### **On the Death and Life of Languages**

A singular voice of reason in an era defined by bitter politics and economic uncertainty, Joseph E. Stiglitz has time and again diagnosed America's greatest economic challenges, from the Great Recession and its feeble recovery to the yawning gap between the rich and the poor. The Great Divide gathers his most provocative reflections to date on the subject of inequality. As Stiglitz ably argues, a healthy economy and a fairer democracy are within our grasp if we can put aside misguided interests and ideologies and abandon failed policies. Opening with the essay that gave the Occupy Movement its slogan, "We are the 99%," later essays in The Great Divide reveal equality of opportunity as a national myth, show that today's outsized inequality is a matter of choice, and explain reforms that would spur higher growth, more opportunity, and greater equality.

These days, people are accustomed to seeing chocolate labeled 54%, 61%, or 72% on grocery store shelves, but some bakers are still confused by what the labeling means and how to use it. In *Seriously Bitter Sweet*, Alice Medrich presents 150

meticulously tested, seriously delicious recipes—both savory and sweet—for a wide range of percentage chocolates. “Chocolate notes” appear alongside, so readers can further adapt any recipe using the percentage chocolate on hand. The book is a complete revision of Alice’s 2003 *Bittersweet*, which was named the 2004 IACP Cookbook of the Year. Since 2003, the world of chocolate has grown exponentially and terms like “bittersweet” and “semisweet” no longer suffice as chocolatiers everywhere are making chocolates that are labeled with specific percentages of cocoa. Alice clearly outlines the qualities of different chocolates as she explains how to cook with them. With tricks, techniques, and answers to every chocolate question, *Seriously Bitter Sweet* will appeal to a whole new audience of chocolate lovers

A former Hollywood insider trades the Hollywood Hills for Green Acres—and lives to tell about it in this hilarious, poignant treat of a memoir. As head of her celebrity sister’s production company, Gesine Bullock-Prado had a closet full of designer clothes and the ear of all the influential studio heads, but she was miserable. The only solace she found was in her secret hobby: baking. With every sugary, buttery confection to emerge from her oven, Gesine took one step away from her glittery, empty existence—and one step closer to her true destiny. Before long, she and her husband left the trappings of their Hollywood lifestyle behind, ending up in Vermont, where they started the gem known as Gesine Confectionary. And they never looked back. *Confections of a Closet Master Baker* follows Gesine's journey from sugar-obsessed child to miserable, awkward Hollywood insider to reluctant master baker. Chock-full of eccentric characters, beautifully detailed descriptions of her baking process, ceaselessly funny renditions of Hollywood nonsense, and recipes, the ingredients of her story will appeal to anyone who has ever considered leaving the life they know and completely starting over.

## **La Gran Fiesta de Los Olores**

Twenty-five languages die each year; at this pace, half the world's five thousand languages will disappear within the next century. In this timely book, Claude Hagège seeks to make clear the magnitude of the cultural loss represented by the crisis of language death. By focusing on the relationship of language to culture and the world of ideas, Hagège shows how languages are themselves crucial repositories of culture; the traditions, proverbs, and knowledge of our ancestors reside in the language we use. His wide-ranging examination covers all continents and language families to uncover not only how languages die, but also how they can be revitalized—for example in the remarkable case of Hebrew. In a striking metaphor, Hagège likens languages to bonfires of social behavior that leave behind sparks even after they die; from these sparks languages can be rekindled and made to live again.

## **Narcoland**

The narrator, twenty years old, faces the dangers, hardships, and uncertainty of the Spanish Civil War

## **My Life from Scratch**

The Life of Voices illustrates how human voices have special significance as the place where mind and body collaborate to produce everyday speech. Hannah Rockwell links Russian semiotician Mikhail Bakhtin's philosophy of dialogue with French phenomenologist Maurice Merleau-Ponty's views of the relation between bodies and speech expression to develop a unique theory of communication and bodies. By introducing readers to actual human subjects speaking about how their identities have been shaped and transformed through time, the author explores how discourses reproduce ideology and social power relations. Readers are challenged to consider complex influences between human subjects and institutionalized discourses through critical-interpretive analyses of transcribed speech. The Life of Voices has an interdisciplinary flair grounded in careful research. Scholars in communication, sociology, philosophy, psychology, linguistics, anthropology, gender studies and identity politics will find valuable insights, methods and examples in this work. It is essential reading for anyone who is interested in discourse studies and the body's relationship to speech or human identity formation.

