### **The Tylenol Mafia**

Anthony Delano went to London from Australia after an early newspaper career there and was soon a foreign correspondent for the Daily Mirror, which at that time sold nearly five million copies daily. He was stationed in Rome during the Dolce Vita days, in Paris when General De Gaulle was dismantling the French empire, then the United States where he covered, among many other dramas, the civil rights campaign and the assassination of President John Kennedy. Additional assignments took him all over the globe: wars in Africa and the Middle East, tours with the Queen and other members of the Royal Family; most hazardous of all, perhaps, the historic Beatles tour of America. In between there were executive stints in London. He was managing editor of the Mirror when the monstrous tycoon Robert Maxwell took it over. Clearly time to go. He began to teach journalism and research it academically, gaining first a Master's degree at Queensland University of Technology then a PhD from the University of Westminster (his 2001 doctoral thesis, *The Formation of the British Journalist 1900-2000*, is widely cited). He became a senior lecturer, senior research fellow and finally visiting professor at the London College of Communication. He lives in the South of France, married to Patricia, a literary scholar.

### **Family Secrets**

In 1946, years before the phrase “serial murder” was coined, a masked killer terrorized the town of Texarkana on the Texas-Arkansas border. Striking five times within a ten-week period, always at night, the prowler claimed six lives and left three other victims wounded. Survivors told police that their assailant was a man, but could supply little else. A local newspaper dubbed him the Phantom Killer, and it stuck. Other reporters called the faceless predator the “Moonlight Murderer,” though the lunar cycle had nothing to do with the crimes. Texarkana’s phantom was not America’s first serial slayer; he certainly was not the worst, either in body count or sheer brutality. But he has left a crimson mark on history as one of those who got away. Like the elusive Axeman of New Orleans, Cleveland’s Mad Butcher of Kingsbury Run, and San Francisco’s Zodiac Killer, the Phantom Killer left a haunting mystery behind. This is the definitive story of that mystery.

Bringing the World Home sheds new light on China's vibrant cultural life between 1895 and 1919—a crucial period that marks a watershed between the conservative old regime and the ostensibly iconoclastic New Culture of the 1920s. Although generally overlooked in the effort to understand modern Chinese history, the era has much to teach us about cultural accommodation and is characterized by its own unique intellectual life. This original and probing work traces the most significant strands of the new post-1895 discourse, concentrating on the anxieties inherent in a complicated process of cultural transformation. It focuses principally on how the need to accommodate the West was reflected in such landmark novels of the period as Wu Jianren's *Strange Events Eyewitnessed in the Past Twenty Years* and Zhu Shouju's *Tides of the Huangpu*, which began serial publication in Shanghai in 1916. The negative tone of these narratives contrasts sharply with the facile optimism that characterizes the many essays on the "New Novel" appearing in the popular press of the time. Neither iconoclasm nor the wholesale embrace of the new could square the contradicting intellectual demands imposed by the momentous alternatives presenting themselves. WINNER OF THE THURBER PRIZE The compelling, inspiring, (often comic) coming-of-age story of Trevor Noah, set during the twilight of apartheid and the tumultuous days of freedom that followed. One of the comedy world's brightest new voices, Trevor Noah is a light-footed but sharp-minded observer of the absurdities of politics, race and identity, sharing jokes and insights drawn from the wealth of experience acquired in his relatively young life. As host of the US hit show *The Daily Show with Trevor Noah*, he provides viewers around the globe with their nightly dose of biting satire, but here Noah turns his focus inward, giving readers a deeply personal, heartfelt and humorous look at the world that shaped him. Noah was born a crime, son of a white Swiss father and a black Xhosa mother, at a time when such a

union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the first years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, take him away. A collection of eighteen personal stories, *Born a Crime* tells the story of a mischievous young boy growing into a restless young man as he struggles to find his place in a world where he was never supposed to exist. *Born a Crime* is equally the story of that young man's fearless, rebellious and fervently religious mother - a woman determined to save her son from the cycle of poverty, violence and abuse that ultimately threatens her own life. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Noah illuminates his curious world with an incisive wit and an unflinching honesty. His stories weave together to form a personal portrait of an unlikely childhood in a dangerous time, as moving and unforgettable as the very best memoirs and as funny as Noah's own hilarious stand-up. *Born a Crime* is a must read.

### **Murder at the Sleepy Lagoon**

Why have so many central and inner cities in Europe, North America and Australia been so radically revamped in the last three decades, converting urban decay into new chic? Will the process continue in the twenty-first century or has it ended? What does this mean for the people who live there? Can they do anything about it? This book challenges conventional wisdom, which holds gentrification to be the simple outcome of new middle-class tastes and a demand for urban living. It reveals gentrification as part of a much larger shift in the political economy and culture of the late twentieth century. Documenting in gritty detail the conflicts that gentrification brings to the new urban 'frontiers', the author explores the interconnections of urban policy, patterns of investment, eviction, and homelessness. The failure of liberal urban policy and the end of the 1980s financial boom have made the end-of-the-century city a darker and more dangerous place. Public policy and the private market are conspiring against minorities, working people, the poor, and the homeless as never before. In the emerging revanchist city, gentrification has become part of this policy of revenge.

