The C Book, Featuring the ANSI C Standard

This is the most complete and thorough biography of Jose Raul Capablanca, one of the greatest players in the history of chess. Beginning with his family background, birth, childhood and introduction to the game in Cuba, it examines his life and play as a young man; follows his evolution as a player and rise to prominence, first as challenger and then world champion; his loss of the title to Alekhine and his efforts to recapture the championship in the last years of his too-short life. What emerges is a portrait of a complex man with far-ranging interests and concerns, in stark contrast to his robotic reputation as "the chess machine." Meticulously researched, utilizing many sources available only in Capablanca's home country, it puts truth to legend regarding a man who stood astride the chess world in of its most dynamic and dramatic eras. Numerous games and diagrams complement the text, as do a wealth of photographs.

How Life Imitates Chess

Evgeny Vasiukov (1933-2018) was a top-level grandmaster from Moscow who won the Moscow championship 6 times, and over 50 major tournaments in total, including the strong Manila 1974 tournament ahead of Bent Larsen, Lajos Portisch and Svetozar Gligoric. He participated in 11 Soviet championships and was a coach and aide to Anatoly Karpov, Mikhail Tal, David Bronstein, Viktor Korchnoi and Efim Geller among other famous players. In particular, he was part of Karpov's team of seconds in the world championship matches against Korchnoi in 1978 and Kasparov in 1984 and 1985. In 1995 he won the world senior chess championship. His play was notable for an attacking approach with swashbuckling combinations in the style of Mikhail Chigorin, as well as innovations in offbeat openings such as 2.d3 against the French Defense. He boasted positive career scores against Vasily Smyslov, Larsen and Bronstein. In this book his life-long friend and sparring partner, Garry Kasparov's long-term coach Alexander Nikitin, presents a selection of games illustrating Vasiukov's career and legacy. Opponents in this games collection include world champions and challengers Tigran Petrosian, Boris Spassky, Tal, Smyslov, Bronstein and Korchnoi, as well as other leading players such as Lev Alburt, Alexander Morozevich, Mark Taimanov, Portisch and Geller, among others. Readers will find the annotations both highly instructive and entertaining, in an informal style.

A Most Fascinating Journey! It has long been recognized that there are only three major areas of human endeavor which produce prodigies: music, chess and mathematics. This does not occur by happenstance. There are links on many levels. Now, for the first time, Music and Chess – Apollo Meets Caissa examines the yet unexplored relation of chess to music. Mathematics is a main common denominator, a fact that is highlighted accordingly. The thesis of this extraordinarily researched book is that chess is art in itself. It can create art and is strongly related to mathematics and music. As becomes clear, this relationship has already been introduced by some legendary players such as Mikhail Tal and Vladimir Kramnik . Great artists such as John Cage, Marcel Duchamp and Arnold Schönberg, to name but a few, have also been fascinated by the very same idea. Surprisingly, this has not been explored in detail so far – only some sporadic articles exist, by authors specializing in either music or chess. There are chapters that address issues which are specialized in chess and music, while others cover related issues of general, social and artistic nature. Music and Chess – Apollo Meets Caissa can be appreciated by readers who have a good, general, though non-specific background, in both fields. That is, no technical knowledge of music is required, with the only prerequisite to fully appreciate the text being the understanding of standard chess rules. The text could be equally enlightening to students of music or

mathematics, as an added intellectual insight into these two disciplines. The text is supplemented by many chess diagrams, charts, and over 50 full-color images. So, turn on the music, set up chessboard, get out the calculator and let the author take you on a most fascinating journey that is Music and Chess - Apollo Meets Caissa.

Biography of Judith Campbell Exner, Mistress to President John F. Kennedy

God's Chosen Fast

Since 1987 we have defended in articles that the Spanish queen Isabella I of Castile (Isabel la Católica) was the new chess queen (dama) on the chessboard. Other publications were in 1990, 1994, 1997, and 2004. And of course, Marilyn Yalom studied our book during her visit to the National Library in The Hague (Holland) before she wrote Birth of the Chess Queen in 2004. In her book one cannot see that in 1987, 1990, and 1994 we already published material about Isabel la Católica (Isabel I of Castile) being the new powerful dama or chess queen on the chessboard. In other words we can state here that we have been studying Spanish history and its chess literature for over 30 years. Since 2003 we have also known the development of the new bishop in chess.

great book. That's what grandmaster Miguel Najdorf produced in his account of one of the greatest and most important chess events of all time, the 1953 Zürich Candidates Tournament, in which 15 of the world's top players battled for the right to challenge the world champion, Mikhail Botvinnik. After two months and 210 games, many of which rank among the best ever played, Russian grandmaster Vassily Smyslov finally came out at the head of a star-studded field that included Sam Reshevsky, Paul Keres, David Bronstein, Tigran Petrosian, Efim Geller, Alexander Kotov, Mark Taimanov, Yuri Averbakh, Isaac Boleslavsky, Laszló Szabó, Svetozar Gligoric, Max Euwe, Gideon Ståhlberg, and Najdorf himself. This is the first English edition of this classic work, until now available only in its original Spanish. It includes all 210 games with Najdorf's full and extensive notes, plus all the original introductory material, biographical sketches of the players, round-by-round accounts of the action, closing summary, and a survey of the tournament's impact on opening theory. Additionally this edition has many more diagrams and photos, an introduction by Yuri Averbakh (one of the last surviving participants) and a foreword by Andy Soltis.

way which all chess players could understand, spiced with insight and colourful observation. Furthermore, his ideas and approach are as relevant to players today as they were when the books were first published. Alexander Kotov was one of the strongest players of the immediate post-war period, twice reaching the Candidates stage of the World Championship. He was also one of the leading Soviet trainers but is primarily remembered for his trilogy of classic works on chess coaching, of which *Think Like a Grandmaster*, one of the best-selling chess books of all time, was the first volume, and *Play Like a Grandmaster* the second.
