Wild Fowl Decoys

The West has always been a symbol of the wild frontier, rugged adventure, and dangerous exploration. However, if it wasn't for fear of the unknown, the West would just be another cardinal direction. Old Scratch and Owl Hoots delves into that fear and captures it in fourteen tales of terror set in the West ranging from the 1800s to the present day. Take a gander inside and you'll find stories dealing with a strange creature on Antelope Island that can never satisfy its hunger a young girl kidnapped by highwaymen; but she carries a dangerous secret a woman's vacation to Zion National Park that takes a dark turn when she can't stop hearing the cries of a newborn baby an outlaw on the run from Porter Rockwell who finds more than he bargains for in the Utah wilderness a war veteran who carries a darkness inside him that threatens his very own family. Experience these stories and more in Old Scratch and Owl Hoots. All the stories in the anthology are written by authors with Utah connections. Some are veterans at the craft, while others are making their debut. Cozy up next to a campfire and delve into these fourteen stories and find out why it's dangerous to be out and about in the West when the sun goes down.

The Ultimate Guide to Science Fiction

J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, *The First Americans* is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be pursued as a science."

The Chinese are inordinately proud of having invented, among a whole host of other things, the compass (without which the world would have got lost), paper (without which books would not exist), the printing press (ditto), porcelain (no pretty matching chinaware), silk (no decadence), pasta (what would the Italians eat?), the wheelbarrow (how would civilisation have fared without it?) and the bristle toothbrush. A guide to understanding the Chinese which dispels or confirms preconceived prejudices with humor and insight.

Never Love an Outlaw

The Xenophobe's Guide to the Chinese

Wall Street's miasmal garbage washes up on the Jersey Shore when a small time broker falls in love: Is he attracted to the beautiful lady — or her brother's inside information? Held spellbound by a steamy, auburn-haired woman with a dubious past and a get-rich-quick, insider trading scheme, Austin Carr knocks down a beehive of bad-acting Bonacellis, including the ill-tempered "Mr. Vic" Bonacelli, who wants his redhead back, and local mob lieutenant Angelina "Mama Bones" Bonacelli, architect of a strange and excruciating death trap for the fast-talking stockbroker she calls smarty pants. To survive, Austin must unravel threads of jealousy, revenge and new affections, discover the fate of a pseudo ruby called the Big Mojo and slam the lid on a pending United States of America vs. Austin Carr insider trading case. Can Austin and his Jersey Shore mouthpiece possibly out maneuver the savvy U.S. District Attorney from Manhattan? Will anything matter

for Austin ever again if Mama Bones flips that switch? Praise for BIG MOJO ...
“Darkly comic and always entertaining — with an outrageous cast of characters including a scheming grandmother and a mysterious redhead. Our engaging hero, fueled by honor and passion, does the best he can in a world where the bad guys seem determined to do him in. Gordon Gekko meets Janet Evanovich in this wry and winning caper — Jack Getze does it again!” — Hank Phillippi Ryan, Agatha, Anthony and Mary Higgins Clark Award winning author of Truth Be Told “If Jack Getze’s Austin Carr novels aren’t on your must-read list, you don’t know what you’re missing. Austin Carr’s that buddy your wife doesn’t like you to hang out with. Fast-talking, wisecracking, and hard-living, he’s the type of guy who swears he’s only ever looking for a good time, and yet every night out with him seems to end in a fight. But you can’t deny he’s got heart — and BIG MOJO is Carr’s most epic adventure yet. It’s got frame-ups. Insider trading. Stolen jewels. Double-crosses. Triple-crosses. Love potions. Gunplay. And enough outsized characters it could only take place in the great state of New Jersey. So pick it up. Give it a read. But maybe tell the missus you’re hanging out with someone else.” — Chris F. Holm, author of the Collector Series “There’s no way you can lose with an Austin Carr novel with a gorgeous redhead, a character with the moniker of “Mama Bones”, a double-crossing business partner, more bad guys than can be seen in one place outside of the White House, and Austin’s smart mouth that surely he learned by reading lots of Robert B. Parker’s character Spenser ... A truly rollicking, fun, action-filled read with more twists than a fevered revival of Hula Hoop fanatics at a Jersey Shore ballroom ... And then, there’s that redhead. Always that redhead ... ” — Les Edgerton, author of The Genuine, Imitation, Plastic Kidnapping and others “The irrepressible Austin Carr is back, and he’s sly and sardonic as ever. Jack Getze’s BIG MOJO is a rollercoaster ride you don’t want to miss!” — Hilary Davidson, Anthony Award Winning Author of Blood Always Tells

This life of Marcel Proust will send readers back to Proust's classic Remembrance of Things Past. To those who have never read it, or to those who have previously tried and failed, Edmund White's evocation of Proust's life and work will be the guide. White has a psychologist's appreciation for the strange personality of this charismatic genius. We see Proust the recluse who lay in bed all night long in his cork-lined room, obsessively rewriting his one massive work - but we also see the yearning, lonely boy, the brilliant wit and socialite, the ambitious grasper after honours, and the miserably closeted homosexual. White, the author of an award-winning biography of Jean Genet and of the classic gay novel A Boy's Own Story, is uniquely suited to write this book, and Proust is currently enjoying a renaissance.

