Financial and Managerial Accounting Using Excel for Success

Garrison - Your guide through the challenging waters of managerial accounting. For centuries, the lighthouse has stood as a beacon of guidance for mariners at sea. More than an aid to navigation, the lighthouse symbolizes safety, permanence, reliability, and the comforts of the familiar. For this reason, we have chosen to illustrate the Canadian eighth edition of Managerial Accounting by Garrison, Chesley, Carroll and Webb with an image that encapsulates the greatest strengths of this market leading text. Garrison is your guide through the challenging waters of managerial accounting. It identifies the three functions managers must perform within their organizations—plan operations, control activities, and make decisions—and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. Managerial Accounting 8ce focuses, now as in the past, on three qualities: Relevance, Balance and Clarity. The authors' steady focus on these core elements has led to tremendous results! As seafarers look to the lighthouse for direction along unfamiliar shore, so too can Garrison act as a compass for students seeking to master this course.

Duchac, Reeve, Warren provides an effective new approach to help accounting majors and business students learn and understand financial accounting. The text introduces an integrated financial statements framework that clearly illustrates the inter-relationships between the cash flow statement, income statement and the balance sheet. This integrated framework focuses on providing students with a sound understanding of how the financial statements work together to provide a picture of a company's financial performance, while at the same time teaching students the impact of transactions on the financial statements. This methodology offers a blend of concepts and procedures, which helps students get to the "ah-ha" moment in accounting education sooner by focusing on how the financial statements come together BEFORE introducing debits and credits.
