A Country Boy from Sumter County, South Carolina

font face="Verdana"font size="2" On the Edge of a Dream is a story about my grandparents' journey by train from Sabinas Hidalgo, Nuevo Leon Mexico, to Nuevo Laredo, Tamaulipas Mexico, Laredo, Texas, and on to South Texas to claim a home in America. They courageously faced the unknown seeking to make a better life for their families here in the United States believing they had greater opportunities to realize their dreams. Dad was seven years old at that time. As he grew older, he faced greater challenges in achieving these opportunities. It was my dad's dream of writing a book about his family's struggles to make their American dream a reality that inspired me to write this book. After arriving in South Texas, my grandparents first had to find work in order to make a living for their families. They weren't afraid of work. They were unskilled workers, so they found work in farms or ranches working with cattle, horses, or plowing in the fields. When cotton-harvesting season came, they weren't afraid of picking cotton though it was hard, backbreaking work, to say nothing of carrying large cotton sacks on their shoulders. My paternal grandfather died on January 1, 1921, when my dad, the oldest child, was almost thirteen-years-old, leaving Grandma a widow with five children.

Read Free My Favourite Teacher New South Books

Grandma faced this challenge by working as a housekeeper for the farm owners. Dad found what hard work was at the early age of thirteen years. When he was not working in the fields in the hot and humid Texas climate, he worked in the dairy farms. When I was two years old, my maternal grandparents returned to Mexico when they found that Mexico had land grants for those wishing to return home. Quite possibly they decided they wanted to own their piece of land to farm it in order to make more money. My mom's two oldest brothers stayed in America and raised their families in South Texas. Hard work was not the only thing my parents faced. They also had to learn a new language if they wanted to understand their employers. Learning the English language was hard. Surrounded by Spanish speaking family member, it was easier to speak Spanish to them instead of speaking English. Eventually, Dad learned enough English to make himself understood. Another challenge my grandparents faced was a lack of education which would have made life easier and maybe more profitable. They only had the minimal education they could get in Mexico, but they taught their children to read and write in Spanish. Though my parents were very young when they journeyed to America, they lived in farms far from schools. Since they had no transportation to get to school, they could not attend even if they wanted to do so. They saw the importance of an education early in their lives because they were unable to get that education themselves. In 1930, my parents met and married. Two years later, I was born in Gregory, Texas, while my brother was born two years after me, and my younger sister seven years after my brother. My

parents never lost sight of what an education could do. By the time we were old enough to begin school, they did everything possible to get us there. Also by then, transportation was available. Busses took us to and from school. Mom and Dad made sure we had what we needed to be successful students. Getting our college degrees after we graduated was an almost impossible dream. Dad did not make much, so when I graduated, I could only afford to go to business school. It was much later when I earned my Bachelor of Arts and Master's of Arts degrees. My younger sister and my brother both received Bachelor of Science degrees. My dad's dream of writing to tell of his family's journey to America inspired me to write this book. It took boldness to travel to a new country, strength to make a living by performing backbreaking work, and perseverance from us, his chil

South Africa is My Best World

The journey of becoming a teacher is a complicated, emotional, and often intricate endeavor. Much has been written about pre-service teachers but rarely do we understand the journey through their own voices. Join nine pre-service teachers as they share their experiences, challenges, and victories through a series of powerful narratives. Committed to making the process more transparent for those embarking on a similar journey, the chapter authors share honest, personal, and heartfelt viewpoints about what it means to become a teacher. The nine pre-service teachers in this volume all participated in a yearlong student teaching in the renowned Elementary Holmes Master of Arts in Teaching program at Louisiana State University. Putting to practice critical perspectives about what it means to teach in the 21st century, these authors expose their vulnerabilities with a range of literary approaches including metaphor, reflective journaling, and storytelling. The volume is framed by teacher educator insights about the contexts and complexities of teaching. A must read for anyone preparing to student teach, or for those already student teaching, *Student Teaching: A Journey in Narratives* deals directly with the realities of learning to teach. Sometimes poetic, sometimes painful, these compelling personal narratives of novice teachers provide a poignant view of the

Dr. Rick Taylor had delivered many babies as a doctor but he learned that being a parent was much more important and special than being a doctor when he watched the birth of his son. This very ordinary experience began an extraordinary journey shared by father and son. "Lessons of Life" meanders through the lives of Dr. Taylor and his son while exposing the unlikely situations where surprising lessons are learned. The value of the lessons is not in their uniqueness as much as in the pedestrian nature of their occurrence. Father and son each survive first loves, near death experiences and personal quests to find a place in life. The comparison of these experiences and the lessons learned provide readers with moments of joy as well as sadness. It is the familiarity of these events that remind readers to recognize their own lessons and appreciate their teachers.

