H.I.E. Dhlomo (1903-1956) was the first major black playwright in South Africa. His plays on Shaka, Moshoeshe, Dingane and Cetshwayo, written in the

1930s, were pioneering works in South African drama. Dhlomo was also a prolific poet, and is probably best known for his epic poem Valley of a Thousand Hills, published in 1941. He was a major influence on black journalism and played an important behind-the-scenes role in the founding of the A.N.C. Youth League and other organisations.

Engineering Science, Second Edition provides a comprehensive discussion of the fundamental concepts in engineering. The book is comprised of 16 chapters that provide the theories and applications of different engineering concepts. The coverage of the text includes statics (equilibrium and structures), dynamics (motions and vibrations), and energy and thermal systems. The book also discusses electrical circuits, including direct and alternating current circuits, and electric and magnetic fields, including electromagnetism. The text will be useful to students of the various branches of engineering, such as mechanical, electrical, and civil.

Film noir reflects the fatalistic themes and visual style of hard-boiled novelists and many émigré filmmakers in 1940s and 1950s America, emphasizing crime, alienation, and moral ambiguity. In *The Philosophy of TV Noir*, Steven M. Sanders and Aeon J. Skoble argue that the legacy of film noir classics such as *The Maltese Falcon*, *Kiss Me Deadly*, and *The Big Sleep* is also found in episodic television from the mid-1950s to the present. In this first-of-its-kind collection, contributors from philosophy, film studies, and literature raise fundamental questions about the human predicament, giving this unique volume its moral resonance and demonstrating why television noir deserves our attention. The introduction traces the development of TV noir and provides an overview and evaluation of the book's thirteen essays, each of which discusses an exemplary TV noir series. Realism, relativism, and integrity are discussed in essays on *Dragnet*, *Naked City*, *The Fugitive*, and *Secret Agent*. Existentialist themes of authenticity, nihilism, and the search for life's meaning are addressed in essays on *Miami Vice*, *The Sopranos*, *Carnivale*, and *24*. The methods of crime scene investigation in *The X-Files* and *CSI* are examined, followed by an exploration of autonomy, selfhood, and interpretation in *The Prisoner*, *Twin Peaks*, *The X-Files*, and *Millennium*. With this focus on the philosophical dimensions of crime, espionage, and science fiction series, *The Philosophy of TV Noir* draws out the full implications of film noir and establishes TV noir as an art form in its own right.

Bible Basics is a detailed study of basic Biblical doctrines and teachings. It's a self study guide, with questions at the end of each of the 11 sections. It's designed to go through the basic message of the Bible from start to finish. Bible Basics is a positive presentation of the Gospel, but there are digressions to discuss difficult Bible passages, and to demonstrate that many confusing doctrines such as the Trinity, immortal soul and infant sprinkling are not Biblical nor strictly Christian, but instead merely the creation of mainstream church theologians. The book presents Biblical Christianity. Duncan Heaster is a Christadelphian and the book is also a summary of the doctrines of the Christadelphian faith. The Christadelphian church uses the book as a standard reference.

In the wild night hours, or during the heat of the day - whenever man's thoughts whirl feverishly - then truth and fantasy, the past and the future, life and death are indiscriminately mingled on Toorberg, home of the Moolman family. So the magistrate is to learn as he investigates the strange circumstances of the death of little Noah, child of grief, who was not entirely of this world. Every day the case becomes more complex, until it challenges the very foundations of the law. It seems as if the magistrate will have to judge an entire dynasty, both the living and the dead. Everyone's guilt has to be affirmed, or denied, and this means he will have to rip open the lives of all. The Moolmans are a tribe who have long since learned how to deal with their own. Parents cut children out of their lives, shunt them aside to live as stepchildren, scrag-ends of the clan, or as city-dwellers whose names are never uttered. The Moolmans cannot forgive; not when their tribal blood is betrayed.

As the process of globalization continues, and power imbalances between decision-making institutions become increasingly apparent, the need for a critical assessment of the way in which we manage our interaction with the natural environment becomes ever more urgent. Good governance was identified at the World Summit on Sustainable Development as a critical factor for ensuring successful sustainable development. This book builds on the briefing papers which were presented at the Summit, taking further the discussions of the WEHAB agenda (Water, Energy, Health, Agriculture and Biodiversity - the five international priority sectors highlighted by Secretary General Kofi Annan). This is a unique offering on the role and reform of global governance institutions and processes, raising issues which have been previously neglected in international discussions.

