signals needed to maintain the right-of-way. The company also had a reputation for building durable velocipedes, hand cars and push cars for line crews. In the first decade of the 1900s, Buda's business grew 300%. Produced in 1907 when the company was running hot, this detailed catalog runs over 300 pages and is profusely illustrated. It's a wonderful reference for the docent, model railroader, or rail fan.
