### Women Who Run with the Wolves

In 1931, four people, including Glory Conway, escape the political unrest in Baskul, China by boarding a plane, bound for Peshawar. The plane, however, much to their dismay, has been hijacked and eventually crash lands deep in the far reaches of the Tibetan Himalayas. Seeking shelter, the group soon finds themselves in the valley of the blue moon, guests at a lamasery, called Shangri-La.

### A Wolf Called Wander

“Lord, I believe. Help my unbelief!” (Mark 9:24) Her circumstances might not have been as dramatic as the father begging Jesus for a miracle, but Robin felt just as desperate in her faith. Feeling lost in a spiritual desert, this was the most honest prayer she could offer. Can you relate to struggling in your faith but longing to believe? Faith is tidy and neat for some, never unwavering and always so sure. And maybe that’s how you used to feel, but now your once-sure beliefs are less certain, the prescribed faith of your youth no longer enough. Perhaps life isn’t turning out like you thought it would. Heartbreak and challenges stir doubt. Sunday school answers fall short. God seems distant. Inviting you to find hope and healing in your own story within the pages of hers, in *For All Who Wander*, Robin Dance will help you: Abandon the guilt and shame attached to your questions or doubts. Broaden your understanding of God’s grace and faithfulness. Release hostage-holding lies to enable you to embrace your identity, hope, and value in Christ. Reframe your view of difficulties and disappointments as you understand their redemptive and transformative value. Trust that God is working in your wandering to restore and strengthen your faith. As you walk through Robin’s story with her, you’ll find out for yourself that sometimes wandering is the path that leads you back to God.

## **The History of Middle-Earth Part One**

"It took me a long time and most of the world to learn what I know about love and fate and the choices we make, but the heart of it came to me in an instant, while I was chained to a wall and being tortured." So begins this epic, mesmerizing first novel by Gregory David Roberts, set in the underworld of contemporary Bombay. Shantaram is narrated by Lin, an escaped

convict with a false passport who flees maximum security prison in Australia for the teeming streets of a city where he can disappear. Accompanied by his guide and faithful friend, Prabaker, the two enter Bombay's hidden society of beggars and gangsters, prostitutes and holy men, soldiers and actors, and Indians and exiles from other countries, who seek in this remarkable place what they cannot find elsewhere. As a hunted man without a home, family, or identity, Lin searches for love and meaning while running a clinic in one of the city's poorest slums, and serving his apprenticeship in the dark arts of the Bombay mafia. The search leads him to war, prison torture, murder, and a series of enigmatic and bloody betrayals. The keys to unlock the mysteries and intrigues that bind Lin are held by two people. The first is Khader Khan: mafia godfather, criminal-philosopher-saint, and mentor to Lin in the underworld of the Golden City. The second is Karla: elusive, dangerous, and beautiful, whose passions are driven by secrets that torment her and yet give her a terrible power. Burning slums and five-star hotels, romantic love and prison agonies, criminal wars and Bollywood films, spiritual gurus and mujaheddin guerrillas--this huge novel has the world of human experience in its reach, and a passionate love for India at its heart. Based on the life of the author, it is by any measure the debut of an extraordinary voice in literature.

### **For All Who Wander**

A stimulating exploration of wandering, being lost, and the uses of the unknown from the author of *Recollections of My Nonexistence* Written as a series of autobiographical essays, *A Field Guide to Getting Lost* draws on emblematic moments and relationships in Rebecca Solnit's life to explore issues of uncertainty, trust, loss, memory, desire, and place. Solnit is interested in the stories we use to navigate our way through the world, and the places we traverse, from wilderness to cities, in finding ourselves, or losing ourselves. While deeply personal, her own stories link up to larger stories, from captivity narratives of early Americans to the use of the color blue in Renaissance painting, not to mention encounters with tortoises, monks, punk rockers, mountains, deserts, and the movie *Vertigo*. The result is a distinctive, stimulating voyage of discovery.

### **Kind of a Big Deal**

For readers of Jon Krakauer and Douglas Preston, the critically acclaimed author and journalist Jon Billman's fascinating, in-depth look at people who vanish in the wilderness without a trace and those eccentric, determined characters who try to find them. These are the stories that defy conventional logic. The proverbial vanished without a trace incidences, which happen a lot more (and a lot closer to your backyard) than almost anyone thinks. These are the missing whose situations

are the hardest on loved ones left behind. The cases that are an embarrassment for park superintendents, rangers and law enforcement charged with Search & Rescue. The ones that baffle the volunteers who comb the mountains, woods and badlands. The stories that should give you pause every time you venture outdoors. Through Jacob Gray's disappearance in Olympic National Park, and his father Randy Gray who left his life to search for him, we will learn about what happens when someone goes missing. Braided around the core will be the stories of the characters who fill the vacuum created by a vanished human being. We'll meet eccentric bloodhound-handler Duff and R.C., his flagship purebred, who began trailing with the family dog after his brother vanished in the San Gabriel Mountains. And there's Michael Neiger North America's foremost backcountry Search & Rescue expert and self-described "bushman" obsessed with missing persons. And top researcher of persons missing on public wildlands Ex-San Jose, California detective David Paulides who is also one of the world's foremost Bigfoot researchers. It's a tricky thing to write about missing persons because the story is the absence of someone. A void. The person at the heart of the story is thinner than a smoke ring, invisible as someone else's memory. The bones you dig up are most often metaphorical. While much of the book will embrace memory and faulty memory -- history -- The Cold Vanish is at its core a story of now and tomorrow. Someone will vanish in the wild tomorrow. These are the people who will go looking.

