Criminal Procedure, Keyed to Chemerinsky and Levenson

Prompted by mounting changes and mounting confusion in constitutional evidence law and by the new restyling of the Federal Rules of Evidence, this edition presents the familiar student-friendly textbook, now with these improvements: Presents and digests the latest Confrontation Clause caselaw, including *Williams v. Illinois*, 132 S. Ct. 2221 (2012); Fully incorporates the restyled Federal Rules of Evidence; Surveys the latest scholarship and caselaw to assess the current validity of a range of forensic sciences; Presents new cases and problems throughout, while carefully retaining tried-and-true teaching tools, however old, that have shown no sign

of wear. As with past editions, this new text addresses the intricacies of evidentiary law in a way students will find both engaging and intellectually compelling. The casebook and accompanying rulebook are wholly integrated, with paginated cross-references that encourage students to consult legislative history.

The Glannon Guide to Civil Procedure

Using a case-oriented approach, the fourth edition of Administrative Law is a case-rich text that focuses on the core issues in administrative law. Lightly-edited cases preserve the feel of reading entire opinions and include facts, content, full analyses, and citations. Introductory material and questions following the cases focus students' reading and stimulate class discussion. Keystone cases introduce important themes and topics, and helpful notes facilitate keen understanding of legal doctrines. "Theory Applied" sections at the conclusion of major parts offer teachers an opportunity to evaluate students' grasp of the materials in new factual and legal contexts.

Criminal Procedure

Contracts: Cases and Doctrine, Sixth Edition, features a mix of lightly-edited classic and contemporary cases that stresses current contract doctrine along with the essential lawyering skill of case analysis—how to sift through the facts of the case to discern the prevailing rules and theory. Randy Barnett and Nate Oman's innovative text introduces each case and provides the historical background of the iconic cases that make

the study of contract law engaging. Study Guide questions help students identify salient issues as they read each case. Judicial biographies of each judge provides additional context. Key Features of the New Edition: The 6th Edition has been edited to make it even more modular and therefore easier for professors to select which doctrines to cover. The introductory materials have been shortened to permit a speedier entry to whichever basic doctrine the professor chooses to begin with. A new section on public policy defenses has been added. Recent developments involving arbitration agreements in the wake of the Supreme Court's AT&T Mobility case are also covered. In addition, roughly a dozen new cases have been substituted, chosen for their interesting facts or their proven pedagogical usefulness. As always, every effort is made to provide students with background materials on the litigation, such as new judicial biographies and excerpts from recently published scholarship dealing with the cases covered. New cases include: Jordan v. Knafel Arnold Porter v. Fuqua Industries Nguyen v. Barnes & Noble Inc. Also, in keeping with the book's focus on the "classic" cases we have included some iconic cases missing from earlier editions, including: Masterson v. Sine Security Stove & Manufacturing Co. v. American Railway Express Lefkowitz v. Great Minneapolis Surplus Store Lawrence v. Fox Harris v. Watson The purchase of this Kindle edition does not entitle you to receive access to the online e-book, practice questions from your favorite study aids, and outline tool available through CasebookConnect.

The Torts Process

About 25% shorter than the previous edition, the third edition of this casebook contains both traditional edited case opinions and numerous brief example cases so students can learn from reviewing multiple applications of the legal rules. Well placed text boxes

provide "reading critically" questions preceding cases and supplemental information and additional questions at crucial junctures. Tables and flowcharts demonstrate connections among concepts and give visual learning cues. With the guidance provided, students are able to prepare more effectively for class, so they start class at a more sophisticated level and proceed more easily to deeper analysis. The book also includes frequent problem sets, both essay and multiple-choice, to test and expand students' understanding. The accompanying electronic version links directly to cited sources and to related multiple-choice problems. In addition to classic contract cases the book includes new cases chosen because of their teachability and because they address current issues and modern business practices. "Practice Pointers" provide a transactional focus by exploring practical implications of legal doctrine. The book no longer contains the text of Restatement and UCC provisions, so it should be accompanied by a statutory supplement.

Torts, a Contemporary Approach

Civil Procedure in Focus by Jeremy Counsellor and Eric Porterfield uses a combination of accessible explanatory text, cases, and other primary legal sources to teach civil procedure, and then provides opportunities for students to apply the law to multiple sets of facts in every chapter. Selected cases illustrate key changes in the law and show how courts have developed and apply doctrine. The unintimidating approach of this casebook provides a hands-on, experiential learning environment that can be essential to many students' success. Through practice-based exercises, students learn to apply legal principles and concepts to real-world scenarios. Simply knowing the facts of a benchmark case is not enough; knowing how to apply the doctrine from one case to a different set of facts enhances a student's ability to succeed in and after law school. New to the Second Edition: Multiple-choice questions at the end of each chapter Discussion of "Snap Removal," a hot topic currently percolating through the federal court system Updates regarding recent US Supreme Court cases regarding personal jurisdiction Professors and

