All the Advice You Need to Get In To the College You Want! Getting in to your dream college has never been more competitive. Swamped with applications, admissions officers spend 10-20 minutes on each, looking for reasons to say no. It's crucial that students make it easy for colleges to say yes. In his new book,

Brand U, renowned college admissions adviser David Montesano shows you exactly how to position yourself as the kind of applicant colleges are eager to admit. David's proven, easy-to-follow Montesano Method takes the fear and uncertainty out of the admissions process, maximizes your chances of success, and is a guide that addresses the goals and concerns of both students and parents, because going through college applications is a family experience. The Montesano Method has 4 phases: SPARK: Here we identify the most critical element for your college application, your spark. This is what sets you apart from the crowd. FIRE: With your spark, now we build your fire, finding and developing your abilities and experiences that make you exceptional. This process isn't just about college, but life. VISION: What kind of undergraduate experience is right for you? We avoid superficial criteria like magazine rankings and instead guide you to the best undergrad fit for you. BRAND: Here, by positioning how you're different and what you bring to each college, we turn the admissions game around so that you're in control and colleges are pursuing you. The college game is too rough to go it alone. With Brand U, you'll have everything you need to find-and get into-the college of your dreams. Brand U Reviews "David Montesano has written a masterful book on how high school students can brand themselves in a way that will lead to winning more college acceptances. With top schools becoming more exclusive, getting the inside scoop on what excites college admission officers is invaluable. I highly recommend that parents and teenagers read this book." I know, because my son got into 14 of the 15 schools he applied to, including his "reach" schools. Do not apply without reading this first!" John McLaughlin, Former CEO and Group President, Monster.com About the Author: David Montesano is founder of College Match (collegematchus.com) - a leading global educational consultancy; more than 96% of Montesano Method students have gained admission to their "reach" colleges and graduate schools, winning merit scholarships averaging \$57,000 - the largest amount for students whose awards are being measured. Brand U is David's second book; his first was 10 Strategic College Admission Steps (College Bound News). Termed a "new breed" of college admission consultant by The Washington Post/Newsweek, David contributes to articles in The New York Times, U.S. News & World Report's "Best Colleges," the CBS Moneywatch Blog, Seattle Magazine and Newsweek/Daily Beast. Appearances include CBS-TV in San Francisco and on radio shows and webcasts including Michael Dresser Live and College Week Live. The inequality in American education is increasing but statistics cannot possibly tell the whole story. As a new teacher thrust into the classroom mid-year in the part of Oakland, California, that police call the "Killing Zone," Bronwyn Harris learned to make her own way as she helped parents advocate for their children with law enforcement and school officials, while enduring a revolving door of school administrators. Harris's students were intelligent, hardworking, funny, loyal, and incredibly empathetic in the face of considerable trauma and instability. She quickly realized that her teacher preparation classes had not covered making child abuse reports, teaching traumatized children, helping students cope with difficult emotions, or keeping a class calm during a lockdown. This book chronicles the lives of Harris's students and shows the difference a caring teacher and support from the greater community can make. "This book takes me right back to my days working down the street from Ms. Harris. Her stories of our kids and our classrooms bring back vivid memories of the love, exhaustion, sadness, and so many more emotions that I felt. This book offers an accessible, sobering introduction to under-resourced public schools for those wishing to learn "what it's really like." But it also conveys the profound richness and importance of the students

that this system has left behind. This should be required reading for all prospective teachers, policy makers, and researchers." -Emily Penner, Ph.D. Assistant Professor of Education UC Irvine

Cardinal Education is an educational consulting and tutoring company based in Palo Alto, CA. Guided by a philosophy of fulfilling students' academic potential in a way that boosts skills and confidence for life, we work to maximize successful middle school, high school, and college admissions outcomes. While some of our methods defy "conventional wisdom," we have a proven track record with a broad range of students: the Ivy League bound to those wishing to avoid community college, the self-motivated to the intransigently jaded, and the profoundly gifted to learning disabled. We have a passion for expanding students' dreams and helping them attain their goals. Cardinal Education believes in the social value of a strong public education system and sponsors pro bono programs to bring private sector expertise to bear. However, government fiscal policies are shortchanging public schools of opportunities: activities, sports, variety of classes, advanced classes, student: teacher ratios, and counseling departments. The "private school imperative" means that despite economic trends, admission to private school is becoming so competitive that it necessitates standardized testing excellence. The philosophy of this math workbook is rigor and drill. Because this is the first test students take that actively tries to trick

students at every turn, students who sit for these standardized exams need reflexive familiarity with computation (math facts), problem types, and strategy. The entrance exams are the first standardized tests for which budgeting time is a significant issue. Students need to spend the majority of time on analysis to avoid getting tricked rather than computation. By building skills, speed, and confidence, we hope to eliminate anxiety and give students a solid foundation on which to build excellent scores. This book is intended as a supplement for our highly trained staff, so it does not include strategies. However, motivated students can use it successfully with occasional help from a teacher or parent. Each chapter is comprised of units, with each unit comprised of 4 problem sets of difficulty, increasing in a logically progressive manner. Students should do as many of the 4 problem sets for each unit as it takes to achieve a 90% accuracy rate. Students taking lower level exams should complete problems 1-10 in each set. Students competing for high school admissions should complete each problem set in its entirety. Questions or feedback:

