Advance praise for Carrots and Sticks Don't Work: "Paul Marciano provides a wealth of prescriptive advice that absolutely makes sense. You can actually open the book to any chapter and gain ideas for immediate implementation." -- Beverly Kaye, coauthor of Love 'Em or Lose 'Em "This book should be in the hands of anyone who has to get work done through other people! It's an invaluable tool for any manager at any level." -- John L. Rice, Vice President Human Resources, Tyco International "Carrots and Sticks Don't Work provides a commonsense approach to employee engagement. Dr. Marciano provides great real-world insights, data, and practical examples to truly bring the RESPECT model to life." -- Renee Selman, President, Catalina Health Resources "The RESPECT model is one of the most dynamic, engaging, and thought-provoking employee engagement tools that I

have seen. Dr. Marciano's work will help you provide meaningful long-term benefits for your employees, for your organization, and for yourself." -- Andy Brantley, President and CEO, College and University Professional Association for Human Resources "This book provides clear advice and instruction on how to engage your team members and inspire them to a higher level of productivity, work satisfaction, and enjoyment. I am already utilizing its techniques and finding immediate positive changes." -- Robert Roth, Director, Accounting and Reporting, Colgate Palmolive Company The title says it all: Carrots and Sticks Don't Work. Reward and recognition programs can be costly and inefficient, and they primarily reward employees who are already highly engaged and productive performers. Worse still, these programs actually decrease employee motivation because they can make individual recognition, rather than the overall success of the team, the goal. Yet many businesses turn to these measures first—unaware of a better alternative. So, when it comes to changing your organizational culture, carrots and sticks don't work! What does work is Dr. Paul Marciano's acclaimed RESPECT model, which gives you specific, low-cost, turnkey solutions and action plans-- based on seven key drivers of employee engagement that are proven and supported by decades of research and practice—that will empower you to assess, troubleshoot, and resolve engagement issues in the workplace: Recognition and acknowledgment of employees' contributions Empowerment via tools, resources, and information that set employees up to succeed Supportive feedback through ongoing performance coaching and mentoring Partnering to encourage and foster collaborative working relationships Expectations that set clear, challenging, and attainable performance goals Consideration that lets employees know that they are cared about Trust in your employees' abilities, skills, and judgment Carrots and Sticks Don't Work delivers the same proven resources and techniques that have enabled trainers, executives, managers, and owners at operations ranging from branches of the United States government to Fortune 500 corporations to twenty-person outfits to realize demonstrable gains in employee productivity and job satisfaction. When you give a little RESPECT you get a more effective organization, with reduced turnover and absenteeism and employees at all levels who are engaged, focused, and committed to succeed as a team. In short, you get maximum ROI from your organization's most powerful resource: its people!

This book gives an up to date picture of a rapidly changing field, enhances

understanding of continuing professional development and its potential to bring about change and development to improve the quality of teaching and learning in schools.

Narrative of the Late Expedition to the Dead Sea

Standards-based education (SBE) has been the dominant educational reform movement since the early 1980s, reinforced by federal and state accountability systems. This book examines the efforts of educational leaders in implementing SBE to improve student achievement in a variety of demographic contexts but with common challenges.

Better Than Carrots or Sticks

From bestselling author Jon Gordon and rising star Damon West comes *The Coffee Bean*: an illustrated fable that teaches readers how to transform their environment, overcome challenges, and create positive change. Life is often difficult. It can be harsh, stressful, and feel like a pot of boiling hot water. The environments we find ourselves in can change, weaken, or harden us, and test who we truly are. We can be like the carrot that weakens in the pot or like the egg that hardens. Or, we can be like the coffee bean and discover the power inside us to transform our environment. *The Coffee Bean* is an inspiring tale that follows Abe, a young man filled with stress and fear as he faces challenges and pressure at school and home. One day after class, his teacher shares with him the life-changing lesson of the coffee bean, and this powerful message changes the way he thinks, acts, and sees the world. Abe discovers that instead of letting his environment change him for the worse, he can transform any environment he is in for the better. Equipped with this transformational truth, Abe embarks on an inspirational journey to live his life like the coffee bean. Wherever his life takes him, from school, to the military, to the business world, Abe demonstrates how this simple lesson can unleash the unstoppable power within you. A delightful, quick read, *The Coffee Bean* is purposely written and designed for readers of all ages so that everyone can benefit from this transformational lesson. This is a book and message that, when read and shared, has the power to change your life and the world around you. You just have to decide: are you a carrot, egg, or coffee bean?