Literary Nonfiction. Sleepless and paranoid methamphetamine addicts often see "shadow people" in the darkest hours of the night. Yet it is the addicts themselves that cast a shadow over the most peaceful corners of America, driven in large numbers to commit fraud, identity theft, burglary, domestic violence, elder abuse, child abuse, assault and murder. In 2010, award-winning journalist Scott Thomas Anderson began to explore the link between crime and methamphetamine, spending sixteen months as an embedded reporter with rural county law enforcement agencies and traveling to dozens of small towns battling the epidemic across the United States. The result is SHADOW PEOPLE, an unflinching look at the havoc and heartache meth spawns in the open countryside—a window to how the drug is threatening America's wide open country spaces, fueling crimes against citizens, breaking families apart, devastating innocent children and tearing away at the psyche of each community through which it spreads. "A compelling and up-close look at one of the most corrosive issues that our communities face this book is full of the kind of front-line reporting and gritty detail needed to illuminate the meth scourge."—Greg Miller, National Security Report, The Washington Post

### **How to Read a Book**

This book describes criminal investigation from the beginning stages through the more advanced techniques for handling cases involving all major crimes. The book covers preparing cases for presentation to the prosecutor, a grand jury, or a court of law. It features material on the latest laboratory services, sources of investigative information, and scientific techniques to assist the investigator. The book claims it is essential that investigators have knowledge of the various combinations of elements that constitute the basic criminal laws. In addition, investigators should develop proficiency in evaluating complaints received from the public. The first officers arriving should isolate the crime scene, and the scene should be evaluated as to the need for laboratory or other specialists and for selection of a standard search method. Victims and witnesses must be separated for independent interviews. The book contains 17 chapters, each devoted to a specific aspect of the criminal investigation. Each chapter includes a summary, discussion questions, and key terms and concepts. Figures, tables, glossary, index.

"Jim McCloskey and Centurion are pioneers in the struggle to expose the tragedy of innocent people wrongly convicted and sent to prison in America. No one has illuminated this problem more thoughtfully and persistently." —Bryan Stevenson, author of *Just Mercy* By the founder of the first organization in the United States committed to freeing the wrongly imprisoned, a riveting story of devotion, sacrifice, and vindication. Jim McCloskey was at a midlife crossroads when he met the man who would change his life. A former management consultant, McCloskey had grown disenchanted with the business world; he enrolled at Princeton Theological Seminary at the age of 37. His first assignment, in 1980, was as a chaplain at Trenton State Prison. Among the inmates was Jorge de los Santos, a heroin addict who'd been convicted of murder years earlier. He swore to McCloskey that he was innocent—and, over time, McCloskey came to believe him. With no legal or investigative training to speak of, McCloskey threw himself into the case. Two years later, thanks to those efforts, Jorge de los

Santos walked free, fully exonerated. McCloskey had found his calling. He established Centurion Ministries, the first group in America devoted to overturning wrongful convictions. Together with his staff and a team of forensic experts, lawyers, and volunteers—through tireless investigation and an unflagging dedication to justice—Centurion has freed 63 innocent prisoners who had been sentenced to life or death. When Truth Is All You Have is McCloskey's inspirational story, as well as those of the unjustly imprisoned for whom he has fought. Spanning the nation, it is a chronicle of faith and doubt; of triumphant success and shattering failure. It candidly exposes a life of searching and struggle, uplifted by McCloskey's certainty that he had found what he was put on earth to do. Filled with generosity, humor, and compassion, it is the soul-bearing account of a man who has redeemed innumerable lives—and incited a movement—with nothing more than his unshakeable belief in the truth.

The farmers of Paradise County have been leading a hardscrabble life unchanged for generations. The Communist government has encouraged them to plant garlic, but selling the crop is not as simple as they believed. Warehouses fill up, taxes skyrocket, and government officials maltreat even those who have traveled for days to sell their harvest. A surplus on the garlic market ensues, and the farmers must watch in horror as their crops wither and rot in the fields. Families are destroyed by the random imprisonment of young and old for supposed crimes against the state. The prisoners languish in horrifying conditions in their cells, with only their strength of character and thoughts of their loved ones to save them from madness. Meanwhile, a blind minstrel incites the masses to take the law into their own hands, and a riot of apocalyptic proportions follows with savage and unforgettable consequences. *The Garlic Ballads* is a powerful vision of life under the heel of an inflexible and uncaring government. It argues that deconstructing martial arts is an invaluable approach to both the scholarly study of martial arts in culture and society and also to wider understandings of what and why martial arts are. Placing martial arts in relation to core questions and concerns of media and cultural studies around identity, value, orientalism, and embodiment, *Deconstructing Martial Arts* introduces and elaborates deconstruction as a rewarding method of cultural studies.

