The Memory Hunter

Did you ever think that the oatmeal container you open every morning when you make breakfast could be turned into a camera? Or that the mint tin sitting

on your desk is capable of creating stunning images? In *Pinhole Cameras*, photographer and pinhole aficionado Chris Keeney shows you how to transform basic household containers—a shoebox, a coffee can, a matchbox—into amazing photographic devices.

Camera Maintenance and Repair

A skyscraper can't be built without a proper foundation, just like a crunchy taco can't be built without a shell. The same goes with your art, whether it's street photography, fine art, cinematography, painting, or even sculpting. The techniques found in this book, though presented with street photos, will easily translate across every visual art and allow you to create remarkable, mouth-watering masterpieces. Countless artists out there want to push their art further, but they've run face first into a nasty plateau. Art is tough enough as it is, but without proper knowledge of composition and design it's easy to end up in a dark alley waiting to be maliciously fondled by mediocre art. Don't join the masses, join the elite! Learn serious composition and design techniques in a fun way that will launch you to the master level. You might even get a chuckle from the film photos capturing whacky tourists as they wonder aimlessly on the beautiful beach of Waikiki, Hawaii. Take part in the fun and seriously improve your art in a way that would make Da Vinci and Van Gogh smile with pride!

MI6

Imagine creating better photographs with less. Less gear. Less anxiety. Less stress. Less fear. A Lesser Photographer is the missing guide you've always wanted to the only gear that really matters: the gear between your ears. In under an hour, you'll be able to identify the myths you've been taught about photography and embrace useful creative habits that will set you apart.

A food truck craze involving human cannibalism. A Texas Governor who obsessively listens to Rebecca Black right before every state execution. A chainsaw factory that plays Ozzy Osbourne for its welding robots. An ex-girlfriend drunk-dialing from Kandahar,

where she's starting a Shakey's Pizza restaurant chain. And an endless search to find the right mix of prescription medication to stop the memories of a bizarre past. These mad stories make up the latest by Jon Konrath, a collection of 20 flash fiction narratives that cross between metafiction and experimental prose, telling grim and absurd fast-paced tales about Konrath's life in a twisted fashion.

Simpler Times

A beautiful catastrophe

A new appreciation for the genius of architectural photographer Julius Shulman has opened the way for hundreds of abandoned masterworks to be rediscovered. The images burned in our memories, which to us represent the spirit of fifties and sixties design, were those widely published in magazines and books; but what about those that were not? The abandoned files of Julius Shulman show us another side of Modernism that has stayed quiet for many years. The exchange of visual information is crucial to the development, evolution, and promotion of architectural movements. If a building is not widely

seen, its photograph rarely or never published, it simply does not enter into architectural discourse. Many buildings photographed by Shulman suffered this fate, their images falling into oblivion. With this new book, Taschen brings them to light, paying homage to California Modernism in all its forms. It's like sneaking into a private history, into homes that have rarely been seen and hardly appreciated as of yet. Bringing together nearly 300 forgotten masterpieces, *Modernism Rediscovered* breathes eternal life into these outstanding contributions to the modern architectural movement.

8 1/2 x 10 Since publication this title has proved to be very popular for both the serious lens user wishing to understand more about his lenses, as well as the Leica enthusiast considering which lens would be suitable to add to his outfit. Do you know your "Coma from your Aberrations"? If "Yes," then part 2 of Erwin Puts' new book will be of considerable interest to you. Either way you may find this section easier to understand than you expect; the illustrations and diagrams do help. Part 1 goes into the optical history of E. Leitz, Wetzlar and the Leica Camera of Solms in detail with all the personalities involved. This section is well illustrated with some new pictures. The commercial demands are always battling with the perfectionists at Leica who created some of the world's most famous lenses. Part 2 is an optical digression explaining the lens and glass design features, problems and terms and the continual battle to ensure that Leica users end up with the highest possible standard of lens. Part 3 is the largest part of the book. Puts has tested Leica lenses from 1925 to date; each lens, in most cases with diagram, is detailed with its performances at the critical apertures.

By 2007, after the nuclear war with the Soviet Union,

Japanese mega-corporations run America. In this dark never-future of hovercars, 'droids, and Mars colonies, the oppressive corporations rule the overworked occupants of the mega-cities with an iron fist. And a mysterious disease called IDES is causing people to lose their implanted synthetic memories. John Bishop makes his living on the fringes of the mega-corporate society that disgraced him and reduced him to a repo man of brain implants--a memory hunter. Bishop, with the help of beautiful dissident scientist Dr. Amy Alexander, unravels a conspiracy of corruption and horror, and in so doing he just may find the redemption that has eluded him from the bottom of a synth-alcohol bottle. Mixing elements of classic science fiction, Chandleresque noir, and absurdist dark humor, the author of laugh-out-loud cult classics *The Earworm Inception* and *Rumored to Exist* creates a retro future world of classic cyberpunk. The clever twist of wry humor and science fiction predictions from the 1980s gone wrong offers a satirical look at a future that never happened.