In times of constant change, adaptive leadership is critical. This Harvard Business Review collection brings together the seminal ideas on how to adapt and thrive in challenging environments, from leading thinkers on the topic—most notably Ronald A. Heifetz of the Harvard Kennedy School and Cambridge Leadership Associates. The Heifetz Collection includes two classic books: *Leadership on the Line*, by Ron Heifetz and Marty Linsky, and *The Practice of Adaptive Leadership*, by Heifetz, Linsky, and Alexander Grashow. Also included is the popular Harvard Business Review article, “Leadership in a (Permanent) Crisis,” written by all three authors. Available together for the first time, this collection includes full digital editions of each work. Adaptive leadership is a practical framework for dealing with today’s mix of urgency, high stakes, and uncertainty. It has been used by individuals, organizations, businesses, and governments worldwide. In a world of challenging environments, adaptive leadership serves as a guide to distinguishing the essential from the expendable, beginning the meaningful process of adaptation, and changing the status quo. Ronald A. Heifetz is a cofounder of the international leadership and consulting practice Cambridge Leadership Associates (CLA) and the founding director of the Center for Public Leadership at the Harvard Kennedy School. He is renowned worldwide for his innovative work on the practice and teaching of leadership. Marty Linsky is a cofounder of CLA and has taught at the Kennedy School for more than twenty-five years. Alexander Grashow is a Senior Advisor to CLA, having previously held the position of CEO.

Gather any group of actresses, from students to stars, and someone will inevitably ask, “Where are all the great roles for women?” The roles are right here, in this magnificently diverse collection of plays—full-lengths, one-acts, and monologues—with mainly female casts, which represent the answer to any actress’s prayer. The editors of the groundbreaking anthology *Plays for Actresses* have once again gathered an abundance of strong female roles in a selection of works by award-winning authors and cutting-edge newer voices, from Wendy Wasserstein and Christopher Durang to Claudia Shear, Eve Ensler, and Margaret Edson. The characters who populate these seven full-length plays, four ten-minute plays, and eleven monologues include a vivid cross-section of female experience: girl gang members, Southern debutantes, pilots, teachers, traffic reporters, and rebel teenagers. From a hilarious take on *Medea* to a taboo-breaking excerpt from *The Vagina Monologues* to a moving scene from the Pulitzer Prize-winning *Wit*, the plays in *Leading Women* are complex, funny, tragic, and always original—and a boon for talented actresses everywhere. Secrets of Connecting Leadership and Learning with Humor

Recent advances in Web 2.0 technology enable new leadership processes and guidelines that can create great value for organizations. In this important new

book—the first title in the new Brookings series on Innovations in Leadership—management expert Jackson Nickerson proposes a combination of processes and guidelines utilizing Web 2.0 technology, which he refers to as Web 2.1, that will not only lead and direct change in an organization but actually accelerate it. He calls this set of processes and guidelines “ChangeCasting,” and it should be an important part of any organization’s leadership toolkit. *Leading Change in a Web 2.1 World* provides fresh insights into why people and organizations are so difficult to engage in change. It explains how web-based video communications, when used in accordance with ChangeCasting principles, can be a keyway to building trust and creating understanding in an organization, thereby unlocking and accelerating organizational change. Nickerson introduces us to two Fortune 1000 firms facing dire economic and competitive circumstances. Both CEOs attempted extensive organizational change using web-based video communications, but one used ChangeCasting while the other did not—Nickerson details how ChangeCasting produced positive financial results for the former. He also discusses how ChangeCasting principles were used so successfully by the Barack Obama presidential campaign in 2008. The insights presented here will be invaluable to business executives, public officials, students of management and organizations, and anyone who needs to take organizational change from the drawing board to successful implementation and replication.

