## **Understanding the Islamic Experience**

### **The Islamic Threat**

"Ever since the growth of Islam as a religious and political movement, Muslim thinkers have sought to understand the theoretical aspects of their faith by using philosophical concepts. Leaman outlines this history and demonstrates that, although the development of Islamic philosophy is closely linked with Islam itself, its form is not essentially connected to any particular religion, and its leading ideas and arguments are of general philosophical significance. The author illustrates the importance of Islamic thought within philosophy through the use of many modern examples. He describes and contrasts the three main movements in Islamic philosophy - Peripatetic, Sufi and Illuminationist - and examines the Persian as well as the Arabic traditions. Wide coverage is given to key aspects of Islamic philosophy, including epistemology, ontology, politics, ethics and philosophy of language, providing readers with a balanced view of the discipline. The second edition has been thoroughly revised and updated throughout, including the addition of two new chapters on recent debates surrounding Islam's need for an enlightenment, and on the future of Islamic philosophy."--pub. desc.

For years, international apologist Josh McDowell has been alert to the challenge of Islam—and how Muslims' objections to Christianity can raise deep doubts in believers' minds. His recent on-the-ground research with Muslims in the Middle East has crystallized into this practical resource focusing on Jesus and the gospel. Aided by Islam expert Jim Walker, McDowell lays out the evidence on the crucial issues: What kind of prophet was Jesus? Was he the Messiah? "Son of God"? "Son of Man"? What's that about? How are God and Jesus related? Can they both be God? The gospel—how could God dishonor his Son by letting him die horribly? What good did his death do? Aren't the Bible's accounts of Jesus corrupt? With all this, as well as backgrounder appendixes on the basics, believers will have authoritative evidence from Scripture and history to intelligently deal with Muslims' questions about and challenges to Christianity.

### **Understanding Islamic Finance**

Despite the West's growing involvement in Muslim societies, conflicts, and cultures, its inability to understand or analyze the Islamic world threatens any prospect for East-West rapprochement. Impelled by one thousand years of anti-Muslim ideas and images, the West has failed to engage in any meaningful or productive way with the world of Islam. Formulated in the medieval halls of the Roman Curia and courts of the European Crusaders and perfected in the newsrooms of Fox News and CNN, this anti-Islamic discourse determines what can and cannot be

said about Muslims and their religion, trapping the West in a dangerous, dead-end politics that it cannot afford. In *Islam Through Western Eyes*, Jonathan Lyons unpacks Western habits of thinking and writing about Islam, conducting a careful analysis of the West's grand totalizing narrative across one thousand years of history. He observes the discourse's corrosive effects on the social sciences, including sociology, politics, philosophy, theology, international relations, security studies, and human rights scholarship. He follows its influence on research, speeches, political strategy, and government policy, preventing the West from responding effectively to its most significant twenty-first-century challenges: the rise of Islamic power, the emergence of religious violence, and the growing tension between established social values and multicultural rights among Muslim immigrant populations. Through the intellectual "archaeology" of Michel Foucault, Lyons reveals the workings of this discourse and its underlying impact on our social, intellectual, and political lives. He then addresses issues of deep concern to Western readers—Islam and modernity, Islam and violence, and Islam and women—and proposes new ways of thinking about the Western relationship to the Islamic world.

based. The arrangement of material builds a framework to understand Islam on its own terms rather than through an externally applied structure. Islam is linked to the essential guidance of God to all humankind from the beginning of creation. This is then traced through a series of steps such as a world-view, prophecy, revelation, history, belief and practice. The structure of a whole life based on Islam is explored together with Islam's approach to other faiths and Muslims in contemporary Britain and Europe.

On Faith, Rationality, and the Other in the Late Middle Ages is an investigation of Nicholas of Cusa that seeks a deeper understanding of this important medieval intellectual and his importance for us today. One of Gergely Bakos's primary aims in this study is to understand Nicholas of Cusa's important and underexamined dimensions of his approach to dialogue with Islam. The framework and the methodology that informs this investigation was inspired by the late Professor Jos Decorte (1954-2001), a Flemish philosopher and mediaevalist at the Catholic University of Leuven in Belgium. Bakos carefully exposit his method of approaching medieval thought (Part One) and then applies and tests this method in practice (Part Two). The most extensive part of this study offers a sketch of the historical background of Nicholas's dialogue with Islam and investigates what possibilities this approach offers. All of this is placed in dialogue with two other mediaeval approaches to Islam (Thomas Aquinas and Ramon Lull). The final chapters discuss Nicholas of Cusa's project from a perspective offered by his mystical theology. The book culminates in an exploration of the possibilities of Nicholas of Cusa's approach by testing the framework of the study. Finally, the author evaluates the application of his own approach (Part Three). The study ultimately has two purposes: to contribute to a better understanding of Nicholas of Cusa's thought, on the one hand, and, on the other, to test a particular methodology and interpretative framework for the understanding of mediaeval culture.

