Frank Wood's Business Accounting Volume 1

For introductory, undergraduate Managerial Accounting courses. Rock-solid decision-making through strong coverage and effective practice Students interact with businesses every day where they work, where they shop, even where they blog. At the core of these businesses are rock-solid managerial accounting fundamentals that students don't always see. Authors Wendy Tietz, Karen Braun, and Walter Harrison show the connection between accounting concepts and the businesses students interact with in their new text, Managerial Accounting. By presenting the accounting decisions made in companies like Target and J. Crew, this text's precise coverage of the core concepts combined with the unlimited practice in MyAccountingLab, the text's market-leading online homework and tutorial program gets students engaged in the learning process. With Managerial Accounting and MyAccountingLab, students will have more "I Get It!" moments and leave the course with a rock-solid understanding of managerial accounting. For this edition, Wendy Tietz, of Kent State University, contributed as coauthor. Dr. Tietz is an award-winning and experienced accounting and technology educator. Together, the authors refined their philosophy for the end-of-chapter and supplementary material for the second edition. MyAccountingLab New Design is now available for this title! MyAccountingLab New Design offers: One Place for All of Your Courses. Improved registration experience and a single point of access for instructors and students who are teaching and learning multiple MyLab/Mastering courses. A

Simplified User Interface. The new user interface offers quick and easy access to Assignments, Study Plan, eText & Results, as well as additional option for course customization. New Communication Tools. The following new communication tools can be used to foster collaboration, class participation, and group work. Email: Instructors can send emails to their entire class, to individual students or to instructors who has access to their course. Discussion Board: The discussion board provides students with a space to respond and react to the discussions you create. These posts can also be separated out into specific topics where students can share their opinions/answers and respond to their fellow classmates' posts. Chat/ClassLive: ClassLive is an interactive chat tool that allows instructors and students to communicate in real time. ClassLive can be used with a group of students or one-on-one to share images or PowerPoint presentations, draw or write objects on a whiteboard, or send and received graphed or plotted equations. ClassLive also has additional classroom management tools, including polling and hand-raising. Enhanced eText. Available within the online course materials and offline via an iPad app, the enhanced eText allows instructors and students to highlight, bookmark, take notes, and share with one another.

Analysis for Financial Management

Known as the accountant's ``Bible," it has now been thoroughly revised and updated to reflect the latest financial reporting and corporate accounting procedures in one volume. Authoritative contributors from the Big Eight accounting

firms cover all the essential topics and issues related to financial reporting with the emphasis on analysis and interpretation, rather than restatements of standards and pronouncements. In addition, it will be more practice-oriented with real-world examples and illustrations, and will now be supplemented annually, so you'll never be out of date or out of touch with the latest procedures in the accounting field.

Story-Based Inquiry: A Manual for Investigative Journalists

The Demo Docs System of instruction replicates the classroom experience by providing more “I get it” moments outside of class. We’ve talked to tons of POA instructors and our editors have even taken the accounting course (numerous times!) to figure out the following issue in this course that is consistent: & Students understand (or “get it”) right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course. & On top of this, you can end up getting behind in the course as well, in order to keep everyone on track. & The Demo Docs system helps to recreate the “I get it” moments outside of class-keeping both you and the students on track.

Advanced Financial Accounting

Management Accounting is written for students in international Business Management study programs. It covers the widely applied syllabus of Cost Accounting and Management Accounting at universities on bachelor's and master's level. The book is based on more than 20 years' academic teaching experience in Germany and at international universities in South Africa, Malaysia, China, the Netherlands and South Korea. In this text book, the application of methods and instruments comes first. Management Accounting follows a case study based approach. All cases are taken from previous exam papers and explained in detail. The text book starts with a case study of a manufacturing company and compares Financial Accounting to Management Accounting. It covers two point of views: (1) a General Management view, with aspects of business planning, cost-volume-profit analysis, degree of operating leverage, mergers and cross-border acquisitions and risk valuation. (2) a Cost Accounting view with Management Accounting systems, flexible budgeting, cost allocations, performance measurement and monitoring, reporting, calculation, manufacturing accounting (job order and process costing), activity based costing and multi-level contribution margin Accounting. On the UVK website, numerous exam tasks and complete solutions thereto are available in English.

Principles of Accounting Volume 1 - Financial Accounting

The emphasis of MANAGERIAL ACCOUNTING, 6e is on teaching students to use

accounting information to best manage an organization. In a practice Hilton pioneered in the first edition, each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. Known for balanced examples of Service, Retail, Nonprofit and Manufacturing companies, Hilton offers a clear, engaging writing style that has been praised by instructors and students alike. As in previous editions, there is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting and performance evaluation.
