Growing up in the 1930s, when aviation was just beginning to soar to new heights, Arnold D. Seligman also found himself wanting to take to the sky.

Whether it was building model airplanes in his youth—once smoking out his mother's kitchen while testing a small engine—or flying over Louisville, Kentucky, to deliver traffic conditions for Airview Two, his fascination with airplanes and the marvel of flight never wavered. Being a pilot can be one of the most exhilarating experiences in the world. But as Seligman recounts, it can also be the scariest when the unexpected happens. Updrafts, navigation errors, and even engine failure requiring an emergency landing are all challenges he's faced and triumphantly conquered. In addition to humorous and harrowing personal tales, readers will gain insight into airplane models, maintenance, and purchasing processes. *Come Fly with Me* is an inspiring autobiography chronicling the many highs and lows a pilot can face. With three pilot ratings—commercial, instrument, and multiengine—to his name and more than 3,200 hours of flight time, Seligman expertly imparts his lifetime of experience to the next generation of flyers and aviation aficionados.

Anyone can become an Urban Birder. You can do it anywhere and any time, whether you've got the day to spare, on your way to work, during your lunch break or just looking out of a window. Look up and you will see. The book is an inspirational look at the birdlife in our cities, or more accurately, the author's personal journey of discovery involving encounters with racism, air rifle-toting youths, girls, alcohol, music, finding urban wildlife oases and of course, birds. David Lindo's story is entertaining and sometimes controversial, but the one guarantee is that the reader will be left feeling inspired enough to pick up a pair of binoculars and head to the nearest park.

A Flying Affair

When the first commercial flights took off in the 1930s, stewardesses were registered nurses whose

duties included swatting flies and helping passengers read railroad timetables in the event of forced landings. In the 1950s, stewardesses were viewed as wives-in-training, as adept at preparing a baby's bottle as mixing a martini. By the swinging '60s and '70s, female flight attendants were considered successful marketing tools, sporting microminis, hot pants, and buttons that read "Pure, Sober, and Available" to lure male business passengers on board. "Come Fly with Us!" explores the unique history of this industry pioneered by women, tracing changes in the flight attendant's role -- from flying nurse to airborne sex kitten to today's custodian of safety and service. Stunning visuals from airline archives and early flight maps, promotional brochures, and print advertisements re-create a sense of the early days and underscore the dramatic changes that have occurred in this dynamic industry.

How do you say no to a man at thirty-thousand feet? When Grier Thompson is called to Indigo, Alaska to deal with the estate of her late, estranged father, the last thing she expected to find was a hotly contested will, a hostile half-sister who never knew Grier existed, or for that matter, an entire town that doesn't take kindly to this stranger. Except maybe for Mick O'Shaughnessy. An Indigo native, Mick has all he wants in life: a soft flannel shirt, a nice cottage, and a thriving airline charter business. Could this simple life get any better? One look at Grier and Mick discovers the answer is a resounding, "yes." She thinks so

too—and if it weren't for her family baggage, maybe she could relax and enjoy herself before it's time to return to real life. But then an unexpected visitor from Grier's past unsettles the entire town just when the residents were finally starting to warm to her. By the time Mick comes out of the clouds to realize he's fallen head over heels in love, it might be just too late to win Grier's heart.

Introduction Following a stroke, medical professionals are frequently asked by patients when is it safe to fly? Currently, there are no official European guidelines on flying after a stroke. Timeline recommendations vary between 10 days to 21 days and up to 3 months depending on clinician opinion, severity of stroke, travel insurance status and individual airline carriers. We reviewed current advice given by European airlines on flying after a stroke. Method An internet review of European airlines' 2019 websites was performed in December 2018. Data was collected on information available: 1) On website 2) By direct contact via email or telephone 3) Advice given 4) Timeline recommendations. Results 58 European airline websites were reviewed. 48 (83%) commercial airlines have no information available on their website on flying after a stroke. After contact by email, telephone or webchat, 27 (47%) airlines could give recommendations, but only 7 (12%) airlines could advise about specific timelines. Responses included 3 days, 10 days, 10 days with doctor's clearance, 11-21 days, 2 weeks, 1 month, 3 months and 6

months. 39 (67%) airlines advised to contact their treating doctor on flying and 13 (22%) airlines have a doctor attached to their company to advise.

