Inspiring Quotations by Indian President Dr. APJ Abdul Kalam

Spirit of India

Engineering as a Career

Greatness is not by accident. Greatness is a quality processed, honed and learnt over a lifetime of learning and hard work. Great human beings are built when a curious mind is met with life changing lessons, often early in the childhood. Just like the nature and quality of a tree is decided by the characteristic of the seed and how it is sown, the worth of a human life is shaped in the early stage of childhood. Often these life teachings as a growing up child, transform into the values which set the boundaries of one's adult actions and govern one's decisions. We all know Dr. Kalam as an eminent teacher, an excellent President, an exception scientist, a talented rocket scientist, a team man, an institution builder and a man of ethics and integrity. But what went behind the scenes, in the formative days of "Little Kalam" which shaped him slowly but surely into Dr. Kalam - the man we remember and admire. This books aspires to take you in this early history of childhood of Kalam tracking "Little Kalam" as he begins his first steps into the sands of Rameshwaram - which one day will translate into a march to the Rashtrapati Bhawan.

Pramukh Swamiji, one of the most inspiring spiritual leaders of modern times and the fifth spiritual successor of Bhagwan Swaminarayan, is the inheritor of a legacy of enlightened gurus that goes back to the early nineteenth century. Pramukh Swamiji became, through a chance meeting, friend to one of India's most eminent citizens, the eleventh president of India, Dr A.P.J. Abdul Kalam, and together they created an unparalleled fellowship of science and spirituality. In *Transcendence*, Dr Kalam, with his co-author and pupil Arun Tiwari, maps a journey of self-realization reflected in the compassionate eyes of Pramukh Swamiji, painting a delightfully open-hearted portrait of the fusion of spirituality, science and leadership. His candid vignettes from life on the centre stage of Indian technology and societal missions, Indian politics and world affairs are interwoven with revelations of a profound connection with Swamiji. He describes how his path has been illuminated by Swamiji's words and his inspirational, loving presence. Through the life of Pramukh Swamiji and the transnational work of the BAPS Swaminarayan Sanstha, Dr Kalam traces the contemporary concerns of the Indian diaspora across the world and the emerging Indian identity of a capable, right-thinking and hardworking people. Drawing from the lives of great scientists and creative leaders, *Transcendence* captures the essence of all religions and is as much a fountain of inspiration and a treasury of wisdom as it is a tribute to the multi-faith, pluralistic Indian society.

Target Three Billion

It was like any other day on the Anna University campus in Chennai. I had delivered a lecture 'Vision to Mission' and the session got extended from one hour to two. I had lunch with a group of research students and went back to class. As I was returning to my rooms in the evening the vice-chancellor, Prof. A. Kalanidhi, fell in step with me. Someone had been frantically trying to get in touch with me through the day, he said. Indeed, the phone was ringing when I entered the room. When I answered, a voice at the other end said, 'The prime minister wants to talk with you ' Some months earlier, I had left my post as principal scientific adviser to the government of India, a Cabinet-level post, to return to teaching. Now, as I spoke to the PM, Atal Bihari Vajpayee, my life was set for an unexpected change. Turning Points takes up the incredible Kalam story from where Wings of Fire left off. It brings together details from his career and presidency that are not generally known as he speaks out for the first time on certain points of controversy. It offers insight not only into an extraordinary personality but also a vision of how a country with a great heritage can become great in accomplishment, skills and abilities through effort, perseverance and confidence. It is a continuing saga, above all, of a journey, individual and collective, that will take India to 2020 and beyond as a developed nation.

Aeronautical engineer, rocket scientist, missile man, visionary, teacher and the most inspiring head of state in living memory - Avul Pakir Jainulabdeen Abdul Kalam was all these and more. Unquestionably the most revered Indian leader since Mahatma Gandhi, he transcended all the boundaries and obstacles that came his way in the course of a remarkable life; and he did so with grace and humility. A. P. J. Abdul Kalam Scientist and Humanist

Dr. Kalam was born and brought up in a multi-religious, multi-ethnic community, and this type of milieu had a profound effect on his personality. He gave equal respect to all faiths and religions; and he did not pay only lip-service to different religions. During his life, he visited the saints and seers of all faiths, discussed with them and learnt from them. He learnt what divinity and spirituality actually meant, and brought out a blended form. For him, religion is a connecting thread. He was quite at ease when he quoted from the Gita or the Hadith, or for that matter, from the holy texts of other faiths. In this book, we have made a solemn endeavour to read his mind, how he thought at every turn of his life; and this will help the readers to understand the intricacies of his thinking and how he was guided for a mission in his life. To understand him well, we have also narrated a number of incidents, accidents and events of his life, that would contribute to holistic

understanding about him. He took up the challenges and worked on them wholeheartedly; whenever he failed, he overcame his negativity and came out a stronger man than ever. This is the beauty of his character, and this makes him one of the most popular public figures of all times. May his soul rest in peace! —K. Senthil Kumar, IAS
