Johnson 25 HP outboard motor, 2 stroke, long shaft. It has a manual and electric start. Manual start is functional and electric start fully functional too. Compression is 100 pounds on both cylinders with my compression gauge. Electronic is in good condition too, good sparks on the 2 spark plugs. Motor is listed for parts but possibly can be repaired if you are familiar with outboard mechanics.

Year of Manufacture : This is important in any repair, for obvious reasons. Prior to 1979, Johnson used the last 2 digits of the year in the model number. As a model 10R78M, would indicate a 10 hp, Rope starter, 1978 year of manufacture and M model revision. Since this does not have an L between the hp designation and the year, that would mean it is a short shaft version.
