Green magick, or stewardship of the earth, begins right in our own backyards. When we cultivate an herb garden—even if it's just a few potted plants on a sunny windowsill—we are tending living, sentient beings who respond to our intention, our energy, and our tender loving care. The “fae” (faerie) essence residing at the heart of each nurtured plant manifests in its foliage, flowers, fragrance, and flavor, and its unique healing, nourishing, and restorative properties. In *The Faeries' Guide to Green Magick* from the Garden author and free-fae-spirit Jamie Wood offers fresh, faerie-centric profiles of thirty-three familiar medicinal and culinary herbs accompanied by recipes for natural healing remedies, earth-friendly beauty products, and tasty treats. Fantasy artist Lisa Steinke pairs each herb with a vibrant portrait of its

personality—its unique faerie signature—in her lyrical poetry and luminous paintings. With blissful blessings, magickal meditations, and zesty spells sprinkled throughout, *The Faeries Guide to Green Magick from the Garden* will help you get in touch with your own fae spirit and explore the earthly—and earthy—delights of your own garden. Umhlonyane, also known as *Artemisia afra*, is one of the oldest and best-documented indigenous medicines in South Africa. This bush, which grows wild throughout the sub-Saharan region, smells and tastes like “medicine,” thus easily making its way into people’s lives and becoming the choice of everyday healing for Xhosa healer-diviners and Rastafarian herbalists. This “natural” remedy has recently sparked curiosity as scientists search for new molecules against a tuberculosis pandemic while hoping to recognize indigenous medicine. Laplante follows umhlonyane on its trails and trials of becoming a biopharmaceutical — from the “open air” to controlled environments — learning from the plant and from the people who use it with hopes in healing.

"One of the leading therapeutic voices of the 1990's" (Deborah Mason, New Choices) Harville Hendrix has illuminated the paths to healthy, loving relationships in his New York Times bestsellers Getting the Love You Want and Keeping the Love You Find. Now, with his coauthor and wife, Helen Hunt, he at last brings us to a new understanding of the most profound love of all -- by helping parents nurture their own development as they encourage emotional wholeness in their children. How we parent our children reveals a great deal about how we were parented. When a particular parent-child interaction reveals how strongly we resemble our own mother or father, that insight can be extremely disheartening. But it can also be a catalyst for exploring unresolved issues that originated in our own childhood. Giving The Love That Heals offers a unique opportunity for personal transformation that will lead us to a conscious, and thus healthier, relationship with our children. Harville Hendrix and Helen Hunt help us explore: □ The Imago -- the fantasy partner that our unconscious mind constructs from those we loved as a child, a that has guided our search for a life partner □ Maximizer and Minimizer parents -- the defensive styles that internally shape what we say and how interact with our children □ A Parenting Process that all parents can use to end the "cycle of wounding" -- the handing-down of wounding we received as children -- as we parent our own children, regardless of their age □ The most effective way to nurture the stages of our child's growth while remaining mindful of how each stage

affects the child's relationships, both to us and to their world and their future □ Safety, Support, and Structure -- how to give children what they really need from us □ Modeling Adulthood -- recovering our innate wholeness to provide a model of adulthood for our children that will preserve their innate wholeness. In this profound, groundbreaking book, Harville Hendrix and Helen Hunt lead us through an extraordinary process of growth as we help our children to become healthy, responsible, and caring people.

Bits & Pieces has been a tool for understanding myself a more peaceful me. Writing this book has allowed me to open doors to discover more of who I am. I have had experiences, shifted ideas, sorted facts, discovered some of my beliefs and brought together some of my ideas about biology and spirituality. My hope is that others might find more self-understanding, more self-realization from sharing my story. We just might discover we are more alike than different. I was feeling so crazy, detached and miserable, with anxiety galore. About three years ago I was searching for a feel-better place. Among all the modalities I tried, I walked into a Center for Spiritual Living, thinking this might be an answer. At the time it was an unconscious choice, walking this spiritual path, but now its a conscious choice. I knew I didnt like feeling this crazy, and that was a motivator for me, an inertia buster, as I call it. I have had shifts of consciousness, observed different viewpoints and I have totally changed my ideas of how things work. A transformation, my evolution in consciousness. Because of my personal and our collective

consciousness, a spiritual path may not be what we think, because things aren't always as they seem. It's all in our views and our beliefs. The destination, unknown to me at the time, was to walk a spiritual path. My life journey consisted of experiences, that allowed me to reach my current understanding about life. I have realized that we are following our destiny all the time, creating life on the go. The best way is to become aware, we become empowered making it a better journey a better life for me and for you. And the journey continues

