ACCA F9 Financial Management

This Study Text has been reviewed by the examiner and concentrates on the key areas of the syllabus, taking into account the examiner's guidance on how topics will be examined. The Study Text has a step-by-step approach to topics and lots of exercises in which you can practise the calculations. We provide a detailed chapter on spreadsheets and a basic maths appendix, for those who need some revision in that area.

Public Sector Accounting

Shows how everyone has the capacity to succeed and how most use only a small portion of their talents.

ACCA Approved - F2 Management Accounting (September 2017 to August 2018 exams)

'Accounting for Business' is ideal for undergraduate students on business and accounting courses who need to understand the nuts and bolts of financial accounting. This popular textbook has always enjoyed a deserved reputation for accessibility and thoroughness. Now in its third edition, its contents have been fully updated and restructured to make them even easier to use. Readers will benefit from the coverage of current accounting practices and legislation, in addition to the range of worked examples and self-test activities throughout the book. 'Accounting for Business' clearly explains accounting information's role in making sound business decisions and focuses upon the aspects of accounting practice which are most relevant to the non-specialist manager. It is ideal for first year undergraduates of business studies, higher students and those pursuing professional accountancy qualifications. This third edition has been restructured, to further enhance its 'student centred' approach. The content has now been broken down into 25 roughly equivalent 'bite-sized' individual study topics. Each of these requires 6 hours of study time, enabling this book to support a full scale semester course with two topics a week, or a full year course at one topic a week. Includes a wide selection of topical case studies, with a broad spread of international examples.

F5 Performance Management Pm

Since the 1970s, a burgeoning role has emerged for public sector accounting in reporting many non-financial measures of government performance. This collection brings together literature from diverse sources to cover: Volume One: Budgeting Volume Two: Financial Accounting and Reporting Volume Three: Auditing Volume Four: Comparative International Studies A first introduction from the editor deals with governance, public money and performance measurement (covering Volumes I-III), while the second looks at comparative international research issues (Volume IV).

Management and Cost Accounting

The value of a corporation is the discounted present value of future cash flows provided by the company to the shareholders. The valuation process requires that the corporate financial decision maker determine the future free cash flow to equity, the short-term growth rate, the long-term growth rate, and the required rate of return based on market beta. This book provides a template for demonstrating corporate valuation using a real company—Coca-Cola. The data used in this book comes from the financial statements of Coca-Cola available on EDGAR. Other data are from SBBI, Yahoo! Finance, the U.S. Bureau of Economic Analysis, Stocks, Bonds, Bills, and Inflation, Market Results for 1926–2010, 2011 Yearbook, Classic Edition, Morningstar, and US Department of the Treasury.