### **The Texarkana Moonlight Murders**

The notorious 1942 "Sleepy Lagoon" murder trial in Los Angeles concluded with the conviction of seventeen young Mexican American men for the alleged gang slaying of fellow youth Jose Diaz. Just five months later, the so-called Zoot Suit Riot erupted, as white soldiers in the city attacked minority youths and burned their distinctive zoot suits. Eduardo Obregon Pagan here provides the first comprehensive social history of both the trial and the riot and argues that they resulted from a volatile mix of racial and social tensions that had long been simmering. In reconstructing the lives of the murder victim and those accused of the crime, Pagan contends that neither the convictions (which were based on little hard evidence) nor the ensuing riot arose simply from anti-Mexican sentiment. He demonstrates instead that a variety of pre-existing stresses, including

demographic pressures, anxiety about nascent youth culture, and the war effort all contributed to the social tension and the eruption of violence. Moreover, he recovers a multidimensional picture of Los Angeles during World War II that incorporates the complex intersections of music, fashion, violence, race relations, and neighborhood activism. Drawing upon overlooked evidence, Pagan concludes by reconstructing the murder scene and proposes a compelling theory about what really happened the night of the murder.

### **Life of Pi**

Drawing on a body of empirical, qualitative work spanning three decades, this unique text traces the significance of critical social research and critical analyses in understanding some of the most significant and controversial issues in contemporary society. Focusing on central debates in the UK and Ireland – prison protests; inner-city uprisings; deaths in custody; women’s imprisonment; transition in the north of Ireland; the ‘crisis’ in childhood; the Hillsborough and Dunblane tragedies; and the ‘war on terror’ – Phil Scraton argues that ‘marginalisation’ and ‘criminalisation’ are social forces central to the application of state power and authority. Each case study demonstrates how structural relations of power, authority and legitimacy, establish the determining contexts of everyday life, social interaction and individual opportunity. This book explores the politics and ethics of critical social research, making a persuasive case for the application of critical theory to

accosted by a stranger who cunningly slips a lockpick and a file into his hands. In an instant he understands two things: Someone had gone to a great deal of trouble to see him condemned to hang—and another equally mysterious agent is determined to see him free. So begins *A Spectacle of Corruption*, which heralds the return of Benjamin Weaver, the hero of *A Conspiracy of Paper*. After a daring escape from eighteenth-century London's most notorious prison, Weaver must face another challenge: how to prove himself innocent of a crime when the corrupt courts have already shown they want only to see him hang. To discover the truth and clear his name, he will have to understand the motivations behind a secret scheme to extort a priest, uncover double-dealings in the unrest among London's dockworkers, and expose the conspiracy that links the plot against him to the looming national election—an election with the potential to spark a revolution and topple the monarchy. Unable to show his face in public, Weaver pursues his inquiry in the guise of a wealthy merchant who seeks to involve himself in the political scene. But he soon finds that the world of polite society and politics is filled with schemers and plotters, men who pursue riches and power—and those who seek to return the son of the deposed king to the throne. Desperately navigating a labyrinth of politicians, crime lords, assassins, and spies, Weaver learns that, in an election year, little is what it seems and the truth comes at a staggeringly high cost. Once again, acclaimed author David Liss combines historical erudition with mystery, complex characterization, and a captivating sense of humor. *A Spectacle of Corruption* offers insight into our own world of political

### **The New Urban Frontier**

Just a few years earlier, Jews living in Portugal were dragged to the baptismal font and forced to convert to Christianity. Many of these New Christians persevered in their Jewish prayers and rituals in secret and at great risk; the hidden, arcane practices of the kabbalists, a mystical sect of Jews, continued as well. One such secret Jew was Berekiah Zarco, an intelligent young manuscript illuminator. Inflamed by love and revenge, he searches, in the crucible of the raging pogrom, for the killer of his beloved uncle Abraham, a renowned kabbalist and manuscript illuminator, discovered murdered in a hidden synagogue along with a young girl in dishabille. Risking his life in streets seething with mayhem, Berekiah tracks down answers among Christians, New Christians, Jews, and the fellow kabbalists of his uncle, whose secret language and codes by turns light and obscure the way to the truth he seeks. A marvelous story, a challenging mystery, and a telling tale of the evils of intolerance, *The Last Kabbalist of Lisbon* both compels and entertains.

to conceal their blondness. Hazel Hayes is a grad student living in New York City. As the novel opens, she learns she is pregnant (from an affair with her married professor) at an apocalyptically bad time: random but deadly attacks on passers-by, all by blonde women, are terrorizing New Yorkers. Soon it becomes clear that the attacks are symptoms of a strange illness that is transforming blondes—whether CEOs, flight attendants, students or accountants—into rabid killers. Emily Schultz's beautifully realized novel is a mix of satire, thriller, and serious literary work. With biting satiric wit, *The Blondes* is at once an examination of the complex relationships between women, and a merciless but giddily enjoyable portrait of what happens in a world where beauty is—literally—deadly.
