By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.

Four sisters desperately seeking the blueprints to life—the modern-day retelling of Louisa May Alcott's Little Women like only Anna Todd (After, Imagines) could do. The Spring Girls—Meg, Jo, Beth, and Amy—are a force of nature on the New Orleans military base where they live. As different as they are, with their father on tour in Iraq and their mother hiding something, their fears are very much the same. Struggling to build lives they can be proud of and that will lift them out of their humble station in life, one year will determine all that their futures can become. The oldest, Meg, will be an officer's wife and enter military society like so many of the women she admires. If her passion—and her reputation—don't derail her. Beth, the workhorse of the family, is afraid to leave the house, is afraid she'll never figure out who she really is. Jo just wants out. Wishing she could skip to graduation, she dreams of a life in New York City and a career in journalism where

she can impact the world. Nothing can stop her—not even love. And Amy, the youngest, is watching all her sisters, learning from how they handle themselves. For better or worse. With plenty of sass, romance, and drama, *The Spring Girls* revisits Louisa May Alcott's classic *Little Women*, and brings its themes of love, war, class, adolescence, and family into the language of the twenty-first century.

The "canopy" in the title refers to the tree-lined streets of Rice's Regina neighbourhood but through his piercing specificity we learn more about "place", in the first decade of a new century. Rice's poems speak eloquently of our connection to the natural world, including the forests and landscapes we have created within our cities. With a voice that speaks unflinchingly of its sources *Life in the Canopy* is an exploration of the history and bones of a modest city in the center of the continent. With a profound authority and honesty Rice examines how we live with each other and how the place we live in shapes our lives. What is a city? Is it more than its public realm; the trees, parks and lake, railways and neighbourhoods? Is it more than the slow unrolling of human experience and event? Here are insightful, moving poems that take on difficult ethical and aesthetic questions.

Central to the aim of both this book is to rethink the concept of diaspora as it is used both academically and popularly at the beginning of the twenty-first century. It seeks to interrogate the notion of "diaspora" in an interdisciplinary way, and to explore the contradictions inherent in contemporary notions of place and identity. It presents explorations of both "traditional" diasporas, such as the Irish community in the United States and in Great Britain, as well as recently established diasporas being formed through new patterns of migration and resettlement. Traditional conceptions of diaspora focused on forced exile from the homeland and the adoption of conscious strategies of integration upon arrival in the new land. In the past, it was assumed that migrants would rapidly assimilate into their receiving societies. Alternatively, migrant workers were regarded by themselves and their host societies as "sojourners": they were not expected to integrate precisely because their alien presence was perceived to be temporary. Two poles then framed the traditional interpretation of migration and settlement. On the one hand, migrants assimilated rapidly; on the other, migrants were temporarily in the host-land. Yet, the realisation both that the melting pot is a myth and that migrant workers do not, in the main, go home, has forced an increasing acceptance of ethnic diversity. This, combined with ongoing improvements in travel and communications technologies, facilitates today's migrants in maintaining links with their home countries. The increased visibility of transnational ethnic communities and a resurgence in labour migration in the twenty-first century, have stimulated academic interest in both contemporary diasporas and in recovering the hidden narratives of earlier global migrations. The

renewed interest in the formation and narrative of diasporas is evident across a range of disciplines. Moreover, the meaningful exploration of any aspect of the humanities and social sciences requires an inter-disciplinary approach. Thus is the aim of this volume. Contributors approach the issue of diaspora from a variety of academic backgrounds: sociology, politics, history, literature and the visual arts. Concomitantly, data sources are diverse, with contributors drawing on official government publications, literary sources and personal memoirs, paintings and photographs, popular culture and personal interviews. This diversity of data sources indicates the multifarious approaches to the exploration diaspora. More importantly, it highlights the critical role played by unofficial, and often hidden, narratives in representing the experiences of those who find themselves, through a variety of political, social and economic factors, displaced. "This edited collection is a timely and precocious answer to a gap in the literature of identities and nationhood. It is a response to the new challenges and opportunities facing diasporic communities and, what is more, sets out key pointers for rethinking diaspora in the twenty-first century. At a time when western states are facing the need to re-evaluate traditional responses to ethnic difference arising from migration in the mid-twentieth century, this book posits an important perspective on the multiculturalism debate. Contrary to previous political and scholarly assumptions, this book shows that the children and grandchildren of immigrants can continue to have an ambiguous relationship to the state in which they were born in part because of the very nature of diaspora. The enduringly complex and sometimes volatile insider/outsider relationship is explored in these chapters through analysis of various narratives, in textual, spoken and visual forms. Analysis of such 'hidden narratives' reveals that the meaning and pertinence of membership of a diasporic community is defined as much by the context of the host country as by the discourses of the homeland. Across their various sources and case studies, the authors demonstrate the power of the juncture between dominant national discourses of the host state and the identity of its immigrants. Each author notes how different the diasporic community in question would be – not to mention the impact on its relationship to the host state and the homeland – if some of narratives hidden over time were to be reclaimed. As one author puts it, flux in elements of identity-formation in postmodern society represents a chance to 'engage in dialogue with our own diversity'. In constructing a coherent volume from such a diverse range of cases and disciplines, the editors successfully demonstrate the wide validity of their case for 'rethinking diasporas'. Nonetheless, the specific origins of this book – a conference held in a border town in Ireland – are, it may be argued, uniquely significant. For the current process of change in Irish national identity is inseparable from central features of diaspora-formation that the authors highlight, including economic pressures. Moreover, just as the town of Dundalk has historically felt the effects of its proximity to Northern Ireland, so the 'imagined borders' of diaspora explored in this book are shown to be all the more powerful for the fact that their delineation is contested." —Katy Hayward (Institute for British-Irish Studies, UCD)
