When forced to choose between staying with her guardian and being with her big brother, Ari chose her big brother. There's just one problem—Gage doesn't actually have a place to live. When Ari's mother died four years ago, she had two final wishes: that Ari and her older brother, Gage, would stay together always, and that Ari would go to Carter, the middle school for gifted students. So when nineteen-year-old Gage decides he can no longer live with their bossy guardian, Janna, Ari knows she has to go with him. But it's been two months, and Gage still hasn't found them an apartment. He and Ari have been "couch surfing," staying with Gage's friend in a tiny apartment, crashing with Gage's girlfriend and two roommates, and if necessary, sneaking into a juvenile shelter to escape the cold Maine nights. But all of this jumping around makes it hard for Ari to keep up with her schoolwork, never mind her friendships, and getting into Carter starts to seem impossible. Will Ari be forced to break one of her promises to Mama? Told in an open, authentic voice, this nuanced story of hiding in plain sight may have readers thinking about homelessness in a whole new way.

Entrepreneurs and small business owners are urged to avoid the two biggest branding mistakes they can make—first, investing in building their brand in ways that copycat big-name companies, and second, struggling to build a brand sensitive to everyone and anyone, rather than focusing on those who are spending with them. Led by Dan S. Kennedy, with the support of Forrest Walden and Jim Cavale, the co-founders of Iron Tribe Fitness, and other marketing/branding vets including Bill Gough, the number-one marketing adviser to Allstate agents; Steve Adams, CEO of a chain of 21 retail stores and an e-commerce business, and Nick Nanton, of the Dicks-Nanton Celebrity Branding Agency, entrepreneurs learn how to develop and gain profit from their personal or business brand—without corporate-sized investment. Mastering Kennedy's branding truths and utilizing proven direct-response advertising and marketing methods, entrepreneurs create

their own brand tribe—customers who believe in, buy, and promote their brand. Truths and tactics are illustrated with case studies, examples and insights from other well-known brands.

The Rest Is Noise

The scandal over modern music has not died down. While paintings by Pablo Picasso and Jackson Pollock sell for a hundred million dollars or more, shocking musical works from Stravinsky's Rite of Spring onward still send ripples of unease through audiences. At the same time, the influence of modern music can be felt everywhere. Avant-garde sounds populate the soundtracks of Hollywood thrillers. Minimalist music has had a huge effect on rock, pop, and dance music from the Velvet Underground onward. Alex Ross, the brilliant music critic for The New Yorker, shines a bright light on this secret world, and shows how it has pervaded every corner of twentieth century life. The Rest Is Noise takes the reader inside the labyrinth of modern sound. It tells of maverick personalities who have resisted the cult of the classical past, struggled against the indifference of a wide public, and defied the will of dictators. Whether they have charmed audiences with the purest beauty or battered them with the purest noise, composers have always been exuberantly of the present, defying the stereotype of classical music as a dying art. Ross, in this sweeping and dramatic narrative, takes us from Vienna before the First World War to Paris in the twenties, from Hitler's Germany and Stalin's Russia to downtown New York in the sixties and seventies. We follow the rise of mass culture and mass politics, of dramatic new technologies, of hot and cold wars, of experiments, revolutions, riots, and friendships forged and broken. In the tradition of Simon Schama's The Embarrassment of Riches and Louis Menand's The Metaphysical Club, the end result is not so much a history of twentieth-century music as a history of the twentieth century through its music.

Equality 7-2521 finds himself out of step with the collectivist society of the future, and discovers a means to freedom in Ayn Rand's fable of the individual in conflict with society. First published in 1938, Anthem takes place in a dystopian future world in which humanity is enduring a new dark age, human life is regimented in every respect and personal identity has been all but snuffed out by a totalitarian government. The narrator, writing his story in secret, realizes he is a criminal simply for having thoughts of his own. Exploring the ruins of a previous civilization

he discovers relics, conducts forbidden experiments and learns enough to question the very structure of his society. Can he share this knowledge with his fellow citizens? The author strips the relationship of humanity to civilization down to its bare essence in this modern parable that starkly illuminates the challenge an oppressive government presents to individuality. With an eye-catching new cover, and professionally typeset manuscript, this edition of Anthem is both modern and readable.

