of my mantras - education of teachers and students on the use of scenic materials. The teachers don't have enough time in college to learn and do everything they have to teach. Most get thrown into the theatre area by default and struggle with designing/building/painting the scenery. -- Jenny Knott, Rosco Stagecraft Fundamentals is beautifully illustrated throughout, and the profusion of color on every page gives this textbook the appearance of a coffee table book. The writing is clear and personal, which should be very appealing to students. Rita Carver covers all aspects of theatre production from scenery, to lighting, to an actor's makeup. Her close ties to the New York theatre scene gives this book a special insight into the professional world, one that goes well beyond what is found in most college

textbooks. -- John Holloway, Professor in the Theatre Department at the University of Kentucky and President of the International Association of Theatrical stage Employees (IATSE) Local 346. I can't thank you enough for Stagecraft Fundamentals. I have been teaching stagecraft since 1976 and you have saved me from the nightmare of writing a text to suit my class needs....After two semesters with your text, I have found that I had more time to develop the skills necessary within the classroom than before. The humor that you have infused in the book has enticed my students to read on. That alone makes this text invaluable. --Meta Lasch, Assistant Professor, West Liberty University Written by an Emmy Award-winning designer Beautifully illustrate