This new hardcover edition brings together the first five volumes of The History of Middle-earth--The Book of Lost Tales, Parts 1 and 2, The Lays of Beleriand, The Shaping of Middle-earth, and The Lost Road--into one volume. J.R.R. Tolkien is famous the world over for his unique literary creation, exemplified in The Hobbit, The Lord of the Rings, and The Silmarillion. What is less well known, however, is that he also produced a vast amount of further material that greatly expands upon the mythology and numerous stories of Middle-earth, and which gives added life to the thousand-year war between the Elves and the evil spirit Morgoth, and his terrifying lieutenant, Sauron. It was to this enormous task of literary construction that Tolkien's youngest son and literary heir, Christopher, applied himself to produce the monumental and endlessly fascinating series of twelve volumes, The History of Middle-earth.

Molly Mahood pays special attention to the expectations of the play's first audience, and to our modern experience of seeing and hearing the play. In a substantial new addition to the Introduction, Charles Edelman focuses on the play's sexual politics and recent scholarship devoted to the position of Jews in Shakespeare's time. He surveys the international scope and diversity of theatrical interpretations of The Merchant in the 1980s and 1990s and their different ways of tackling the troubling figure of Shylock.

## **The Fellowship of the Ring**

Sometimes he plays with horses. Sometimes he plays the blues. Sometimes he plays Karma Coming to collect on payment over-due. Hit-man? Vigilante? Knight-errant? Your call. This is his story, told his own way. For the woman he loves. Will she stay with him, or run like hell? What would YOU do? Eclipse of the Heart is Adam Adrian Crown's first novel. He definitely knows how to tell a good story. Though not my typical fare, I was drawn into Eclipse immediately, in spite of myself. Eclipse is ostensibly a memoir, of sorts, written by the protagonist to reveal his past to a woman he has fallen in love with. It is more character-driven than plot driven, although two threads do pay off nicely, making this a work that lies somewhere in a no-man's-land between literary fiction and genre fiction. The protagonist, "Jack," breaks the typical hit-man/vigilante mold. He's not a cold-blooded psychopath. He's not the usual "ex-superman: " ex-Marine, ex-CIA, ex-Special Forces ex cetera, ex cetera, ex cetera. He has no superpowers. He's just a regular guy. Most killers kill because they feel no empathy; Jack kills because he feels tremendous empathy. In true picaresque style, Eclipse of the Heart is episodic in structure. Although the chapters are inter-related, most of them could easily stand alone as short stories. Several of them would make terrific movies. Although the protagonist has moments of loquacity, the style is generally terse, taut and edgy, like a good film noir. It is replete with profanity, violence and sex - but none of it gratuitous. "Jack's" recollections wander. They aren't precisely chronological. He gets lost, goes off on tangents, and sometimes repeats himself. The effect is the creation of a character that is extraordinarily believable, and an account that feels very much like reading his uncensored, unedited diary. More

than once I had to remind myself that this was a work of fiction. The author does not tie up all the loose ends at the conclusion, and leaves an important question unanswered, left for us to contemplate. Maybe there's a sequel in the offing. From moment to moment, Eclipse of the Heart is in turn poignant, funny, disturbing, gentle, violent, ugly and beautiful. It is a powerful and compelling read. -- Laura Souris an excellent storyteller. At times, I could have sworn I was reading an autobiographyhas an edge and a rugged appeal truly one of the talented writers who deserves recognition. -- Francine Zane for Readers' Favorite

(Music Sales America). An arrangement of one of the songs from The Little Prince , a fabulous, moving and melodic opera by Rachel Portman with luxurious counter melodies and placid harmonies. This opera is based on French philosopher and aviator Antoine de Saint-Exupery's novella, Le Petit Prince, an international classic penned in 1943. It was composed by Rachel Portman, the first woman to win an Oscar for a film score (Emma-1996), with text by Nicholas Wright. While Saint-Exupery's moving parable of self-discovery is the foundation of the opera's appeal, it is Portman's music that gives the work its dramatic impact. The characters are brought to life and portrayed with a delicate combination of humour and poignancy. This SSA and Piano arrangement of The Stars by Richard Allain.

