Small-Town Mom

In Korea in the early 1800s, news from the countryside reached the king by means of signal fires. On one mountaintop after another, a fire was lit when all was well. If the king did not see a fire, that meant trouble, and he would send out his army. Linda Sue Park's first picture book for Clarion is about Sang-hee, son of the village firekeeper. When his father is unable to light the fire one night, young Sang-hee must take his place. Sang-hee knows how important it is for the fire to be lit-but he wishes that he could see soldiers . . . just once. Mountains, firelight and shadow, and Sunhee's struggle with a hard choice are rendered in radiant paintings, which tell their own story of a turning point in a child's life.

Wake up to the aroma of fresh bread wafting through your kitchen every morning! A dream? No. With your bread machine, it's a reality. Push a button or two and transform what seems like a laborious, time-consuming and skilled process into a spectacularly easy affair. So why do you need this book when bread machines come with their own recipes? Well, such recipes vary, sometimes on the high side, in the amount of yeast, salt, sugar, fat and dried milk powder they contain. Annette Yates has set about reducing these ingredients and providing recipes for making loaves that are as natural as they can be. And they are delicious too. Or you can add extra ingredients - like herbs, spices, seeds, nuts, fruit, vegetables, honey, mustard and even chocolate! - and transform simple bread into something really special. Try it and see

In *Spoils of Truce*, Reinoud Leenders documents the extensive corruption that accompanied the reconstruction of Lebanon after the end of a decade and a half of civil war. With the signing of the Ta'if peace accord in 1989, the rebuilding of the country's shattered physical infrastructure and the establishment of a functioning state apparatus became critical demands. Despite the urgent needs of its citizens, however, graft was rampant. Leenders describes the extent and nature of this corruption in key sectors of the Lebanese economy and government, including transportation, health care, energy, natural resources, construction, and social assistance programs. Exploring in detail how corruption implicated senior policymakers and high-ranking public servants, Leenders offers a clear-eyed perspective on state institutions in the developing world. He also addresses the overriding role of the Syrian leadership's interests in Lebanon and in particular its manipulation of the country's internal differences. His qualitative and disaggregated approach to dissecting the politics of creating and reshaping state institutions complements the more typical quantitative methods used in the study of corruption. More broadly, *Spoils of Truce* will be uncomfortable reading for those who insist that power-sharing strategies in conflict management and resolution provide some sort of panacea for divided societies hoping to recover from armed conflict.