Chekhov's Leading Lady

The influential New York Times bestselling authors—the “apostles of appreciation” Chester Elton and Adrian Gostick—provide managers and executives with easy ways to add more gratitude to the everyday work environment to help bolster moral, efficiency, and profitability. Workers want and need to know their work is appreciated. Showing gratitude to employees is the easiest, fastest, most inexpensive way to boost performance. New research shows that gratitude boosts employee engagement, reduces turnover, and leads team members to express more gratitude to one another—strengthening team bonds. Studies have also shown that gratitude is beneficial for those expressing it and is one of the most powerful variables in predicting a person’s overall well-being—above money, health, and optimism. The WD-40 Company knows this firsthand. When the leadership gave thousands of managers training in expressing gratitude to their employees, the company saw record increases in revenue. Despite these benefits, few executives effectively utilize this simple tool. In fact, new research reveals “people are less likely to express gratitude at work than anyplace else.” What accounts for the staggering chasm between awareness of gratitude’s benefits and the failure of so many leaders to do it—or do it well? Adrian Gostick and Chester Elton call this the gratitude gap. In this invaluable guide, they identify the widespread and pernicious myths about managing others that cause leaders to withhold thanks. Gostick and Elton also introduce eight simple ways managers can show employees they are valued. They supplement their insights and advice with stories of how many of today’s most successful leaders—such as Alan Mulally of Ford and Hubert Joly of Best Buy—successfully incorporated gratitude into their leadership styles. Showing gratitude isn’t just about being nice, it’s about being smart—really smart—and it’s a skill that everyone can easily learn.

The Carrot Principle

In response to the tragedy of the Ludlow Massacre, John D. Rockefeller Jr. introduced one of the nation’s first employee representation plans (ERPs) to the Colorado Fuel and Iron Company in 1915. With the advice of William Mackenzie King, who would go on to become prime minister of Canada, the plan—which came to be known as the Rockefeller Plan—was in use until 1942 and became the model for ERPs all over the world. In *Representation and Rebellion* Jonathan Rees uses a variety of primary sources—including records recently discovered at the company’s former headquarters in Pueblo, Colorado—to tell the story of the Rockefeller Plan and those who lived under it, as well as to detail its various successes and failures. Taken as a whole, the history of the Rockefeller Plan is not the story of ceaseless oppression and stifled militancy that its critics might imagine, but it is also not the story of the creation of a paternalist panacea for labor unrest that Rockefeller hoped it would be. Addressing key issues of how this early twentieth-century experiment fared from 1915 to 1942, Rees argues that the Rockefeller Plan was a limited but temporarily effective alternative to independent unionism in the wake of the Ludlow Massacre. The book will appeal to business and labor historians, political scientists, and sociologists, as well as those studying labor and industrial relations.

Have you ever wondered how a sheepdog, police horse, leopard or octopus is

trained? Carrots and sticks brings behavioural science to life, explaining animal training techniques in the language of learning theory. The first sections on instinct and intelligence, rewards and punishers are richly infused with examples from current training practice, and establish the principles that are explored later in the unique case studies. Drawing on interviews with leading animal trainers, Carrots and sticks offers 50 case studies that explore the step-by-step training of a wide variety of companion, working and exotic animals. It reviews the preparation of animals prior to training and common pitfalls encountered. The book's accessible style will challenge your preconceptions and simplify your approach to all animal-training challenges. This exciting text will prove invaluable to anyone with an interest, amateur or professional, in the general basics of animal training, as well as to students of psychology, veterinary medicine, agriculture and animal science.