### **Understanding Islam and Christianity**

Do Muslims promote terrorism? Are all Muslims eager to participate in a holy war? Are Muslim distrust and, in some cases, hatred of America justified? Are the West and Islam doomed to continue their enmity? The conflict between Muslims and the West, particularly America, did not begin with the attacks on the World Trade Center and the Pentagon. It has been brewing for centuries and is the result of many factors-economic, social, religious, military, national, and personal. *Understanding Muslim-West Alienation: Building a Better Future* summarizes a complex issue in easy-to-read sections. Having lived in both the Middle East and America, Arshad Khan shares a unique perspective on basic misunderstandings between Muslims and America. He spreads blame equally and recommends specific actions each side must take to resolve this long-standing conflict. Every organization has had members whose actions tarnished the reputation and image of the group and reflected poorly on other innocent members. Khan believes that the extremists who perpetrated the 9-11 attacks have "hijacked Islam." In *Understanding Muslim-West Alienation: Building a Better Future*, he overturns many stereotypes of Muslims that have developed over the years from the actions of adherents who have not followed true Islamic teachings. growing religion and how America as well as Muslims around the world can dissolve the hatred felt by many followers of Islam towards the world's superpower.

### **On Faith, Rationality, and the Other in the Late Middle Ages:**

Towards Understanding Islam is one of Mawlana Mawdudi's most popular books. The Urdu original, written in 1932, was intended as a first introduction to Islam for students and laymen and soon became a popular reader. Over a million copies have so far appeared in many of the world's languages, including Arabic, English, Persian, German, French, Italian, Portuguese, Japanese, Swahili, Turkish, Indonesian, Bengali, Hindi, Albanian, Bosnian and Georgian. Towards Understanding Islam is a religious text with a difference. It offers a simple exposition of the essential teachings of Islam: its approach to life, the articles of its faith, its scheme of worship and prayers and the social order which it envisages. Its methodology is steeped in the Qur'an. Towards Understanding Islam is one of those books which have changed the lives of many and set them along the Islamic path.

### **Women and Islam: Womens's movements in Muslim societies**

Are Islam and the West on a collision course? From the Ayatollah Khomeini to Saddam Hussein, the image of Islam as a militant, expansionist, and rabidly anti-American religion has gripped the minds of Western governments and media. But these perceptions, John L. Esposito writes, stem from a long history of mutual distrust, criticism, and condemnation, and are far too simplistic to help us understand one of the most important political issues of our time. In this new edition of *The Islamic Threat: Myth or Reality?*, Esposito places the challenge of Islam in critical perspective. Exploring the vitality of this religion as a global force and the history of its relations with the West, Esposito demonstrates the diversity of the Islamic resurgence--and the mistakes our analysts make in assuming a hostile, monolithic Islam. This third edition has been expanded to include new material on current affairs in Turkey, Afghanistan, Palestine, and Southeast Asia, as well as a discussion of international terrorism.

## **On Understanding Islam**

This book is an introduction to the classical Islamic sciences of philosophy, kalam (theology), Irfan (mysticism), usul al-fiqh (the principles of jurisprudence), fiqh (jurisprudence), and hikmat al-amali (practical philosophy and morality). An excellent guide to the foundational teachings of Islam as well as an effective introduction to further studies in the classical Islamic sciences.

## **TOWARDS UNDERSTANDING ISLAM**

From the beginning, the Abrahamic faiths—Judaism, Christianity, and Islam—have stressed the importance of transmitting religious identity from one generation to the next. Today, that sustaining mission has never been more challenged. Will young people have a faith to guide them? How can faith traditions anchor religious attachments in this secular, skeptical culture? The fruit of a historic gathering of scholars and religious leaders across three faiths and many disciplines, this important book reports on the religious lives of young people in today's world. It's also a unique inventory of creative and thoughtful responses from churches, synagogues, and mosques working to keep religion a significant force in those lives. The essays are grouped thematically. Opening

the book, Melchor Sanchez de Toca and Nancy Ammerman explore fundamental issues that have an impact on religion—from the cultural effects of global consumerism and personal technology to pluralism and individualism. In Part Two, leading investigators present three leading studies of religiosity among young people and college students in the United States, illuminating the gap between personal values and organized religion—and the emergence of new, different forms of spirituality and faith. How religious institutions deal with these challenges forms the heart of the book—in portraits of “best practices” developed to revitalize traditional institutions, from a synagogue in New York City and a Muslim youth camp in California to the famed French Catholic community of the late Brother John of Taizé. Finally, Jack Miles and Diane Winston weave the findings into a broader perspective of the future of religious belief, practice, and feeling in a changing world. Filled with real-world wisdom, *Passing the Faith* will be an essential resource for anyone seeking to understand what religions must, and can, do to inspire a vigorous faith in the next generation.