While it is readily admitted that we learn in order to do, we are in need of guidance. It is with this in mind that Morris A. Inch set out to compose this present volume. Inch has taken as his inspiration the biblical injunction: "Do not conform any longer to the patterns of this world, but be transformed by the renewing of your mind. Then you will be able to test and approve what God's will is--his good, pleasing and perfect will" (Rom 2:12) and the graphic imagery concerning Christians derived from the Epistle of Diognetus: "They dwell in their own countries, but simply as sojourners. As citizens, they share in all things with others, and yet endure all things as if foreigners. Every foreign land is to them as their native county, and every land of their birth as a land of strangers." One might gather from reading A Guide to Christian Ethics the necessary direction for a more true Christian faith and practice in our world today.

AT TALE OF TWO CITIESA Tale of Two Cities (1859) is a novel by Charles Dickens, located in London and Paris before and during the French Revolution. The novel tells the story of the French doctor Manette, his 18 years of imprisonment at the Bastille in Paris and his release in London with his daughter Lucie, whom he had never met; Lucie's marriage and the collision between her beloved husband and

the people who caused her father's imprisonment; and Mr. and Mrs. Defarge, wine sellers in a poor suburb of Paris. History is confronted with the conditions that led to the French Revolution and the reign of terror.

CHARLES DICKENS Charles John Huffam Dickens (February 7, 1812 - June 9, 1870) was an English writer and social critic. He has created some of the most famous fictional characters in the world and is considered by many to be the greatest novelist of the Victorian era. His work enjoyed unprecedented popularity during his lifetime, and in the 20th century critics and scholars had recognized him as a literary genius. His novels and short stories have a lasting popularity. Born in Portsmouth, Dickens left school to work in a factory when his father was incarcerated in a debtors' prison. Despite his lack of formal education, he published a weekly newspaper for 20 years, wrote 15 novels, five short stories, hundreds of short stories and non-fiction articles, taught and played extensively, was a tireless writer and campaigned vigorously for children's rights education and other social reforms. The literary success of Dickens began with the 1836 serial publication of *The Pickwick Papers*. In a few years he had become an international literary celebrity, famous for his humor, his satire and his observation of character and society. His novels, mostly published monthly or weekly, were the pioneers of the serial publication of narrative fiction, which became the dominant Victorian mode for novel publishing. The down payment format allowed Dickens to gauge the reaction of his audience, and he often altered his plot and character development based on such reactions. For example, when his wife's podiatrist expressed his distress at the way Miss Mowcher in *David Copperfield* seemed to reflect his disabilities, Dickens improved the character with positive traits. His plots were carefully constructed, and he often woven elements of topical events into his stories. Masses of the illiterate poor chipped in ha'pennies to be read every new monthly episode, opening and inspiring a new class of readers. Dickens was considered the literary colossus of his age. His 1843 novel, *A Christmas Carol*, remains popular and continues to inspire adaptations in every genre of art. *Oliver Twist* and *Great Expectations* are also frequently adapted, and, like many of his novels, evoke images of early Victorian London. His 1859 novel, *A Tale of Two Cities*, which takes place in London and Paris, is his best-known historical fiction. Dickens has been commended by other writers - from Leo Tolstoy to George Orwell and GK Chesterton - for his realism, comedy, prose style, unique characterizations and social criticism. On the other hand, Oscar Wilde, Henry James and Virginia Woolf complained of a lack of psychological depth, a vague writing and a vein of sacerdotal sentimentalism. The term Dickensian is used to describe something that reminds Dickens and his writings, such as poor social conditions or comically repugnant characters.

After decades studying creatures great and small, evolutionary biologist David Sloan Wilson had an epiphany: Darwin's theory won't fully prove itself until it improves the quality of human life in a practical sense. And what better place to begin than his hometown of Binghamton, New York? Making a difference in his own city would provide a model for cities everywhere, which have become the habitat for over half of the people on earth. Inspired to become an agent of change, Wilson descended on Binghamton with a scientist's eye and looked at its toughest questions, such as how to empower neighborhoods and how best to teach our children. He combined the latest research methods from experimental economics with studies of holiday decorations and garage sales. Drawing upon examples from nature as diverse as water striders, wasps, and crows, Wilson's scientific odyssey took him around the world, from a cave in southern Africa that preserved the dawn of human culture to the Vatican in Rome. Along the way, he spoke with dozens of fellow scientists, whose stories he relates along with his own. Wilson's remarkable findings help us to understand how we must become wise managers of evolutionary processes to accomplish positive change at all scales, from effective therapies for individuals, to empowering neighborhoods, to regulating the worldwide economy. With an ambitious scope that spans biology, sociology, religion, and economics, *The Neighborhood Project* is a memoir, a practical handbook for improving the quality of life, and an exploration of the big questions long pondered by religious sages, philosophers, and storytellers. Approaching the same questions from an evolutionary perspective shows, as never before, how places define us.