students will benefit from: Applying the Concepts and Civil Procedure in Practice exercises. These end-of-chapter exercises encourage students to synthesize the chapter material and apply relevant legal doctrine and code to real-world scenarios. Students can use these exercises for self-assessment or the professor can use them to promote class interaction. Real Life Applications. Every case in a chapter is followed by Real Life Applications, which present a series of questions based on a scenario similar to the facts in the case. Real Life Applications challenge students to apply what they have learned and help prepare them for real-world practice. Professors can use Real Life Applications to spark class discussions or provide them as individual short-answer assignments. Case Previews and Post-Case Follow-Ups. To succeed, law students must know how to deconstruct and analyze cases. Case Previews highlight the legal concepts in a case before the student reads it. Post-Case Follow-Ups summarize the important points and go one step further—noting the significance of a case to current law as well as its later ramifications. Clear exposition of key concepts in the text that means professors can spend less class time lecturing students on the basics and more time discussing different perspectives on the law, current issues, etc. Essay, short-answer, and multiple-choice questions in every chapter Practice-based hypotheticals that challenge students to apply doctrine to different fact scenarios Exhibits that highlight the relevant rule of law and corresponding legal authority

Jesse Dukeminier's trademark wit, passion, and human interest perspective has made Property, now in its Ninth Edition, one of the best—and best loved—casebooks of all time. A unique blend of authority and good humor, you'll find a rich visual design, compelling cases, and timely coverage of contemporary issues. In the Ninth Edition, the authors have created a thoughtful and thorough revision, true to the spirit of the classic Property text. Key Benefits: A new chapter on the Intellectual Property/Property relationship, that gives students a taste of patent law, copyright law, trademark law, and trade secrets law. The chapter highlights the differences and similarities among the legal treatment of real, chattel, and intellectual property. A dynamic, two-color designed casebook that encompasses cases, text, questions, problems, examples and numerous photographs and diagrams. Extended coverage of major recent Supreme Court decisions, including *Murr v. Wisconsin*, *Horne v. Department of Agriculture*, and *Marvin M. Brandt Revocable Trust v. United States*.

This version is newly streamlined for professors who teach a four-unit course or who want to cover fewer pages per day yet retain complete coverage. This edition tracks the standard edition but cuts an additional 300 pages by removing some cases and notes and occasionally trimming a case to a shorter format. This edition also omits chapters concerning

defamation, fraud, and other economic and dignitary torts, as well as some material concerning alternatives to Tort law. The result is a substantially shorter casebook that nevertheless provides the coverage most teachers want.

Cases and Materials on Contracts, Making and Doing Deals

The 6th edition of this popular and manageably sized casebook retains the structure of the 5th edition and its emphasis on practical skills and contextual analysis. New cases, statutes, and notes reflect judicial and legislative developments across the country. The new edition includes materials on the 2005 amendments to the bankruptcy code and two new uniform laws. It also integrates the Supreme Court's recent privacy cases, including *Lawrence v. Texas*, with traditional family-privacy materials. Updated notes and additional problems test a wide range of skills and introduce students to practical aspects of family law.

cases to expose students to contemporary contract law, but it also includes many important or iconic older cases. The cases are set in context by extensive author-written explanatory text. Insightful questions draw attention to difficult and crucial aspects of the law and prompt vigorous class discussion. Numerous problems, ranging from simple to complex, supplement cases and introduce topics taught most effectively through problems. The casebook's traditional organization begins with formation and then corresponds to the sequence followed by the Restatement (2nd) of Contracts and treatises. Its concise, efficient presentation results in an optimum length for the course. Procedural issues are highlighted when presented by the cases and transactional issues such as drafting, client counseling, and negotiation are raised through the use of questions and small exercises throughout the text. Strengthening the text's focus on contemporary methods of contracting, modern issues in standard contracts are explored along with contracts entered into electronically. International and comparative material offers alternative approaches for students to consider, such as those taken by the United Nations Convention on Contracts for the International Sale of Goods (CISG) and the UNIDROIT Principles of International Commercial Contracts.

¿ CLEAR & CONCISE: Tight case editing, focused questions, and topical problems direct students' attention to the most critical issues. The book covers the full sweep of the subject, but is still short enough that the core topics can be taught in a 3-credit survey course. ¿ UP-TO-DATE COVERAGE: The seventh edition features five new principal cases, along with numerous new and revised notes and questions. New cases deal with international injunctions, free speech rights to use the Internet, compelled decryption, trademarks and search engines, and algorithmic accountability. Several sections have been tightened up and older material has been cut, resulting in a streamlined reading experience. ¿ TECHNICAL AND HISTORICAL NOTES: Mini-essays throughout the book provide the essential technical background needed to make sense of computer and Internet technologies. Where modern doctrine has important historical roots (e.g., network neutrality and telecommunications regulation), the book gives the necessary context.