A schoolteacher whose poetry catapulted her to early fame in her native Chile and an international diplomat whose boundary-defying sexuality still challenges scholars, Gabriela Mistral (1889–1957) is one of the most important and enigmatic figures in Latin American literature of the last century. The *Locas mujeres* poems collected here are among Mistral's most complex and compelling, exploring facets of the self in extremis—poems marked by the wound of blazing catastrophe and its aftermath of mourning. From disquieting humor to balladlike lyricism to folkloric wisdom, these pieces enact a tragic sense of life, depicting “madwomen” who are anything but mad. Strong and intensely human, Mistral's poetic women confront impossible situations to which no sane response exists. This groundbreaking collection presents poems from Mistral's final published volume as well as new editions of posthumous work, featuring the first English-language appearance of many essential poems. *Madwomen* promises to reveal a profound poet to a new generation of Anglophone readers while reacquainting Spanish readers with a stranger, more complicated “madwoman” than most have ever known.

## **An Iconography of Don Quixote**

In this edited volume, Theda Perdue, a nationally known expert on Indian history and southern women's history, offers a rich collection of biographical essays on Native American women. From Pocahontas, a Powhatan woman of the seventeenth century, to Ada Deer, the Menominee woman who headed the Bureau of Indian Affairs in the 1990s, the essays span four centuries. Each one recounts the experiences of women from vastly different cultural traditions--the hunting and gathering of Kumeyaay culture of Delfina Cuero, the pueblo society of San Ildefonso potter Maria Martinez, and the powerful matrilineal kinship system of Molly Brant's Mohawks. Contributors focus on the ways in which different women have fashioned lives that remain firmly rooted in their identity as Native women. Perdue's introductory essay ties together the themes running through the biographical sketches, including the cultural factors that have shaped the lives of Native women, particularly economic contributions, kinship, and belief, and the ways in which historical events, especially in United States Indian policy, have engendered change.

Statistics on the translation market consistently identify medicine as a major thematic area as far as volume or translation is concerned. Vicent Montalt and Maria Gonzalez Davis, both experienced translator trainers at Spanish universities, explain the basics of medical translation and ways of teaching and learning how to translate medical texts. *Medical Translation Step by Step* provides a pedagogical approach to medical translation based on learner and learning-centred teaching tasks, revolving around interaction: pair and group work to carry out the tasks and exercises to practice the points covered. These include work on declarative and operative knowledge of both translation and medical texts and favour an approach that takes into account both the process and product of translations. Starting from a broad communication framework, the book follows a top-down approach to medical translation: communication → genres → texts → terms and other units of specialized knowledge. It is positively focused in that it does not insist on error analysis, but rather on ways of writing good translations and empowering both students and teachers. The text can be used as a course book for students in face-to-face learning, but also in distance and mixed learning situations. It will also be useful for teachers as a resource book, or a core book to be complemented with other materials.

The premise of *Dimensions of Learning* an instructional framework founded on the best of what researchers and theorists know about learning is that five types, or dimensions, of thinking are essential to successful learning. These are (1) positive attitudes and perceptions about learning, (2) thinking involved in acquiring and integrating knowledge, (3) thinking involved in extending and refining knowledge, (4) thinking involved in using knowledge meaningfully, and (5) productive habits of mind. *Dimensions of Learning* is a valuable tool for reorganizing curriculum, instruction, and assessment. The authors discuss each of the five dimensions in detail and describe hundreds of teaching strategies that support them for example, how to help students construct meaning for declarative knowledge, internalize procedural knowledge, and see the relevance of what they are expected to learn. The authors provide many examples at the elementary and secondary classroom levels. Teachers of grades K-12 can use this information to improve teaching and learning in any content area.

"The world is ready for her blend of insane Angela Carter with the originality of Clarice Lispector."—Mariana Enriquez, LitHub Delicately crafted, intensely visual, deeply personal stories explore the nature of memory, family ties, and the difficult imbalances of love. "Both her debut story collection, *Forgotten Journey*, and her only novel, *The Promise*, are strikingly 20th-century texts, written in a high-modernist mode rarely found in contemporary fiction."—Lily Meyer, NPR "Silvina Ocampo is one of our best writers. Her stories have no equal in our literature."—Jorge Luis Borges "I don't know of another writer who better captures the magic inside everyday rituals, the forbidden or hidden face that our mirrors don't show us."—Italo Calvino "These two newly translated books could make her a rediscovery on par with Clarice Lispector. . . . there has never been another voice like hers."—John Freeman, Executive Editor, LitHub " . . . it is for the precise and terrible beauty of her sentences that this book should be read. A masterpiece of midcentury modernist literature triumphantly translated into our times."—Publishers Weekly \* Starred Review "Ocampo is beyond great—she is necessary."—Hernan Diaz, author of *In the Distance* and Associate Director of the Hispanic Institute at Columbia University "Like William Blake, Ocampo's first voice was that of a visual artist; in her writing she retains the will to unveil immaterial so that we might at least look at it if not touch it."—Helen Oyeyemi, author of *Gingerbread* "Ocampo is a legend of Argentinian literature, and this collection of her short stories brings some of her most recondite and mysterious works to the English-speaking world. . . . This collection is an ideal introduction to a beguiling body of work."—Publishers Weekly This collection of 28 short stories, first published in 1937 and now in English translation for the first time, introduced

