### Oswaal CBSE Sample Question Papers Class 12 Physics (For March 2020 Exam)

Set in Aligarh in the early 1960s, after the dust of Partition has ostensibly settled, Topi Shukla is an intriguing story of two friends-one Hindu and the other Muslim. Through the characters of people like Topi and Iffan, the novel looks at the lives of ordinary people trying to survive in a society that insists on a brutal conformity of behaviour. It is about individuals whose spirits are paralysed because they cannot conform, and about history's inability to teach mankind any worthwhile lessons. Language plays an important part in this narrative, operating almost as a character in its own right. Topi, as a Hindi bull in the Urdu china shop, invokes the historical stand-off between the two languages. The novel also explores the culture and psyche of Uttar Pradesh with its very Muslim Aligarh, its very Hindu Benares, and their exotic confluence in Lucknow. Although it is set in the India of the 1960s, the communal tensions and issues portrayed in the novel make it just as relevant to the troubled times we face today. This fascinating novel will be of tremendous interest to the general reader, as well as to students of literature in translation, partition fiction, and social history. The novel's engagement with intertextuality and metafiction will add to its interest for readers keen on literary theory.

History of Modern India presents an authoritative overview of the history of what was known as British India. The text is largely based on the author's research on nationalism and colonialism in India and also draws from the works of eminent historians of the period. Challenging and revising colonial and nationalist interpretations of history, this book moves away from a largely political narrative to a social, economic and religious history of modern India. It explains how conditions in India during the eighteenth century helped the British East India Company establish its rule in India. It also gives us important insights into the primary aim of colonial rule which was the economic exploitation of India through trade and investment. The topics are arranged thematically in order to showcase the various forces that went into the making of independent India. However, in the entire arrangement of themes, the chronology of the period is enmeshed innovatively with the various forces that evolved both as a cause and effect of British imperialist rule of the subcontinent. The book also provides a detailed account of the nationalist movement and introduces us to the contributions of different individuals who were behind the nationalist movement. A comprehensive textbook for students of history and interested readers, History of Modern India is essential reading for a broad based understanding of the making of modern India.

Thye Mudrarakshasa, unlike the majority of sanskrit plays, is purely a political drama. It has for its theme, besides elevation of Chandragupta to the throne of

Magadha, winning over of Rakashsa, the hostile minister of the Nanda dynasty to the side of Chandragupta and adoption of measures to strengthen the rule by Chankaya, the renowned politician of his times. In the words of H.H.Wilson; It is a historical or political drama, and represents a curious state of public morals, in which fraud and assassination are the simple means by which inconvenient obligations are open enemies removed. It is not however, that such acts are not held in themselves as crimes, or that their perpetrators, if instigated by vulgar vice or ferocity, are not condemned as culprits; it is only when the commission of the crime proposes a political end that it is represented as venial, and is compatible with an amiable. It includes the commentary of Dhundiaja, English translation, critical and explanatory notes, Introduction and various readings .
