## **The Custom Motorcycles of Dynamic Choppers**

'A highly readable and spiritually uplifting book about a dream come true' Wanderlust 'Touching and memorable one for armchair travellers and bike freaks' Daily Mail From London to New York, Ewan and Charley chased their shadows through Europe, the Ukraine, Kazakhstan, Mongolia and Russia, across the Pacific to Alaska, then down through Canada and America. But as the miles slipped beneath the tyres of their big BMWs, their troubles started. Exhaustion, injury and accidents tested their strength. Treacherous roads, unpredictable weather and turbulent politics challenged their stamina. They were chased by paparazzi in Kazakhstan, courted by men with very large guns in the Ukraine, hassled by the police, and given bulls' testicles for supper by Mongolian nomads. And yet despite all these obstacles they managed to ride more than twenty thousand miles in four months, changing their lives forever in the process. As they travelled they documented their trip, taking photographs, and writing diaries by the campfire. Long Way Round is the result of their adventures - a fascinating, frank and highly entertaining travel book about two friends riding round the world together and, against all the odds, realising their dream.

Experience one of the first novels from New York Times bestselling author Ted Dekker. “[Heaven’s Wager is] genuinely exciting . . . fast paced . . . spine-tingling . . .” —Publishers Weekly A thriller unlike any you have ever read. A love strong enough to bring a tremor to your bones. A sacrifice powerful enough to make heaven weep. At the close of World War II, a shell-shocked soldier, Jan Jovic, was forced to inflict a game of life and death on a peaceful Bosnian community. In a few short hours, this young man was confronted by more love—and hate—than most experience in a lifetime. Years later, Jan has become a world-renown writer with widespread influence in the United States, his past buried deep in his memory. Until the most inopportune time, the game Jan witnessed comes back to haunt him . . . and unwittingly leads him to a beautiful but broken woman caught in an underworld of crime. He must now defeat an evil rarely seen. But there is a price. One that even this war-scarred soldier can't imagine. “Well, well, guess what I’ve found. A fiction writer with a rare knack for a compelling story, an expansive reservoir of clever ideas, and a unique dry wit that makes me laugh.” —Frank Peretti, New York Times bestselling author “Rarely does a novel grip a reader’s heart and soul the way Heaven’s Wager does. Dekker is among a very small number of writers who have mastered the challenge of blending sound theology with knock-your-socks-off storytelling.” —Robert Liparulo, novelist and contributing editor of New Man magazine

Amidst rumors that the Paris opera house is haunted, Christine Daaé, a young Swedish girl, performs at a gala and attracts attention from both her childhood sweetheart, Raoul, and the Phantom, who is living underground. Suddenly, mysterious circumstances abound at the opera house: a stagehand is found dead, managers receive letters demanding that Christine sing the lead role, and a chandelier crashes down into the audience. When Christine reunites with Raoul, the phantom grows dangerously jealous. Will Christine stay on the stage or disappear into the opera house's dark cellars and grim secrets? Gaston Leroux's Gothic novel was first published in French in 1911. This is an unabridged version of the translation by Alexander Teixeira de Mattos, published the same year.

From the publishers of Motorcycle Consumer News, *Shifting Gears at 50* is a one-of-a-kind motorcycling manual for returning and late-entry riders, essentially anyone 40 years old and up who's looking to hit the road on two wheels. Author Philip Buonpastore, a motorcycle journalist and retired US Air Force photographer, helps readers gear up to get back on a motorcycle (or get on one for the first time). In Part 1, "Becoming a Motorcyclist," Buonpastore discusses the basics of buying the right bike, gear, and equipment and getting the bike up to speed. The book continues with a good overview of learning to ride, the importance of taking a road course, venturing out on the first ride, and extending rides to long-distance jaunts. Throughout Part 1 are sidebars by riding- safety instructor and expert Walt Fulton, offering sound advice on safety precautions and execution for every leg of the new and returning rider's journey. The author emphasizes what older riders should be aware of and which factors can affect their rides. Adding lots of great firsthand advice are humorous and helpful stories collected by the author and related by

returning riders at various ages, from their late 30s to 60s. In Part 2, Buonpastore shares five of his favorite travelogues covering his long-distance tours around the US, from the American South to the west coasts. This section is illustrated by over 100 of the author's breathtaking photographs of the various locations he toured on his bike. The foreword to the book is provided by best-selling motorcycle author David Hough (author of I-5 Press's Proficient Motorcycling and Mastering the Ride). Hough writes, "If you're getting into today's motorcycling at an age your doctor would describe as 'middle aged' or 'senior,' do you yourself a clever favor and read Phil's book."

### **When Heaven Weeps**

"I gained a great deal this book and expect every other reader will gain likewise" -- Hugh Anderson, MBE, World Champion 1963, '64 and '65 writing in the Foreword. A different and fascinating new look at classic motorcycling with an international flavour -- sure to appeal to all owners (and intending owners) of classic bikes. "Classic Motorcycling" is about buying, riding and maintaining classic motorcycles. It comes complete with sections on survival rates of classics and their price appreciation over recent years with future predictions, and is literally packed full of advice for both aspiring and experienced owners. From choosing the right bike, training for today's traffic, clothing, safety, maintenance, how and where to buy those all important spares, equipping a workshop, projects to improve most

classics to simply experiencing the joy of ownership -- its all here.

### **Piaggio Vespa**

Few paint a more vivid or varied picture of the joys of riding than this collection of stories from a motorcycling life by Lance Oliver, who has spent more time than most of us thinking about and writing about the art and practicalities of motorcycling.

### **Denim Style**

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis

geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.