These grapes should rot. Instead they ferment. What better magic potion could there be, to convey us to the past?' Impelled by a dual thirst, for wine and for knowledge, Nina Caplan follows the vine into the past, wandering from Champagne's ancient chalk to the mountains of Campania, via the crumbling Roman ruins that flank the river Rhône and the remote slopes of Priorat in Catalonia. She meets people whose character, stubbornness and sometimes, borderline craziness makes their wine great: an intrepid Englishman planting on rabbit-infested Downs, a glamorous eagle-chasing Spaniard and an Italian lawyer obsessed with reviving Falernian, legendary wine of the Romans. In the course of her travels, she drinks a lot and learns a lot: about dead conquerors and living wines, forgotten zealots and – in vino veritas, as Pliny said – about herself. In this lyrical and charming book, Nina Caplan drinks in order to remember and travels in order to understand the meaning of home. This is narrative travel writing at its best.

Tania Mouscardy-Johnson's book, *When Apples aren't Enough*, takes a hard look at the many changes implemented in education over the past two decades by examining the detrimental effects mandates, such as standardized testing and test-based teacher evaluation, have had on children and American public education. Shrouded as a children's book, Mouscardy-Johnson tells the story of Miss McCarthy, a teacher who is about to retire from her long journey as an educator as a result of the closing of her school. While she could possibly continue working as a sub in another building, Miss McCarthy sees the "writing on the wall" and believes that although she has loved teaching and has been enriched by her career, it is the time to step out of her role as teacher and to start working to save public education in America. Through the clever farewell visit of a former student, Chris, Miss McCarthy is able to "school" him about the hits education has taken from the policies implemented by the adoption of No Child Left Behind and Race to the Top. Naturally, Chris is outraged and shocked, admitting that he, like the general public, never realized the devastating impact these policies and other mandates were having on public education. The book also explores the importance of tenure, unions, and supporting public education. Tania Mouscardy-Johnson's book is powerful in its message to teachers, parents, and students everywhere. The author remains positive and firmly believes that American public education will continue to "meet the needs of America's children." Ginger Calderaro- Valley Stream Teachers' Association ..".what's currently happening in education is not about being the best teacher, or even a good one." "It's about politics and very wealthy people in this country who are trying to privatize public education so that they can become even richer." "It truly is a heartbreak for those of us who believe in public education-especially those of us who have dedicated our lives to making a difference in the lives of children." ..".even as parents and concerned individuals are becoming aware of what has been happening to our educational system and even with their voicing their opposition- especially with regard to what it is doing to our children emotionally, the testing movement is still going ahead at full speed under the pretext of 'fixing' public education." "People are forgetting that throughout history, schools have played a vital role in our society. As a matter of fact, that's been a little bit of a double-edged sword for us. People look to schools as a venue to fix many social issues. Unfortunately, educators are not given the freedom nor the resources to do so, and IT'S THE CHILDREN WHO SUFFER! In the middle of the night, in a house on a quiet street in suburban Minneapolis, intruders silently murder Luke Ellis's parents and load him into a black SUV. The operation takes less than two minutes. Luke will wake up at The Institute, in a room that looks just like his own, except there's no window. And outside his door are other doors, behind which are other kids with special talents—telekinesis and telepathy—who got to this place the same way Luke did: Kalisha, Nick, George, Iris, and ten-year-old Avery Dixon. They are all in Front Half. Others, Luke learns, graduated to Back Half, "like the roach motel," Kalisha says. "You check in, but you don't check out." In this most sinister of institutions, the director, Mrs. Sigsby, and her staff are ruthlessly dedicated to extracting from these children the force of their extranormal gifts. There are no scruples here. If you go along, you get tokens for the vending machines. If you don't, punishment is brutal. As each new victim disappears to Back Half, Luke becomes more and more desperate to get out and get help. But no one has ever escaped from the Institute. As psychically terrifying as *Firestarter*, and with the spectacular kid power of *It*, *The Institute* is Stephen King's gut-wrenchingly dramatic story of good vs. evil in a world where the good guys don't always win.

## **To, All Who Wander!**

Award-winning journalist Vivian Ho exposes a shattering true-crime story, shedding light on America's new lost generation. In 2015, the senseless Bay Area murders of twenty-three-year-old Audrey Carey and sixty-seven-year-old Steve Carter were personal tragedies for the victims' families. But they also shed light on a more complex issue. The killers were three drifters scrounging for a living among a burgeoning counterculture population. Soon this community of runaways and transients became vulnerable scapegoats of a modern witch hunt. The supposedly progressive residents of San Francisco's Haight-Ashbury, only two generations removed from the Summer of Love, now feared all of society's outcasts as threats. In *Those Who Wander*, Vivian Ho delves deep into a rising subculture that's changing the very fabric of her city and all of urban America. Moving beyond the disheartening statistics, she gives voices to these young people--victims of abuse, failed foster care, mental illness, and drug addiction. She also doesn't ignore the threat they pose to themselves and to others as a dangerous dark side emerges. With alarming urgency, she asks what can be done to save the next generation of America's vagabond youth.
