### Introduction to Managerial Accounting

FitWell empowers students to become active participants in their own health through a first-of-its-kind student-centered approach. McGraw-Hill conducted extensive market research with over 4,000 students to gain insight into their studying and buying behavior. Students told us they wanted more portability with innovative visual appeal and content that is designed according to the way they learn. Instructors we surveyed told us they wanted a way to engage their students without compromising on high quality content. Our findings concluded that students who actively participated in their own learning actually retained more information and were able to apply it more often to their every day lives. How could we build a program for students that would promote active learning while providing visual appeal, portability, and relevance? We are excited to introduce to you the first-of-its kind program for Fitness and Wellness. FitWell delivers the serious content you want in both a magazine-style format that's fun to read and an online learning space that commands active learning. We began by collecting over 1,000 Fitness and Wellness questions asked by real students. Questions like, "How can I improve my self-esteem?" or "Do I really need 8 glasses of water a day?" introduce each section of material throughout the program. With its series of assignable videos that debunk common health and fitness myths ("Sit Ups Make Your Stomach Flatter" or "Marijuana gives you munchies"), FitWell grabs hold of students' attention and doesn't let go. The real-life behavior change case study videos found online provide students with unmatched relevance. Students click, watch, and learn: these videos follow real college students attempting to change their behavior for an entire semester, and hopefully for life. With its online Fitness assessments, assignable interactive animations, and online labs, FitWell engages students like no other fitness and wellness program. The Right Conversations: To make our program relevant, we wanted to understand what students care about

when it comes to their health and well-being. It turned out, when it comes to Fitness and Wellness, students had a lot of questions! We compiled over 1,000 questions that students asked our authors. These real student questions like, "Can colds really come from stress?" or "What's the best exercise for me?" introduce each section of material, ensuring the content that follows is always research-based and relevant. Instead of passively reading, your students actively engage in questions, answers, and conversations that are of interest to them. The Right Instruction: Assign your students a series of short video clips throughout the semester that track the progress of real students making behavior changes in their lives. Follow Greg on his quest to begin exercising and watch him document his challenges on camera. Will he be able to make lasting, healthy choices? Your students will have to tune in and find out for themselves! Captivate your students by assigning "Myth/Fact" videos that explore common myths, like "Oily Foods Give You Acne", and separate the fact from fiction. Students actively work through the FitWell system online and in their magazine-style text, completing fitness assessments, interactive animations, and labs. Not only does this format produce measurable results that are documented online, but the focus on active learning is the first step towards inspiring more active students. The Right Time: The time is right for a flexible hybrid print-digital learning system that meets students online, where they already work, play, and live.

Financial Accounting's distinctive focus company approach motivates students by involving them in the business decisions of a real company, demonstrating how using financial accounting information in decision making makes a difference in the success of a firm. This balanced approach ensures students understand both the preparation and use of financial statements. Libby's pedagogical features and wealth of end of chapter material have been praised by students and instructors alike - making it a market leader in financial accounting. In addition, today's students have diverse learning styles and numerous time commitments and they want technology supplements that help them study more efficiently and effectively. Lyryx Assessment, an online homework assessment solution, and iStudy, an interactive online study guide, provide students with powerful online tools tied directly to Financial Accounting Third Canadian edition. These tools will help students maximize their study time and make their learning experience more enjoyable.

Communication Matters: Because great communicators are made, not born. Through Communication Matters' highly interactive program, students learn that our instincts aren't as good as we think they are and develop the skills needed to become effective communicators. The program prompts students to question their assumptions, helps them to move beyond their personal daily communication experiences, and challenges them to think critically about why and how they communicate in the ways they do. Connect for Communication Matters, Second Edition, reflects our increasingly diverse, interactive, and digital world by using hands-on features. Through an interactive eBook, a suite of student videos for public speaking, and dynamic online activities, students are urged to consider which choices are likely to be effective and which less so. LearnSmart, McGraw-Hill's adaptive learning system, assesses students' knowledge of course content and maps out personalized study plans for success. The result: Students are able to internalize core communication principles, adapt their communication behavior more effectively, and actively apply those strategies to all aspects of their lives.

### **Italy**

The research represented in this book, conducted in 1996 by Gabriele Basilico (photographs) and Stefano Boeri (text), studies the haphazard, significant changes that have taken place over the last twenty years in the Italian landscape. It is not so much the large buildings, the new districts or new infrastructures that have changed the face of the land. It is rather the multitude of solitary, agglomerated buildings, such as the single-family homes, storehouses, shopping centers, office buildings, sheds, and workshops. They are modest constructions, often incongruously clustered one next to the other, scattered incoherently across the landscape, and they give expression to small fragments of our society and economy: families, small businesses, distributors, stores, clubs, depots.