Conclusion To date, there is no timeline guideline consensus on flying following a stroke. Most airlines recommend a medical clearance certificate from their treating doctor, however doctors do not have formal guidelines to base their decisions on. A stroke advisory group to standardise when flying after stroke is safe may be beneficial in guiding treating doctors.

BOOK 8: COME FLY WITH ME: His apostles refused to believe, while Thomas declared him God. Jesus dared and prepared his apostles to conquer the world. He

interrupted his own memorial service and renewed five hundred of his closest friendships. He helped his brother, James, over the last faith hurdle, turned the movement over to his apostles, then returned at last to the outstretched arms of his heavenly Father. Religious leaders fought in vain to put out the new church's torch, and Jesus invited the last apostle to visit him in heaven. Life changing? You bet! Life Application questions are at the end of each chapter to see whether any of those changes has happened in your own life. Come meet the people who met Jesus. You are one of them. Probably you are several of them. Go ahead and struggle with them as they did. Laugh. Cry. Do mental battle with him. Emotional battle too. Fight for your faith as they fought. Pause to listen for what you've never heard before. Then touch Jesus. This is the story of faith in the impossible. Hope in the inconceivable. Love for the invincible. It is the dreams of youth, the desperations of infirmity, the hopes of age, and the song of eternity. Follow the suspense in their terrorist-dominated world as each person in Jesus' life comes to terms with who they are, and who Jesus is. It is the story of doubts explained away, animosities melted away, misunderstandings cleared away. It is your story and mine. For deep within each of us is everyone who ever met and struggled with Jesus.

Come Fly with Us is the story of an elite group of space travelers who flew as members of many space shuttle crews from pre-Challenger days to Columbia in 2003. Not part of the regular NASA astronaut corps, these professionals known as "payload specialists" came from a wide variety of backgrounds and were chosen for an equally wide variety of scientific, political, and national security reasons. Melvin Croft and John Youskauskas focus on this special fraternity of spacefarers and their individual reflections on living and working in space. Relatively unknown to the public and often flying only single missions, these payload specialists give the reader an unusual perspective on the experience of human spaceflight. The authors also bring to light NASA's struggle to integrate the wide-ranging personalities and

professions of these men and women into the professional astronaut ranks. While *Come Fly with Us* relates the experiences of the payload specialists up to and including the Challenger tragedy, the authors also detail the later high-profile flights of a select few, including Barbara Morgan, John Glenn (who returned to space at the age of seventy-seven), and Ilan Ramon of Israel aboard Columbia on its final, fatal flight, STS-107.

Talon: *Come Fly With Me*, is about the life of nine-year-old girl, Matica. Matica lives in a remote village on a dry plateau in the Andes of Peru. She moved here with her Australian missionary and schoolteacher parents when she was five years old. Ever since Matica could remember, she faced cruel rejection because of a growth handicap that traps her in a body a two-year-old. Because of her appearance, the local Indians wouldn't accept her into their community or allow her to play with their children. Under the watchful eyes of her parents, lonely Matica explores the plateau of the Andes. She found a pair of condors soaring near the mountains and with patience and a sense of adventure she befriended them. She named the condors Tamo and Tima and a strong bond and love developed between them. The adventure of this book begins two years later, as Matica helplessly witnessed poachers stealing the condors' egg from their nest. After a dramatic fight between Tamo and the poachers, the poachers abandoned the egg leaving it far from its nest. Being unable to bring it back to the nest, Tamo and Tima sent signals to Matica to take care of their egg. Later on, during Matica's tenth birthday, the condor egg hatches. The hatchling is called Talon and this story focuses on the self journey of Matica, as she teaches the little hatchling to fly. This experience changes her life completely and enables her to see a positive side to

her handicap.