Thirty years after its publication, The Death and Life of Great American Cities was described by The New York Times as "perhaps the most influential single work in the history of town planning.[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of

ballet and the bitingly satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

This compact, one-semester introduction to the Bible prepares students to begin reading the biblical text as Christian Scripture, focusing on the meaning of Scripture for the church. The editors and contributors--experienced teachers with expertise in different parts of the Bible--orient students to the whole of Scripture so that they may read the biblical text for themselves. The book first explains what Christians believe about Scripture and gives a bird's-eye survey of the whole biblical story. Chapters then introduce the story, arrangement, style, and key ideas of each division of the Old and New Testament, helping readers see how the books of the Bible make a coherent whole.

provides the tools you need for a lifetime of accomplishment. The author's fifteen years of classroom instruction have helped shape this handbook into a fun and easy-to-read compilation that teaches the skills required for successful learning, studying, and test taking. Over the past decade and a half, the strategies laid out in The Keys to Success have been shown to help all types of students achieve their maximum potential time and time again. The lessons learned, however, don't simply apply to college students. Instead, anyone wishing to acquire and apply new skills can benefit from Case's expertise. Originally conceived as a short addendum to the syllabi in his college science and nursing classes, Case quickly realized just how much most students needed a no-nonsense guide to academic achievement. As a result, he modified his original materials that resulted in the comprehensive book that is The Keys to Success. So whether one is a K-12 or college student, acquiring new job skills, or even a member of the military, the potential knowledge this educative guide offers is endless. Case travels around the state presenting to various K-12 schools and colleges. Case is available for speaking and presentations. Please contact him at drew.case@doane.edu for more information.

Comments/Reviews While reading your book, I found myself reflecting on my college years and my laborious study methods. I wish I had read your book back then! -Bill, CreateSpace Editor This book has been a huge help to me as a high school student. I recently took an ACT preparation class and most everything covered in the class was covered in this book. It taught me how to get through tests quickly,

but very efficiently and systematically. It has also taught me different methods for studying and I have found these tips very helpful. I highly recommend this book. - Isabel, High School Student Something's just need a refresher. This book provides all that and more!!! I would highly recommend this to anybody embarking on furthering their educational goals. - College Staff I think the book is great! I love the common sense approach in a day when "common sense" is rare. Your layout is clean and fresh. There is a nice flow. I found THE KEYS TO SUCCESS to be caring, upfront and a GPS to success. - College Bookstore Manager Coming back to school after many years of raising a family and having a career I felt so rusty and lost. This book literally saved my grade. If you have concerns about how to study and do well in college, this book is a MUST! Thanks Mr. Case - Angie, College Student I had Mr. Case for my pharmacology class and he gave us a copy of the unprinted book to see if we liked it. LOVED IT!!!! Seriously, I don't know how I could have passed this class without it. Why didn't you have this book available when I took your anatomy class? - Sam, College Student

Teaching & Learning Experience: Strategies for College, Career, and Life Success Keys to College Success provides the established KEYS set of tools for success -- an understanding of how coursework connects to career and life goal achievement, and analytical, creative, and practical thinking coverage that empowers a range of cognitive ability. This program provides:

- Personalized Learning with MyStudentSuccessLab: Whether face-to-face or online, MyStudentSuccessLab helps students build the skills they need through peer-led video interviews, interactive practice exercises, and activities that provide academic, life, and professionalism skills.
- College Connection to Career and Life Goals: Infused with a fresh focus on risk and reward, showing that the reward of success in the modern world demands a risk of vision and persistent effort over time. It raises the bar to show students that they must risk action to grow, thrive, and contribute in order to make their college investment pay off in gainful employment, meaningful work, and community involvement.
- Thinking Skills

Dr. Griffiths' Principals of Inclusion is both a practical, realistic blueprint and an inspiring call to action for accelerating schools/school systems in their search to optimize all students' potential (inclusion). In an information age and an increasingly interconnected Global Village, no student's potential can afford to be wasted, especially by exclusionary educational practices/traditions (either conscious or unconscious). Dr. Griffiths writes clearly, using universal metaphors/tactics applicable to all educational situations.

Common Mistakes at Ketand How to Avoid Them

International education, service-learning, and community-based global learning programs are robust with potential. They can positively impact communities, grow civil society networks, and have transformative effects for students who become more globally aware and more engaged in global civil society - at home and abroad. Yet such programs are also packed with peril. Clear evidence indicates that poor forms of such programming have negative impacts on vulnerable persons, including medical patients and children, while cementing stereotypes

and reinforcing patterns of privilege and exclusion. These dangers can be mitigated, however, through collaborative planning, design, and evaluation that advances mutually beneficial community partnerships, critically reflective practice, thoughtful facilitation, and creative use of resources. Drawing on research and insights from several academic disciplines and community partner perspectives, along with the authors' decades of applied, community-based development and education experience, they present a model of community-based global learning that clearly espouses an equitable balance between learning methodology and a community development philosophy. Emphasizing the key drivers of community-driven learning and service, cultural humility and exchange, seeking global citizenship, continuous and diverse forms of critically reflective practice, and ongoing attention to power and privilege, this book constitutes a guide to course or program design that takes into account the unpredictable and dynamic character of domestic and international community-based global learning experiences, the varying characteristics of destination communities, and a framework through which to integrate any discipline or collaborative project. Readers will appreciate the numerous toolboxes and reflective exercises to help them think through the creation of independent programming or courses that support targeted learning and community-driven development. The book ultimately moves beyond course and program design to explore how to integrate these objectives and values in the wider curriculum and throughout formal and informal community-based learning partnerships.
