The Old Man and The Sea

The Pit and the Pendulum" is a short story written by Edgar Allan Poe and first published in 1842. The story is about the torments endured by a prisoner of the Spanish Inquisition, though Poe skews historical facts. The narrator of the story is deemed guilty for an unnamed crime and put into a completely dark room. He passes out while trying to determine the size of the room. When he wakes up, he realizes there is a

large, deep pit in the middle of the room. He loses consciousness again and awakens strapped on his back, unable to move more than his head. He soon realizes there is a large blade-like pendulum hanging above him, slowly getting closer to cutting through his chest. He finds a way to escape but the walls of his prison start to move and close in on him, pushing him closer and closer to falling into the pit. The story is especially effective at inspiring fear in the reader because of its heavy focus on the senses, such as sound, emphasizing its reality, unlike many of Poe's stories which are aided by the supernatural. The traditional elements established in popular horror tales at the time are followed but critical reception has been mixed.

The Merchant of Venice has been performed more often than any other comedy by Shakespeare. Molly Mahood pays special attention to the expectations of the play's first audience, and to our modern experience of seeing and hearing the play. In a substantial new addition to the Introduction, Charles Edelman focuses on the play's sexual politics and recent scholarship devoted to the position of Jews in Shakespeare's time. He surveys the international scope and diversity of theatrical interpretations of The Merchant in the 1980s and 1990s and their different ways of tackling the troubling figure of Shylock.

Master prose stylist Julian Barnes presents a collection of stories whose characters are growing old and facing the end of their lives -- some with bitterness, some with resignation and others with raging defiance. "Life is just a premature reaction to death," was what Viv's husband used to say. Once her lover and friend, he is now Viv's semi-helpless charge, who is daily sinking ever deeper into dementia. In "Appetite," Viv has found a way to reach her husband: by reading aloud snippets of recipe books until he calls out indelible -- and sometimes unfortunate -- scenes locked away in his brain. In "The Things You Know," two elderly friends enjoy their monthly breakfast meetings that neither would ever think of missing. Of course, all they really have in common is a fondness for flat suede shoes and a propensity for thinking spiteful, unspoken thoughts about one another's dead husbands. "The Fruit Cage" is narrated by a middle-aged man whose seemingly orderly upbringing is harrowingly undone when he discovers that his parents' old age is not necessarily a time of serenity but actually an age of aroused, perhaps violent, passions. In these stories, Julian Barnes displays the erudition, wit and uncanny insight into the human mind that mark him as one of today's great writers, one whose intellect and humour never obscure a genuine affection for his characters.
