An Introduction to the American Legal System, Government, and Constitutional Law

Written in the student-friendly style that characterizes Chemerinsky's Constitutional Law casebook, Criminal Procedure: Adjudication features cases, minor cases, and author-written essays while omitting both notes in the form of rhetorical questions and excerpts from law review articles. The chronological organization moves through the criminal justice process, from investigation to habeas corpus. Dynamic text guides students through understanding the law with tightly edited cases, samples of legal pleadings arguing the issues, and perspectives from prosecutors, defense, counsel, judges, police, and victims alike. Each chapter has a consistent, systematic approach, beginning with an introduction laying out the nature of the issue, followed by a discussion on the history and development of the law. Then, examples of recent and seminal cases reveal how key criminal procedure issues have been raised, and an analytic approach toward resolving each issue shows what

Civil Procedure

Focusing on the adjudicative phase of criminal procedure, *Criminal Procedure: Adjudication, Third Edition* combines Laurie L. Levenson's first-hand experience in the criminal justice system with Erwin Chemerinsky's student-friendly writing style. This volume examines the impact of a host of recent developments in the courts and legislature on the trial process. It eschews reliance on rhetorical questions and law review excerpts in favor of comprehensive exploration of black letter law and trendsetting policy issues. The book utilizes a chronological approach that guides students through criminal procedure doctrine. In addition to presenting the perspectives from various stakeholders (i.e., defense attorneys, judges, prosecutors, and victims), the authors take care to provide students with useful, practice-oriented materials, including pleadings and motions papers. *Criminal Procedure: Adjudication* not only employs a systemic approach that takes students through issues from policy to application of legal doctrine but also introduces issues at the forefront of modern criminal procedure debates. perspectives and debates—Modern Constitutional Law: Cases, Problems and Practice focuses on key areas of constitutional law and is organized from the ground-up. Rather than assuming students will one day be making constitutional arguments before the U.S. Supreme Court (or teaching Constitutional Law), this book assumes students will more likely be making constitutional arguments before a state or federal trial court. And so it focuses on those areas of Constitutional Law that are likely to be relevant to the practice areas in which most law students will work after law school—small or solo firms that count individuals and small businesses as their clientele, or the offices of state agencies, district attorneys, or public defenders. New to the Second Edition: Updated with key First Amendment cases through the 2017–2018 Supreme Court term, including *Expressions Hair Design v. Schneiderman* and *Masterpiece Cakeshop v. Colorado Civil Rights Commission* Includes commentary on controversial cases from the 2017–2018 Supreme Court term, including *Trump v. Hawaii* Existing cases have been further edited to preserve the scope of the book while reducing its size Additional supplemental cases are added to the online Professor Resources to allow professors to add coverage of most areas of constitutional law Professors and students will benefit from: Narrower scope than other casebooks, the book is more manageable for 3- and 4- credit courses A focus on doctrine rather than theory Emphasis on modern and contemporary cases rather than historical ones (although landmark cases, such as *McCulloch v. Maryland*, *The Prize Cases*, and *Lochner v. New York*, to name a few, are also included)

Constitutional Law: Power, Liberty, Equality presents most of the constitutional law cases generally considered canonical and, with one important exception, follows the tried and true organizational means widely used in constitutional law texts of dividing chapters and sections are along subject matter lines such as the Commerce Clause, equal protection, freedom of expression, and so on. Nonetheless, this book differs from other constitutional law textbooks in important ways. The text introduces cases by providing contextual information and by explicitly articulating much of the

black letter law being introduced. Under this structure the cases provide the student with the opportunity to more easily see the difference between the doctrine per se and how it is actually developed and used by the Court.