Common Roots turns the searchlight of historic Christianity on twenty-first-century evangelicalism. Originally published in 1978 as a clarion call to all evangelicals, this reprint presents Webber's thoughts to a new generation and includes a foreword by David Neff, the executive director of the center that pays tribute to Webber's work and supports the ancient-future faith movement. Webber's primary concern is to uncover the roots of evangelical Christianity. In so doing, he looks critically at beliefs and practices of contemporary evangelicalism that are out of harmony with historic Christianity. Webber argues that examining the era of the early church (A.D. 100-500), and particularly the second century, offers insights that evangelicals need to recover for worship, theology, mission, and spirituality. Chapters highlight a problem, investigate the belief and practice of the early church, and suggest an agenda for evangelical Christianity. Common Roots is required reading for anyone interested in the ancient-future faith movement, the writings and thought of Robert Webber, or evangelicalism's relationship to history.

## **Giving the Love that Heals**

Divine healing is commonly practiced today throughout Christendom and plays a significant part in the advance of Christianity in Latin America, Africa, and Asia. Such wide acceptance of the doctrine within Protestantism did not come without hesitation or controversy. The prevailing view saw suffering as a divine chastening designed for growth in personal holiness, and something to be faced with submission

and endurance. It was not until the nineteenth century that this understanding began to be seriously questioned. This book details those individuals and movements that proved radical enough in their theology and practice to play a part in overturning mainstream opinion on suffering. James Robinson opens up a treasury of largely unknown or forgotten material that extends our understanding of Victorian Christianity and the precursors to the Pentecostal revival that helped shape Christianity in the twentieth century.

This is an autobiographical collection of poems, prose and music about the author's tortuous path to adulthood as she recovers from severe PTSD. It chronicles her journey from victim to survivor and now, within sight of conqueror. (PTSD - Post Traumatic Stress Disorder - It is what remains and destroys normal life after overwhelming, unresolved trauma finally affects one's every step and breath. Every voice, every sound, odor, flash of light can trigger a fight or flight or panic reaction. Adrenaline rushes through the body and irrational fear can rule every hyper-vigilant moment of life. Nightmares replace sleep. An otherwise physically healthy person becomes totally disabled. And well-intentioned ignorant observers tell you to, "Just get over it.") The author was adopted from Korea as an infant with severe, undetected medical problems that affected her behavior. She was repeatedly traumatized in her first adoptive home. Then at the age of ten she was sent away, never welcome to return, and further traumatized in hospitals, group homes and foster care. Multiple suicide attempts led to more hospitalizations and abuse by a seemingly endless number of training-challenged people. This book weaves a background story of spiritual and relational growth. It chronicles her undying and persistent

prayer - from early childhood - that one day she would be part of a Christian family who would want her and love her and cherish her. A story about how that prayer was answered five years ago when she was adopted a second time and given the chance to grow and heal from the horrors of the past. It is a story of the ascendancy of her relationship with the God of Abraham, Isaac and Jacob and the gradual unfolding and awareness of who she is while she struggles to cast off deep emotional numbness and begin to feel and express love. One theme runs through these pages - the author's love of God and how it has brought her through the toughest of times and is still guiding her through her daily battles as she recovers from the trials of PTSD.

Authors and self-described healing ministers, Junior and Marilyn Ellis, believe many Christians are missing a fundamental command of the Gospels—as written in Matthew 10:8—to heal the sick. *Heal the Sick* explains this command found in the Bible to not only spread the gospel and pray for the sick, but to actually heal the sick. Junior and Marilyn provide readers with inspiring, firsthand accounts of the many miraculous healings they've experienced and witnessed over the years, crediting much of their knowledge about healing to the ministry of Charles and Frances Hunter.

