Once Upon a Toad

A girl gets into a mouthful of trouble in this “toadally” fractured fairy tale, from the author of the Mother-Daughter Book Club series. Once upon a time, Cat Starr lived with her astronaut mom in Houston. But when her mother gets sent on a long-term mission, Cat has to move to a faraway land—her dad’s house, halfway across the country—and share a room with her real-life evil stepsister, Olivia. Just when Cat can’t take it anymore, Great Aunt Abyssinia comes to the rescue. And things go from bad to cursed. The next morning, Cat opens her mouth and a toad hops out! What’s more, when Olivia speaks, diamonds and flowers appear. How unfair is that? Before you can say “happily ever after,” the girls are on the run from jewel thieves and a government agency. Can Cat save the day—and get rid of all those toads? This is an enchanting fractured fairy tale from acclaimed Mother-Daughter Book Club author Heather Vogel Frederick.

Elementary Mathematics

Carrier Based Drug Delivery provides an overview of the latest development in drug delivery technologies based on liposomes, tubules, polymeric micelles, and

micro- and nanoparticulate carriers.

Little Explorers: The Animal World

In Practical Thinking de Bono's theme is everyday thinking, how the mind actually works – not how philosophers think it should. Based on the results of his famous Black Cylinder Experiment (a critical thinking task that asks participants why they think a black cylinder falls over), de Bono explores the four practical ways of being right. From there he picks out and names the five levels of understanding – and the five major mistakes in thinking. From memes and Instagram to twitter and bestselling books like Mistakes I Made At Work, mistakes – and what we can learn from them – are a hot topic. With Edward you'll learn exactly why we all make them.

A Dolphin Wish

Carrier-based Drug Delivery

Introducing two more books in the LITTLE EXPLORERS series, an interactive nonfiction series for curious youngsters. With more than 30 flaps, THE ANIMAL WORLD provides little ones with hands-on fun! THE ANIMAL WORLD is a lively introduction to all types of animals, where children can lift the flaps to learn about all types of amazing animals and the environments they live in. Young readers will be amazed as they find out all about the fastest animals in the world, the rarest animals in the wild, animals

living in the deepest parts of the ocean, and much, much more. This book features over 30 sturdy flaps to lift, along with charming, kid-friendly artwork that introduces new concepts and vocabulary in a simple and accessible way.

Practical Thinking

Join twins Mia and Maddie and their sidekick little sister, LuLu, as they travel the country finding adventure, mystery, and sometimes mischief along the way. Together with their famous mother, singer Gloria Glimmer, and their slightly wacky nanny Miss Twist, the sisters learn lessons about being good friends, telling the truth, and a whole lot more. In *A Dolphin Wish* a three-night stop in the city of San Diego seems like it might be just the break the girls need—lovely weather and great sights to see. That is until they hear animal handlers at “Watery World” talking about the trouble they’ve been having keeping the animals in their habitats. Mia and her sisters cannot resist a challenge and they talk Miss Twist into another visit to the educational amusement park to search for clues as to what or who is helping the animals escape.