Intended for the basic course in Business Organizations, Cases and Materials on Business Entities encompasses corporations, agency,

partnership, and LLCs. Its extended coverage of alternative business entities distinguishes it from the more limited corporations-focused coverage of many business organizations texts. The author includes elaborate problems designed to help students become practice-ready as well as enhanced coverage of LLCs and principal cases that were decided within the last 20 years. The recipient of numerous teaching awards and a former clerk at the California Supreme Court and the U.S. District court, author Eric Chiappinelli has taught, written, and practiced extensively in business entities, corporate law, securities regulation, and civil procedure. Key Features: Over 20 new cases, including *Shawe v. Elting* (Del. 2017). All principal cases are less than 20 years old. Corporation chapters reflect MBCA (2016), and Partnership materials reflect UPA (2013). LLC chapter has been revised and updated. New materials on ultra vires and ultimate beneficiaries. New discussion of DGCL §§ 204 and 205 and MBCA (2016) Subchapter E (ratifying defective acts) New real-life examples: Kate Spade acquired by Coach and Toys “R” Us bankruptcy.

Contracts

This casebook is organized to facilitate the study of law in the first year of law school with a focus on the study of tort law in particular. The text begins with an overview of tort law, pointing out distinctions between tort law and other types of law. It then covers intentional torts, negligence actions, and strict

liability, covering all topics in detail. The materials presented build on foundational principles by exploring more advanced tort subjects such as nuisance, products liability, and defamation and privacy law. This versatile textbook includes classic cases as well as contemporary cases relevant to today's students. In addition to having discussion questions and hypotheticals throughout, the text also includes graphics illustrating many of the principles covered throughout the text. The text is available in both hardbound and electronic format and features Internet links for the student's use.

The Law of Business Organizations

This casebook provides the most comprehensive treatment available, including the theoretical foundations, the common-law origins, the statutory structure, and the procedural context of modern criminal law. The book concentrates on doctrinal materials that can support both rigorous technical, and sophisticated theoretical, discussions. The purposes and limits of punishment are addressed through Supreme Court decisions, a focus on statutes throughout the substantive law sections enables training students in the legal art of statutory interpretation as well as exposing them to the hard moral and political problems of legislative choice, and the sentencing materials reprise the theory of punishment in the context of the practically most important stage of the modern process. The 12th edition carries forward the comprehensive approach of prior editions, empowering the teacher to design a

course suited to the needs of the teacher's students and institution. New Supreme Court's decisions, changing the landscape of both substance and procedure, include *Skilling v. United States*, *McDonald v. City of Chicago*, *Graham v. Florida*, *United States v. Jones*, and *Michigan v. Bryant*. The material on self-defense has been comprehensively revised, both for the sake of clarity and to include discussion of so-called "stand your ground laws." Statutes (e.g., the New York and California homicide statutes) and the caselaw (e.g., up-to-the-minute material on "willful blindness") have been updated. We also now include a case about the admissibility of neuro-imaging evidence to support a diminished-capacity defense, thus acknowledging how modern brain science has begun to raise both practical evidentiary issues and a substantial challenge to important theoretical p

Wills, Trusts, and Estates

In this timely new edition, distinguished authors Dukeminier and Johanson build on the success of their phenomenally popular casebook *Wills, Trusts, and Estates* with new coverage of non-traditional family arrangements, living wills, and much more. The authors blend cases selected for human interest as well as teaching value with provocative hypotheticals, cartoons, photographs, and other illustrations to comprehensively cover this area in a very lively, readable manner. Organized logically, the book begins with estate planning and its limitations, moves to wills and will substitutes, progresses to trusts, and concludes with a chapter on taxation. New topic coverage includes: babies inadvertently swapped in hospitals, surrogate mothers, lesbian adoption, and artificial insemination (including children conceived after sperm donor's death) living wills and powers of attorney for health care, including the Cruzan case and the Uniform Health Care Decisions Act a new chapter combining mental capacity and undue influence, which features the Seward Johnson will contest and related preventive lawyering issues shortened, more teachable chapters on future interests and perpetuities latest changes to the Uniform Probate Code a completely revised and reorganized trustee administration chapter Like its predecessors, this book is a lively, flexible, and understandable teaching tool that is accompanied by a detailed and witty Teacher's Manual, which is

Civil Procedure in Focus

The Fourth Edition offers a unique blend of materials rich with problems and provocative cases designed to promote lively class discussion in Remedies. The authors have revised a great book that preserves the best of the former editions and adds revisions and updates, especially in the areas of Punitive Damages, Tort Reform, Specific Performance, Equitable Defenses, Preliminary Injunctions and Attorney Fees. This law school casebook focuses on the fundamental tools of judicial remedies: injunctions, damages, and restitution. In addition to providing students with a solid grounding in these basics, the casebook also offers the professor choices about which additional areas to cover in depth. The casebook provides separate chapters offering extended coverage of topics such as: Specific performance Equitable defenses Contempt Damages in specific subject areas Punitive damages Attorney fees Tort reform and damage caps Jury trial rights Declaratory relief