Vegetable Production and Practices

Carrots and Sticks

The guide to approaching leadership in a rapidly changing world. When change requires you to challenge people's familiar reality, it can be difficult, dangerous work. Whatever the context--whether in the private or the public sector--many will feel threatened as you push through major changes. But as a leader, you need to find a way to make it work. Ron Heifetz first defined this problem with his distinctive theory of adaptive leadership in *Leadership Without Easy Answers*. In a second book, *Leadership on the Line*, Heifetz and coauthor Marty Linsky highlighted the individual and organizational dangers of leading through deep change in business, politics, and community life. Now, Heifetz, Linsky, and coauthor Alexander Grashow are taking the next step: *The Practice of Adaptive Leadership* is a hands-on, practical guide containing stories, tools, diagrams, cases, and worksheets to help you develop your skills as an adaptive leader, able to take people outside their comfort zones and assess and address the toughest challenges. The authors have decades of experience helping people and organizations create cultures of adaptive leadership. In today's rapidly changing world, *The Practice of Adaptive Leadership* can be your handbook to meeting the demands of leadership in the midst of complexity.

Quality and Preservation of Vegetables

The Coffee Bean

Successful vegetable production in a modern competitive market requires an understanding of many more factors than the biology of crops and the production techniques involved. This major new textbook brings the science and practice of

vegetable production right up to date by addressing modern culture techniques and the recent challenges of consumer demand facing producers today. It introduces vegetable production from the perspective of producing high quality produce that satisfies the needs of the modern consumer. Beginning with the basics of how vegetables are grown using high and low input methods, including organic and sustainable production techniques, the book goes on to introduce and discuss many topics covered less comprehensively in older texts, including Good Agricultural Practices to improve quality, reduce biological contamination and secure food safety; water management; cropping systems; plasticulture; protected culture and mineral nutrition. Vegetable Production and Practices also introduces the use of molecular biology for genetic improvement of crops. Issues specific to individual vegetable crops are addressed by family, including their diseases, harvesting, quality attributes and other issues of increasing importance to consumers, including the role of vegetables in human health. Professor Gregory E. Welbaum has a long history of teaching successful courses in horticulture at Virginia Tech and other universities in the US and worldwide. Vegetable Production Practices has been specifically designed to accompany courses in vegetable crop production, so is ideally suited to inspire students in crop and horticultural sciences, as well as provide a useful reference for experienced practitioners.

Heroic Leadership

Could you lose weight if you put \$20,000 at risk? Would you finally set up your billing software if it meant that your favorite charity would earn a new contribution? If you've ever tried to meet a goal and came up short, the problem may not have been that the goal was too difficult or that you lacked the discipline to succeed. From giving up cigarettes to increasing your productivity at work, you may simply have neglected to give yourself the proper incentives. In *Carrot and Sticks*, Ian Ayres, the New York Times bestselling author of *Super Crunchers*, applies the lessons learned from behavioral economics—the fascinating new science of rewards and punishments—to introduce readers to the concept of “commitment contracts”: an easy but high-powered strategy for setting and achieving goals already in use by successful companies and individuals across America. As co-founder of the website stickK.com (where people have entered into their own “commitment contracts” and collectively put more than \$3 million on the line), Ayres has developed contracts—including the one he honored with himself to lose more than twenty pounds in one year—that have already helped many find the best way to help themselves at work or home. Now he reveals the strategies that can give you the impetus to meet your personal and professional goals, including how to • motivate your employees • create a monthly budget • set and meet deadlines • improve your diet • learn a foreign language • finish a report or project you've been putting off • clear your desk Ayres shares engaging, often astounding, real-life stories that show the carrot-and-stick principle in action, from the compulsive sneezer who needed a “stick” (the potential loss of \$50 per week to a charity he didn't like) to those who need a carrot with their stick (the New York Times columnist who quit smoking by pledging a friend \$5,000 per smoke . . . if she would do the same for him). You'll learn why you might want to hire a “professional nagger” whom you'll do anything to avoid—no, your spouse won't do!—and how you can “hand-tie” your future self to accomplish what you want done now. You'll find out how a New Zealand ad exec successfully “sold his