## **Dynamic Business Law: The Essentials**

Built from the ground up to focus on what matters to students in today's high-tech, globalized world, Dean Karlan and Jonathan Morduch's *Macroeconomics* represents a new generation of products, optimized for digital delivery and available with the best-in-class adaptive study resources in McGraw-Hill's LearnSmart Advantage Suite. Engagement with real-world problems is built into the very fabric of the learning materials as students are encouraged to think about economics in efficient, innovative, and meaningful ways. Drawing on the authors' experiences as academic economists, teachers, and policy advisors, a familiar curriculum is combined with material from new research and applied areas such as finance, behavioral economics and the political economy, to share with students how what they're learning really matters. This modern approach is organized around learning objectives and matched with sound assessment tools aimed at enhancing students' analytical and critical thinking competencies. Students and faculty will find content that breaks down barriers between what goes on in the classroom and what is going on in our nation and broader world. By teaching the right questions to ask, Karlan and Morduch provide readers with a method for working through decisions they'll face in life and ultimately show that economics is the common thread that enables us to understand, analyze, and solve problems in our local communities and around the world. Connect is the only integrated learning system

that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

Pathways to Astronomy breaks down introductory astronomy into its component parts. The huge and fascinating field of astronomy is divided into 86 units. These units are woven together to flow naturally for the person who wants to read the text like a book, but it is also possible to assign them in different orders, or skip certain units altogether. Professors can customize the units to fit their course needs. They can select individual units for exploration in lecture while assigning easier units for self-study, or they can cover all the units in full depth in a content-rich course. With the short length of units, students can easily digest the material covered in an individual unit before moving onto the next unit.

"Introduction to Managerial Accounting," 5/e by Brewer/Garrison/Noreen is based on the market-leading text, "Managerial Accounting," by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; Brewer 5e has been rethought and retooled to meet the needs of the market. Brewer 5e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

## **Pathways to Astronomy**

Dynamic Business Law: The Essentials is appropriate for the one-semester Business Law course. It contains the basics of business law but does not get bogged down in the kind of details that are more appropriate in an upper-level law class. The text provides an examination of the basic questions, concepts, and legal rules of business law. Emphasis on the BUSINESS in business law. Dynamic Business Law: The Essentials emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly 'defending' the inclusion of this

course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law: The Essentials contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law: The Essentials as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to tie in this component even further.

## **College Algebra**

Engaging Questions: A Guide to Writing takes a practical approach to composing, with a view that good writing occurs in the context of critical thinking. By using a consistent methodology that prompts students to learn and practice "the art of questioning," Engaging Questions: A Guide to Writing presents writing as one essential part of the critical thinking whole, ultimately empowering students to become skilled thinkers and confident writers.

## **Fundamentals of Cost Accounting**

Intermediate Accounting, 3e, by Spiceland/Sepe/Tomassini will gain support in traditional and technology-driven accounting departments, especially those looking for a more concise, decision-making text that reinforces challenging concepts via CD-ROM. The revision of this text is based around a "Learning System." The revision of this "Learning System" was built on improving the clarity of the chapters, emphasizing more decision-making in order to prepare students for the changes taking place on the CPA exam, acknowledging the diversity of students and their learning styles by creating supplemental materials to assure the success of every student, and creating a consistent text and supplemental package for both students and instructor's giving us the best possible intermediate text on the market. Returning to the Third edition is the award winning "Coach" CD-ROM. The Coach CD-ROM is a multimedia product integrating audio and video clips, animated illustrations, cases, and alternative reading material that helps students comprehend some of the more difficult topics associated with intermediate accounting. Designed specifically for the Spiceland text, instructors and students will find these learning tools placed strategically throughout the text. This is the most comprehensive Learning System in Intermediate Accounting. At only 1120 pages (300 pages less than the average intermediate accounting text), Spiceland/S/T has not sacrificed content for pages. Instead, the authors have created a very flexible text with a student friendly writing style that focuses on explaining not just how to apply a procedure, but why it's applied.

## **Math Connects**

Communication Research: Asking Questions, Finding Answers covers basic research issues and processes, both quantitative and qualitative, appropriate for communication students with little or no previous research methods experience. The text's guiding principle is that methodological choices are made from one's research questions or hypotheses. This avoids the pitfall in which students learn one methodology or one methodological skill and then force that method to answer all types of questions. Instead of working with one methodology to answer all types of questions, students come away understanding a variety of methods and how to apply them appropriately.
