The Wisdom of Crowds

This new strand of Maths Made Easy focuses on areas of Maths that children tend to have difficulty with: subtraction, division, fractions and decimals. Each book contains gold stars and a certificate signed by Carol Vorderman to promote a sense of achievement.

Complete Curriculum, Grade 2

Talking math with your child is simple and even entertaining with this better approach to shapes! Written by a celebrated math educator, this innovative inquiry encourages critical thinking and sparks memorable mathematical conversations. Children and their parents answer the same question about each set of four shapes: "Which one doesn't belong?" There's no one right answer--the important thing is to have a reason why. Kids might describe the shapes as squished, smooshed, dented, or even goofy. But when they justify their thinking, they're talking math! Winner of the Mathical Book Prize for books that inspire children to see math all around them. "This is one shape book that will both challenge readers' thinking and encourage them to think outside the box."--Kirkus Reviews, STARRED review

Mastering Essential Math Skills

Solve the riddles to find the runaway gingerbread men in this funny and magical cookie hunt! Marshall knows one thing for sure, despite what all the stories say: Gingerbread men cannot run. Cookies are for eating, and he can't wait to eat his after spending all morning baking them with his class. But when it's time to take the gingerbread men out of the oven . . . they're gone! Now, to find those rogue cookies, Marshall and his class have to solve a series of rhyming clues. And Marshall just might have to rethink his stance on magic. *Catch That Cookie!* is an imaginative mystery, deliciously illustrated by Caldecott Medal winner David Small. It's sure to inspire a new classroom tradition . . . and maybe even a few new believers!

Catch That Cookie!

Improve test scores, master "real world" math, and stop relying on your calculator! Math Made Easy is a fast and simple approach to mental math and quicker calculation. With sections for both mathophobes and mathletes alike, this unique book will transform the way you do math. This guide is filled with practical tricks that will help you: - Calculate tips mentally with ease - Perform complex math problems entirely in your head - Transform seemingly difficult math into simple

equations Do you consider yourself bad at math? There is no such thing as a bad student - only a bad teacher! It's time to give yourself another chance by learning a new way to look at math. We start with addition and subtraction to rebuild your approach from the ground up. Or are you a math champ? Learn new tricks to do problems even faster and perform calculations in your head that will leave everyone impressed. Are you planning to apply to college in the US? The redesigned SAT will include a no-calculator math section - it's going to be more important than ever to be able to do calculations quickly and effectively on your own. Applying to grad school? Good math skills are a must for the GRE and GMAT. Plus, Math Made Easy is filled with practice questions to make sure you've got each technique down. As Socrates said, "Wisdom begins with wonder." Aren't you curious to see what you are capable of?

Math Word Problems Made Easy

Simple math concepts are introduced to ages five-six in this workbook developed by educational advisors to conform to the standards of United States educational curricula. Each workbook is designed to cover the entire range of primary math learning, and contains a completion certificate, gold-star stickers, and a progress chart. Full-color illustrations. Consumable.

Math Made Easy

Common Core Math Made Easy is a must-have resource for teachers and parents who want to help students succeed in the Common Core exam. This complete workbook contains over 250 questions that cover every Common Core standard that will be tested. Each review section is designed to help students master one particular math concept at a time to reinforce their learning. The answers are conveniently located at the end of each section, so that users can quickly check for students' understanding. As a credentialed teacher, the author has provided step-by-step explanations and helpful strategies on how to solve the problems. It is like having a math teacher right there by your side to guide you. This workbook is the most comprehensive and effective test prep material available.

All the Math You'll Ever Need

A sharp mind, like a healthy body, is subject to the same rule of nature: Use it or lose it. Need a calculator just to work out a 15 percent service charge? Not exactly sure how to get the calculator to give you the figure you need? Turn to this revised and updated edition of *All the Math You'll Ever Need*, the friendliest, funniest, and easiest workout program around. In no time, you'll have total command of all the powerful mathematical tools needed to make numbers work for you. In dollars-and-

cents, bottom-line world, where numbers influence everything, none of us can afford to let our math skills atrophy. This step-by-step personal math trainer: Refreshes practical math skills for your personal and professional needs, with examples based on everyday situations. Offers straightforward techniques for working with decimals and fractions. Demonstrates simple ways to figure discounts, calculate mortgage interest rates, and work out time, rate, and distance problems. Contains no complex formulas and no unnecessary technical terms.

Which One Doesn't Belong?