readers to one of Argentina's most original and iconic authors. With this, her fiction debut, poet Silvina Ocampo initiated a personal, idiosyncratic exploration of the politics of memory, a theme to which she would return again and again over the course of her unconventional life and productive career. Praise for *Forgotten Journey*: "Ocampo is one of those rare writers who seems to write fiction almost offhandedly, but to still somehow do more in four or five pages than most writers do in twenty. Before you know it, the seemingly mundane has bared its surreal teeth and has you cornered."—Brian Evenson, author of *Song for the Unraveling of the World: Stories* "The Southern Cone queen of the short-story, Ocampo displays all her mastery in *Forgotten Journey*. After finishing the book, you only want more."—Gabriela Alemán, author of *Poso Wells* "Silvina Ocampo's fiction is wondrous, heart-piercing, and fiercely strange. Her fabulism is as charming as Borges's. Her restless sense of invention foregrounds the brilliant feminist work of writers like Clarice Lispector and Samanta Schweblin. It's thrilling to have work of this magnitude finally translated into English, head spinning and thrilling."—Alyson Hagy, author of *Scribe*

Camus tells the story of Jacques Cormery, a boy who lived a life much like his own. Camus summons up the sights, sounds and textures of a childhood circumscribed by poverty and a father's death yet redeemed by the austere beauty of Algeria and the boy's attachment to his nearly deaf-mute mother. Published thirty-five years after its discovery amid the wreckage of the car accident that killed Camus, *The First Man* is the brilliant consummation of the life and work of one of the 20th century's greatest novelists. Translated from the French by David Hapgood. "The *First Man* is perhaps the most honest book Camus ever wrote, and the most sensual Camus is writing at the depth of his powers. It is a work of genius."—*The New Yorker* "Fascinating *The First Man* helps put all of Camus's work into a clearer perspective and brings into relief what separates him from the more militant literary personalities of his day. Camus's voice has never been more personal."—*New York Times Book Review*

The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *Narcoland* has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, *Narcoland* takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names - not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels." From the Hardcover edition.

A workbook for using symbolic acts to heal the unconscious mind • Provides several hundred successful psychomagic solutions for a wide range of specific psychological, sexual, emotional, and physical problems, from stuttering, eczema, and fears to repressed rage and hereditary illnesses • Details how practitioners can develop unique psychomagic solutions for their patients • Explains how psychomagic bypasses the rational mind to work directly with the unconscious for quicker and more enduring change Traditional psychotherapy seeks to unburden the unconscious mind purely through talk and discussion. Psychomagic recognizes that it is difficult to reach the unconscious with rational thought. We should instead speak directly to the unconscious in its own language, that of dreams, poetry, and symbolic acts. By interacting on this deeper level, we can initiate quicker and more enduring change to resolve repressed childhood trauma, express buried emotions, and overcome deep-seated intimacy issues. Through the lens of psychomagic, illness can be seen as the physical dream of the unconscious, revealing unresolved issues, some passed from generation to generation. In this workbook of psychomagic spells, legendary filmmaker and creator of psychomagic Alejandro Jodorowsky provides several hundred successful psychomagic solutions for a wide range of psychological, sexual, emotional, and physical problems from stuttering, eczema, and fear of failure to repressed rage, hereditary illnesses, and domineering parents. Each solution takes the same elements associated with a negative emotional charge and recasts them into a series of theatrical symbolic actions that enable one to pay the psychological debts hindering their lives. Explaining the shamanic techniques at the foundation of psychomagic, the author offers methods for aspiring practitioners to develop solutions for their own unique patients. Jodorowsky explains how the surreal acts of psychomagic are intended to break apart the dysfunctional persona with whom the patient identifies in order to connect with a deeper, more authentic self. As he says in the book, "Health only finds itself in the authentic. There is no beauty without authenticity."
