Jeff discovers he's a serial killer clone—and he's got to track down others like him before it's too late in this Bram Stoker Award-nominated novel, a thrilling YA companion to *Cain's Blood*. This dark, literary thriller is a story about blood: specifically, the DNA of the world's most notorious serial killers, captured and cloned by the Department of Defense to develop a new "breed" of bio-weapons. The program is now in Stage Three—with dozens of young male clones from age ten to eighteen kept and monitored at a private facility without any realization of who they really are. Some are treated like everyday kids. Others live prescribed lives to replicate the upbringing of their DNA donors. All wonder why they can't remember their lives before age ten. When security is breached and the most dangerous boys are set free by the now-insane scientist who created them, only one young man can help find the clones before their true genetic nature grows even more horrific than the original models: a fifteen-year-old boy, an every-boy...who has just learned that he is the clone of Jeffrey Dahmer.

Scott McCloud tore down the wall between high and low culture in 1993 with *Understanding Comics*, a massive comic book about comics, linking the medium to such diverse fields as media theory, movie criticism, and web design. In *Reinventing Comics*, McCloud took this to the next level, charting twelve different revolutions in how comics are generated, read, and perceived today. Now, in *Making Comics*, McCloud focuses his analysis on the art form itself, exploring the creation of comics, from the broadest principles to the sharpest details (like how to accentuate a character's facial muscles in order to form the emotion of disgust rather than the emotion of surprise.) And he does all of it in his inimitable voice and through his cartoon stand-in narrator, mixing dry humor and legitimate instruction. McCloud shows his reader how to master the human condition through word and image in a brilliantly minimalistic way. Comic book devotees as well as the most uninitiated will marvel at this journey into a once-underappreciated art form.

Illustrations used for story-telling and mirth-making have enlivened Asian walls, scrolls, books, public and private places, and artifacts for millennia. Often playful and humorous, Asian pictorial stories lent conspicuous elements to contemporary comic art, particularly with their use of narrative nuance, humor, satire, and dialogue. *Illustrating Asia* is a fascinating book on a subject that is of wide and topical interest. All of the articles consider cartoon and/or comic art in the historical and social setting of seven South, Southeast, and East Asian countries: India, Taiwan, Malaysia, Indonesia, Sri Lanka, China, and Japan. The contributors treat comic and narrative art—including comic books, comic strips, picture books, and humor and fan magazines—in both historical and socio-cultural perspectives, as well as portrayals of ancient Chinese philosophy, gender, and the enemy in cartoons and comics. Contributors: Laine Berman, John A. Lent, Fusami Ogi, Rei Okamoto, Ronald Provencher, Aruna Rao, Kuiyi Shen, Shimizu Isao, Shu-chu Wei, Yingjin Zhang.