Read Along or Enhanced eBook: A clever introduction to place value. Sir Cumference and Lady Di planned a surprise birthday party for King Arthur, but they didn't expect so many guests to show up. How many lunches will they need? And with more guests arriving by the minute, what about dinner? Sir Cumference and Lady Di have to figure out a quick way to count the guests to bring order to the party. Sir Cumference and his friends have been entertaining young and old alike for years as they introduce important math concepts with clarity and humor.

With vibrant, colorful pages full of games and puzzles, 2nd Grade Jumbo Math Success Workbook will help your child catch up, keep up, and get ahead—and best of all, to have lots of fun doing it! *Includes the full text of 2nd Grade Basic Math, 2nd Grade Math Games & Puzzles, and 2nd Grade Math in Action

Math Made Easy

Specifically designed for fourth grade students, this home study workbook, carefully developed by educational advisors, conforms to U.S. educational curricula. Covers the entire range of primary math learning with emphasis on times

tables for division, and includes a completion certificate, gold-star stickers, and a progress chart. Supports National Council of Teachers of Mathematics Standards.

Marvel Heroes: Math Made Easy: Grade 2: Ages 7-8 Workbook [With Stickers]

In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.

The Daily 5

Help build students' problem-solving skills with super strategies for solving any math word problem. Each strategy is clearly explained and comes with practice problems that utilize the specific strategy. Students can then hone their newly

acquired skill with 100 word problems on grade-specific math concepts. Great for meeting the NCTM standards!

Word Problems, Grade 2

The 180 Days of Problem Solving for Grade 2 offers daily problem-solving practice geared towards developing the critical thinking skills needed to approach complex problems. This teacher-friendly resource provides thematic units that connect to a standards-based skill that second grade students are expected to know to advance to the next level. Lesson plans offer guidance and support for every day of the week, outlining strategies and activities that dig deeper than routine word problems. Each week students will use visual representations and analyze different types of word problems (including non-routine, multi-step, higher thinking problems). This comprehensive resource builds critical thinking skills and connects to national and state standards.

Number Talks

Differentiate math instruction using Guided Math Made Easy for grade 1. This 96-page book includes large-group lessons that are paired with smaller, individualized mini-lessons at three levels of difficulty. The lessons support NCTM

standards, which allows for easy integration into an existing math curriculum. The book includes reproducibles and aligns with state, national, and Canadian provincial standards.

Math Made Easy Expanded Edition Grade 2

Use a practical approach to teaching mathematics that integrates proven literacy strategies for effective instruction. This professional resource will help to maximize the impact of instruction through the use of whole-class instruction, small-group instruction, and Math Workshop. Incorporate ideas for using ongoing assessment to guide your instruction and increase student learning, and use hands-on, problem-solving experiences with small groups to encourage mathematical communication and discussion. Guided Math supports the College and Career Readiness and other state standards.

Sir Cumference and All the King's Tens

Practice makes perfect with Turn to Learn Multiplication, an engaging and innovative book that teaches a hands-on approach to multiplication and times tables. Young students can test themselves by spinning the wheel built right into the book's cover and watching the times tables appear. On each page in the book, readers

will then find great tips and tricks to help memorize times tables from 1 to 12. Turn to Learn Multiplication uses various techniques such as number grids, times tables charts, tips and memory clues, and number lines to help reinforce the times tables until young readers have them memorized. With its spinning wheel, lift-the-flaps, and colorful spreads, Turn to Learn Multiplication creates a whole new spin on times table learning.

Common Core Math Made Easy, Grade 4

Make sure your child gets off to the right start in math! Help your child become more comfortable and confident with numbers Discover which mathematical concepts first-and second-graders should learn Enjoy helping your child master key math skills You can teach your child the basic skills that will lay the foundations for future success in math and science. Based on standard math curriculums, this book covers all the math that your first- and second-graders should be learning and gives you dozens of proven techniques for teaching these crucial skills. Steve Slavin, an educator with a special gift for math instruction, shows parents how to teach the fundamentals--counting, addition, subtraction, fractions, simple word problems, even the beginnings of multiplication and division--plus "new math" principles such as grouping. Simple activities build these skills in a fun way, step-by-step. All concerned parents, including home-schoolers, will applaud this confidence-building guide.

Math Made Easy

Dora, Diego, and all their friends help young learners master mathematics, in these workbooks that include parental notes and answers, along with stickers and a progress chart. Full color. Consumable.

Multiplication Facts Made Easy 3-4

Describes the philosophy of the Daily 5 teaching structure and includes a collection of literacy tasks for students to complete daily.