A university campus is a place with special resonance: conjuring images of cloistered quadrangles and wood-panelled libraries, often echoing centuries of

scholarly tradition. And yet it is also a place of cutting-edge science, interactive learning, youth, vibrancy, and energy. It is this dual nature which makes the physical environment of a university so dynamic as well as a highly challenging landscape to design and manage successfully. Today, the scale of the pressures and the rate of change facing higher education institutions are greater than ever. Squeezed public spending, rising tuition fees and the growing education ambitions of developing nations are set against a backdrop of rapid technological progress and changing pedagogies. What are the repercussions for the physical realities of university planning and architecture? And how are university campuses adapting to contend with these pressures? University Trends introduces the most significant, widespread and thought-provoking trends in campus design today. Part 1 identifies current trends such as starchitecture, large-scale campus extensions, adaptive re-use, and international branch campuses. Part 2 profiles each trend via highly-illustrated, global case studies of well-publicised as well as lesser-known projects. The essential guide to current and future trends in campus design.

India, a Travel Guide

As a final installment in a military career wrought with horrid events, Jess is sent to rescue a Braugh warrior and his men from prison. All she wants is to be safely on her home planet to forget her throwback status and find a normal existence. The warrior's intimidating size and raw strength contrast with his tender nature, skillful lips and gentle touch, awakening sexual urges she thought had been stripped away years prior. Shane knows the piercings adorning Jess' body once created pain and taught her to suppress arousal and desire. And he knows what's needed to take her beyond the torture. But providing a sexual release may prove easier than convincing her something stronger lies between them. All he needs to claim his angel, in every way, is her consent.

The environment of a university - what we term a campus - is a place with special resonance. They have long been the setting for some of history's most exciting experiments in the design of the built environment. Christopher Wren at Cambridge, Le Corbusier at Harvard, and Norman Foster at the Free University Berlin: the calibre of practitioners who have shaped the physical realm of academia is superlative. Pioneering architecture and innovative planning make for vivid assertions of academic excellence, while the physical estate of a university can shape the learning experiences and lasting outlook of its community of students, faculty and staff. However, the mounting list of pressures - economic, social, pedagogical, technological - currently facing higher education institutions is rendering it increasingly challenging to perpetuate the rich legacy of campus design. In this strained context, it is more important than ever that effective use is made of these environments and that future development is guided in a manner that will answer to posterity. This book is the definitive compendium of the prestigious sphere of campus design, envisaged as a tool to help institutional leaders and designers to engage their campus's full potential by revealing the narratives of the world's most successful, time-honoured and memorable university estates. It charts the worldwide evolution of university design from the Middle Ages to the present day, uncovering the key episodes and themes that have conditioned the field, and through a series of case studies profiles universally-acclaimed campuses that, through their planning, architecture and landscaping, have made original, influential and striking contributions to the field. By understanding this history, present and future generations can distil important lessons for the future. The second edition includes revised text, many new images, and new case studies of the Central University of Venezuela and Indian Institute of Management Ahmedabad.

While perturbative QCD methods fully describe experimental results at high energies, and chiral perturbation theory is the low energy effective theory of the strong interactions, a form of duality is observed connecting these two regimes. In these intermediate kinematics, a wide variety of reactions are observed which can be described simultaneously by single particle (quark) scattering, and by exclusive resonance (hadron) scattering. The contributions in this proceedings volume discuss recent and existing results, and aim to foster current and future research, investigating the phenomenon of quark-hadron duality. This unique volume contains research work by scientists from different arenas of hadronic physics, dealing with different manifestations of quark-hadron duality.

Jiji's extensive understanding of how students think and learn, what they find difficult, and which elements need to be stressed is integrated in this work. He employs an organization and methodology derived from his experience and presents the material in an easy to follow form, using graphical illustrations and examples for maximum effect. The second, enlarged edition provides the reader with a thorough introduction to external turbulent flows, written by Glen Thorncraft. Additional highlights of note: Illustrative examples are used to demonstrate the application of principles and the construction of solutions, solutions follow an orderly approach used in all examples, systematic problem-solving methodology emphasizes logical thinking, assumptions, approximations, application of principles and verification of results. Chapter summaries help students review the material. Guidelines for solving each problem can be selectively given to students.

Choose to Lose

I'M FALLING FOR AN OUTLAW I HATE MEGAN I wasn't supposed to end up in an outlaw biker's bed. I wasn't supposed to love it. I definitely wasn't supposed to crave his fiery kisses, beg for his touch, or ache to know the man behind the evil looking ink and scarred smirk. I was the good girl. He was the monster. Then everything changed. I became a prisoner. I prayed for Skin to save me. He did - and he kept me for himself. He's no saint, and I'm no angel. They've already taken so much from me. I'm scared he'll take what's left. Never love an outlaw, they said.

I believed it. So why can't I stop myself from falling for this bad boy so hard I break? SKIN I went psycho when I saw her in that dirty whorehouse. She's everything I never wanted, a spitfire with a body meant for claiming. Then she told me her secret, and I almost needed a straitjacket. I saved her life instead. I gave her a second chance. I know she's a marked woman, caught between my club and the b*stards I killed. Damn if I won't make her wear my name, even if she's trouble on two long legs I can't stop picturing wrapped around me. I'll brand her, bed her, own her, no matter how much hell I'll pay. Outlaws love like ticking time bombs, and I'm gonna blow Meg's world apart 'til she's begging for more The Outlaw Love books are stand alone romance novels featuring unique lovers and happy endings. No cliffhangers! This is Skin and Megan's story in the Deadly Pistols MC series.