smoking addiction,” and why Zappos offered new employees \$2,000 to quit cigarettes. As fascinating as it is practical, as much about human behavior as about how to change it, Carrots and Sticks is sure to be one of the most talked-about books of the year.

Classroom management is traditionally a matter of encouraging good behavior and discouraging bad by doling out rewards and punishments. But studies show that when educators empower students to address and correct misbehavior among themselves, positive results are longer lasting and more wide reaching. In *Better Than Carrots or Sticks*, longtime educators and best-selling authors Dominique Smith, Douglas Fisher, and Nancy Frey provide a practical blueprint for creating a cooperative and respectful classroom climate in which students and teachers work through behavioral issues together. After a comprehensive overview of the roots of the restorative practices movement in schools, the authors explain how to * Establish procedures and expectations for student behavior that encourage the development of positive interpersonal skills; * Develop a nonconfrontational rapport with even the most challenging students; and * Implement conflict resolution strategies that prioritize relationship building and mutual understanding over finger-pointing and retribution. Rewards and punishments may help to maintain order in the short term, but they're at best superficially effective and at worst counterproductive. This book will prepare teachers at all levels to ensure that their classrooms are welcoming, enriching, and constructive environments built on collective respect and focused on student achievement.

Agricultural Outlook

Cities are often seen as helpless victims in a global flow of events and many view growing inequality in cities as inevitable. This engaging book rejects this gloomy prognosis and argues that imaginative place-based leadership can enable citizens to shape the urban future in accordance with progressive values – advancing social justice, promoting care for the environment and bolstering community empowerment. This international and comparative book, written by an experienced author, shows how inspirational civic leaders are making a major difference in cities across the world. The analysis provides practical lessons for local leaders and a significant contribution to thinking on public service innovation for anyone who wants to change urban society for the better.

Newly updated to include information for the UK, *The Carrot Principle* illustrates how ordinary organizations have made themselves extraordinary through the use

of strategic employee recognition. The authors show how great organizations and great managers succeed through living the Carrot Principle. Featuring case studies of effective recognition in some of the world's most successful organizations, such as DHL, Avis, Pepsi, etc and demonstrating how recognition has led to improved employee commitment and bottom line results in these companies, the book also shows how a Carrot Culture is not created by the CEO, senior leadership team or HR department, but manager by manager. The book provides examples of leaders - from around the globe - who lead through the Carrot Principle: providing plentiful how-to's for managers wishing to get started or hoping to enhance their recognition abilities. Overall, there has never been a book in the recognition or motivation space that has had this type of quantitative or case study support.

Managing with Carrots

Here is a researched-based book in which author Peter Jonas explores how humor can enhance both leadership performance and improve the learning environment. Jonas attempts to use research and brain-based concepts to build a theoretical foundation and then provides practical components for connecting leadership, learning, and humor. Individuals need to understand the theoretical nature of leadership before they can translate the concepts into practice on a daily basis. The same is true for humor. The main theme of the book is that the proper use of humor will not only increase learning comprehension, but it can be used as an important tool for leaders to enhance their effectiveness. Throughout the book, Jonas has interjected humorous jokes, stories, puns, exercises, activities, expressions, etc. in order to show specific examples to provide the reader with material that can be used in leadership situations and the classroom. The materials in the book can be learned, saved for later, or copied for immediate use. Moreover, each chapter is fun to read and contains practical points and examples of how to integrate humor into daily leadership activities and lesson plans. For teachers and leaders, or anyone in the field of education.
