## **Audit Guide**

Ease the transition to the new COSO framework with practical strategy Internal Control Audit and Compliance provides complete guidance toward the latest framework established by the Committee of Sponsoring Organizations (COSO). With clear explanations and expert advice on implementation, this helpful guide shows auditors and accounting managers how to document and test internal controls over financial reporting with detailed sections covering each element of the framework. Each section highlights the latest changes and new points of emphasis, with explicit definitions of internal controls and how they should be assessed and tested. Coverage includes easing the transition from older guidelines, with step-by-step instructions for implementing the new changes. The new framework identifies seventeen new principles, each of which are explained in detail to help readers understand the new and emerging best practices for efficiency and effectiveness. The revised COSO framework includes financial and non-financial reporting, as well as both internal and external reporting objectives. It is essential for auditors and controllers to understand the new framework and how to document and test under the new guidance. This book clarifies complex codification and provides an effective strategy for a more rapid transition. Understand the new COSO internal controls framework Document and test

internal controls to strengthen business processes Learn how requirements differ for public and non-public companies Incorporate improved risk management into the new framework The new framework is COSO's first complete revision since the release of the initial framework in 1992. Companies have become accustomed to the old guidelines, and the necessary procedures have become routine – making the transition to align with the new framework akin to steering an ocean liner. Internal Control Audit and Compliance helps ease that transition, with clear explanation and practical implementation guidance.

the Risk Assessment Standards? AICPA has the resources you need: Audit Risk Assessment Tool (available online only) Assessing and Responding to Audit Risk in a Financial Statement Audit - AICPA Audit Guide The Audit Risk Assessment Tool walks an experienced auditor through the risk assessment procedures and documents those decisions necessary to prepare an effective and efficient audit program. Designed to be used in lieu of cumbersome checklists, it provides a top down risk-based approach to the identification of high risk areas to allow for appropriate tailoring of audit programs which will result in audit efficiencies. The tool is available in the Online Subscription format and includes access to the full Risk Assessment Guide. The AICPA Audit Guide Assessing and Responding to Audit Risk in a Financial Statement Audit is the definitive source for guidance on applying the core principles of the risk-based audit methodology that must be used on all financial statement audits. This guide is written in an easy-to-understand style that enables auditors of all experience levels to find answers to the issues they encounter in the field. Unique insights, examples and a comprehensive case study clarify critical concepts and requirements. Disclaimer This Audit Risk Assessment Tool is designed to provide illustrative information with respect to the subject matter covered and is recommended for use on audit engagements that are generally smaller in size and have less complex auditing and accounting issues. It is designed to help identify risks, including significant risks, and document the planned response to those risks. The Audit Risk Assessment Tool should be used as a supplement to a firm's existing planning module

whether in a firm-based or commercially provided methodology. The Audit Risk Assessment Tool is not a complete planning module. The AICPA recommends the Audit Risk Assessment Tool be completed by audit professionals with substantial accounting, auditing and specific industry experience and knowledge. For a firm to be successful in improving audit quality and efficiencies, it is recommended that a 5+ years experienced auditor completes the Audit Risk Assessment Tool or the engagement team member with the most knowledge of the industry and client (often Partner in small/medium firms) provides insight to whomever is completing the ARA Tool. The AICPA recommends this should not be delegated to lower-level staff and just reviewed – it should be completed under the direction of the experienced auditor (if you delegate to inexperienced auditor you will be at risk for less effectiveness and efficiencies because the tool is intended to be completed by an experienced auditor). The Audit Risk Assessment Tool does not establish standards or preferred practices and is not a substitute for the original authoritative auditing guidance. In applying the auditing guidance included in this Audit Risk Assessment Tool, the auditor should, using professional judgment, assess the relevance and appropriateness of such guidance to the circumstances of the audit. This document has not been approved, disapproved, or otherwise acted on by a senior committee of the AICPA. It is provided with the understanding that the staff and publisher are not engaged in rendering legal, accounting, or other professional service.
