Velocette

This book has been developed from its earlier and far less formal presentment as the proceedings of a symposium entitled The Biochemistry of S-Adenosylmethionine as a Basis for Drug Design that was held at the Solstrand Fjord Hotel in Bergen, Norway on June 30-July 4, 1985. The purpose of the symposium was to bring together scientists from various disciplines (biochemistry, pharmacology, virology, immunology, chemistry, medicine, and so on) to discuss

the recent advances that have been made in our understanding of the biological roles of S adenosylmethionine (AdoMet) and to discuss the feasibility of utilizing AdoMet-dependent enzymes as targets for drug design. Thus the information provided herein will be of value not only to basic scientists involved in elucidating the role of AdoMet in biology, but also to medicinal chemists who are using this basic knowledge in the process of drug design. The volume should also be of interest to pharmacologists and clinicians involved in biological evaluation of potential therapeutic agents arising from the efforts of the biochemists and medicinal chemists. Each plenary speaker at the symposium was requested to submit a chapter reviewing recent contributions of their discipline to our base of knowledge about the biological role of AdoMet. Topics covered in this volume include protein and phospholipid methylations (Section A), nucleic acid methylations (Section B), the regulation of AdoMet, S-adenosylhomocysteine, and methylthioadenosine metabolism (Section C), clinical aspects of AdoMet (Section D), and the design, synthesis, and biological evaluation of trans methylation inhibitors (Section E).

Wild, Wicked, & Wanton

In 1900, aged twenty-two, Charles Stewart Rolls was the best known motorist in Britain, better known than Jeremy Clarkson today, having won the 'Thousand Mile Trial' of that year, the event that launched motoring as a practical popular concept. Rolls followed his success in the Trial by racing in highly dangerous inter-city races in Europe. He drove the fastest time ever achieved in Britain although this was never ratified. At the same time Rolls ran a large car-sales and service showroom in London, employing seventy staff with space for two hundred cars. In the space of six months he persuaded the secretary of the Automobile Society of Great Britain & Ireland to join him and then, shortly after, discovered Henry Royce with whom his name is now forever linked. This triumvirate of talented engineers and businessmen took Rolls-Royce Ltd. to the pinnacle of motor and aero engineering that the company has occupied ever since. Rolls helped create the new sport of hot-air ballooning and raced his balloon for his country. He then joined a select band of intrepid pioneers who risked all to prove the theory of powered flight. He was first to fly the English Channel both ways but weeks later perished at Bournemouth Air Show. Engineer, salesman, aristocrat, pioneer and businessman, Charles Rolls offers us a timely reminder of British invention, courage and ingenuity a hundred years ago.

This time, though, it's different. His perfect body would be for professional use only. This time, she could use him. Drew is all for it. He's looking forward to the exposure. From the New York Times bestselling author of *Hope Flames* and the hot new Play-by-Play novel, *Melting the Ice*, comes an all-new novel of small-town romance, second chances, and hope... When a movie crew asks to film on his cattle ranch, Logan McCormack doesn't expect Desiree Jenkins, the young, sought-after star, to be so open, so down-to-earth, or so intimately interested in him. But the last thing a loner like Logan needs is a distraction like Des, who wouldn't understand what it's like to live peacefully off the land. But it's Logan who doesn't understand. What Des wants is an escape from paparazzi and gossip columns, and she's found it at Logan's ranch. Now it's up to her to prove that she's like any other girl looking to be accepted for who she is. And she's hoping that it's by this real-life cowboy who has everything it takes—and more—to give her the kind of happily ever after that

can't be found in the movies. "Jaci Burton's books are always sexy, romantic, and charming! A hot hero, a lovable heroine, and an adorable dog—prepare to fall in love with Jaci Burton's amazing new small-town romance series."—Jill Shalvis, New York Times bestselling author