For over a century, plant specialists worldwide have sought to transform healing plants in African countries into pharmaceuticals. And for equally as long, conflicts over these medicinal plants have endured, from stolen recipes and toxic tonics to unfulfilled promises of laboratory equipment and

usurped personal patents. In *Bitter Roots*, Abena Dove Osseo-Asare draws on publicly available records and extensive interviews with scientists and healers in Ghana, Madagascar, and South Africa to interpret how African scientists and healers, rural communities, and drug companies—including Pfizer, Bristol-Myers Squibb, and Unilever—have sought since the 1880s to develop drugs from Africa’s medicinal plants. Osseo-Asare recalls the efforts to transform six plants into pharmaceuticals: rosy periwinkle, Asiatic pennywort, grains of paradise, *Strophanthus*, *Cryptolepis*, and *Hoodia*. Through the stories of each plant, she shows that herbal medicine and pharmaceutical chemistry have simultaneous and overlapping histories that cross geographic boundaries. At the same time, Osseo-Asare sheds new light on how various interests have tried to manage the rights to these healing plants and probes the challenges associated with assigning ownership to plants and their biochemical components. A fascinating examination of the history of medicine in colonial and postcolonial Africa, *Bitter Roots* will be indispensable for scholars of Africa; historians interested in medicine, biochemistry, and society; and policy makers concerned with drug access and patent rights.

## **Mending the Past and Healing the Future with Soul Retrieval (Large Print 16pt)**

The spiritual subject of past lives and reincarnation is highly controversial. Most religions don't believe it, and science cannot prove it yet. This book is an “energy healing communication” with a DNA surprise, assisting you to integrate and understand the deep-seated truths about who you are and where you came from. The information explains what is happening to us, the earth, and the universe, and what one needs to do to adapt to the new energies on the planet at this time and for the years to come. These pages contain a profound message with the new energy—a message that I have delivered many times over my many lifetimes. Who am I? and Where do I come from? are questions that have been on the minds of everyone since the beginning. These thoughts are imprinted in our basic DNA. When I became aware of who I was in the previous lifetime just before this one (less than five months between lives)—my newfound identity propelled me into the search for the answers to the questions gnawing at my soul. Each answer provided new questions, leading me down the enlightened path to an encounter with the “Grand Divine Plan,” delivering a message of peace and preparation. We all have gifts and abilities unimaginable, ready for anyone who walks through the door. My search brought me into an awareness of knowing many of my past lives. It also revealed that my purpose of discovering was not about who I was, but that I would write about past lives and reincarnation at a time on the planet when this

Tony Tost's exhilarating poetry debut defies conventional description. Like a fantastic film, a feverish delirium, or a dream state, these prose poems use an experimental lexicon of imagery that goes beyond anything typically poetic. Tost's point of departure is the loss of the Other that makes the I: Agnes. And in a sort of coming-of-age soliloquy song, he meditates on a range of topics: fatherhood, childhood, identity, poetry. Together his poems express the unburdening of consciousness, a consciousness that contains the likes of Blake, Italo Calvino, Allen Grossman, and Frank Stanford, among others (including Tost himself). Surreal and surprising, Invisible Bride showcases the prose artistry of a new American talent.

Transcending the dualisms between tradition and science, culture and nature, belief and knowledge, Langwick tells a new story about the materiality of healing and postcolonial politics. This important work bridges postcolonial theory, science, public health, and anthropology.

## **The Old-Time Radio Trivia Book II**

This fascinating book by psychologist and medical anthropologist Alberto Villoldo, Ph.D., explains the practices for healing outside of ordinary time and space. It shows how to enter the timeless now to heal events that occurred in the past, and to correct the course of destiny. Dr. Villoldo discusses ways in which you can heal yourself and your loved ones by employing intention through practices used by shamans of the Americas - which, until now, have been inaccessible to most of the world. The shamans of old called this journeying. In this book, you'll discover that you have a four chambered heart in the same way you have a four chambered soul. In the first chamber, you store away the memory of a wound that derailed your destiny. In the second, you keep the limiting beliefs and soul contracts that you entered into at the time of your loss. In the third, you recover the grace and trust that will make you whole again; and in the fourth, you remember the calling and mission that you choose to unfold in this lifetime. While everyone has a future," Villoldo says, "only certain people have a destiny." This book shows you how to find and manifest yours.