A Xhosa prince reluctantly leaves the University College of Fort Hare and goes back to the land of his ancestors to take his place as king of the Mpondomise. The clash of his modern ideas and the traditional beliefs of his people mirrors the dash of the western way of life with African custom and tradition -- church-people versus traditionalists, school people versus 'red-ochre people', boarding school activities versus the inkundla or assembly at the royal place. The conclusion, that disaster can be averted only by the willingness of opposing forces to work together for mutual comprehension of the legitimate claims of tradition and modernity, gives a foretaste of the spirit that governed modern South Africa's political transformation. *Inqumbo Yeminyanya -- The Wrath of the Ancestors* -- is a classic of Xhosa literature. A C Jordan has a keen eye for detail, a delightful sense of humour and a dramatic style. Literal translations of Xhosa images, idioms and proverbs transport readers to the Tsolo district and conjure up the memorable speeches of the Mpondomise counsellors.

How do tiny bugs get into oatmeal? What makes children look like--or different from--their parents? Where do rotten apples go after they fall off the tree? By presenting everyday mysteries like these, this book will motivate your students to carry out hands-on science investigations and actually care about the results. These 20 open-ended mysteries focus exclusively on biological science, including botany, human physiology, zoology, and health. The stories

come with lists of science concepts to explore, grade-appropriate strategies for using them, and explanations of how the lessons align with national standards. They also relieve you of the tiring work of designing inquiry lessons from scratch.

A hard-hitting, and emotional story set in South Africa, following Themba and his dreams of becoming a famous footballer. Themba grows up dreaming of becoming a football star. One day he leaves the village and travels with his sister to the city in search of their mother. Life is a struggle and Themba has to grow up fast. A lucky break gives him the chance to train as a footballer and play professionally – but Themba has a secret – should he tell the truth about his HIV and risk everything he’s ever dreamed of? ~ Themba won an IBBY award - Best Book for Young People. Karin Chubb was Shortlisted for the Marsh Award for Children’s Literature in Translation for Themba, a unique award celebrating the high quality and diversity of translated fiction for young readers. The book was also made into an award-winning film. “Beautifully translated from the original it is a book full of hope and the more young people who read books like this and who come to understand how

other young children live, the more this hope will spread.” Books, Teens and Magazines “Themba reminds me of my own childhood and youth in a township close to a small village in the Transvaal in South Africa: Like him I wanted to escape poverty, like him I had the hope that our world will be a just world one day – and like him I loved my mother who was working at the time as a maid for a white family. To be very honest: in soccer Themba seems to be simply better than I was.” Archbishop Desmond Tutu “READ OF THE MONTH” Pride magazine “an inspirational coming of age drama about a young South African boy’s escape from poverty and the pusuit of a dream.” Spling onliner “It’s a rags to riches story – a story of hope, of dreaming your dreams and achieving them, and it’s also a story of friendship” The Sunday Independent “It’s a really engaging book, and because Aids is a serious issue, it made us want to carry on reading more about it.” Durning Library teenage reading group “Beautifully translated from the original and it is an easy and straightforward read. However, the storyline is tough – poverty, AIDS and death haunt the pages of the book. The reader learns about the hardship of life for many ordinary South Africans (even after Mandela came to power) and the struggle for those families who have a family member suffering from AIDS. The problems they face do not lie solely in a lack of medication and good nutrition; it also lies in the ignorance of their neighbours and friends and a refusal of many to acknowledge the illness and help the ill. However this is not a depressing book – it is a book full of hope and the more young people who read books like this and who come to understand how other young children live,

the more this hope will spread.” Books, Teens and Magazines

New edition, with an introduction by MG Vassanji. In the late nineteenth century white settlers and administrators arrive to occupy the African country of Zimbabwe (Rhodesia). Nehanda, a village girl, is recognized through omens and portents as a saviour. The resulting uprising by the Africans is brutally crushed but looks forward to the war of independence that succeeded a century later. Told in lucid, poetic prose, this is a gripping story about the first meeting of a people with their colonizer.