Midland Schools

In this work, the author grapples with the nuanced concept of democratic citizenship education and how this affects the lives of young children. The book is based on a case study of nine-year-old children of an inner-city school in South Africa and their life

experiences of a democratic South Africa as child citizens.

On the Edge of a Dream: A South Texas Story

Colleen Lutzak, a talented young Ukrainian musician from northern Alberta, struggles to maintain a sense of identity as her awareness of the world expands. Growing up in the small northern Alberta community of St. Paul, Colleen Lutzak has both positives and negatives to deal with – she has an abundance of musical talent, excellent grades in school, and a close extended family. On the other hand, she has a melodramatic mother, a nemesis named Carla Senko who somehow manages to screw up every triumph Colleen closes in on, and a cousin named Kalyna. Kalyna is Colleen’s alter ego – they have the same name in different languages – and Kalyna is a mystery. A grown woman who once had a family, Kalyna talks and acts like a child. She loves Colleen’s music more than anything in the world, and brings out every protective instinct her young cousin has. Colleen vigorously practices her youthful idealism as well as her talent. This mindset means life’s lessons will be particularly hard on her. Her beloved music teacher, who shared and supported her pride in her Ukrainian heritage, suddenly dies. Colleen fails miserably in her first attempt at university in Edmonton. She is so determined to get away from all the “disappointments” of home that she registers to attend the United World College campus in Swaziland for a year. Obviously, Swaziland is an utterly foreign

Read Free My Favourite Teacher New South Books

experience. Colleen meets young women from truly dire political and social circumstances all over the world. She realizes how sheltered her life in Canada has been. Her sense of identity and self-worth is challenged by her foreign surroundings, her homesickness, the suicide of her closest friend. And the sudden death of Kalyna. This final tragedy forces Colleen to face adult decisions about the purpose to which she should devote her life and her talent.

Sharing the stories of educators working in a diverse range of international contexts, *Being a Teacher* uses personal narratives to explore effective teaching and learning in global settings. Demonstrating how personal values influence pedagogical practice, and asking how practice can be improved, authors reflect on their experiences not just as teachers, but also as learners, to offer essential guidance for all prospective educational professionals. The book

Read Free My Favourite Teacher New South Books

focuses on teacher narratives as a vehicle for consideration of teacher professionalism, and as a way of understanding issues which are important to teachers in different contexts. By sharing and analysing these narratives, the book discusses the increasing complexity of teaching as a profession, and considers the commonality within the narratives. Each chapter includes graphic representations of analysis and encourages its reader to reflect critically on central questions, thereby constructing their own narrative. Being a Teacher provides an in-depth and engaging insight into the education system at a global level, making it an essential read for anyone embarking on a teaching career within the international education market.

Diabetes education is a process, the key to which is establishing a therapeutic relationship with the individual. The overall goal of diabetes education is to enhance the individual's health capability, including their ability to solve problems and apply the learning to self-care. Thus, diabetes education is an interactive process of teaching and learning where information is co-generated. This innovative and thought-provoking new book explores the 'how' of diabetes education, rather than the 'what' and the 'why'. Diabetes Education: Art, Science and Evidence helps healthcare practitioners teach diabetes effectively from diagnosis onwards and ensure people living with diabetes receive individualised support and information. It

Camp David

The Whiteness of Child Labor Reform in the New South

Schooling the New South deftly combines social and political history, gender studies, and African American history into a story of educational reform. James Leloudis recreates North Carolina's classrooms as they existed at the turn of the century and explores the wide-ranging social and psychological implications of the transition from old-fashioned common schools to modern graded schools. He argues that this critical change in methods of instruction both reflected and guided the transformation of the American South. According to Leloudis, architects of the New South embraced the public school as an institution capable

Read Free My Favourite Teacher New South Books

of remodeling their world according to the principles of free labor and market exchange. By altering habits of learning, they hoped to instill in students a vision of life that valued individual ambition and enterprise above the familiar relations of family, church, and community. Their efforts eventually created both a social and a pedagogical revolution, says Leloudis. Public schools became what they are today--the primary institution responsible for the socialization of children and therefore the principal battleground for society's conflicts over race, class, and gender. My Favourite Teacher

Building Bridges in Teacher Education

I wrote this book to share my life story. I was prompted into writing this book because of so many people that heard me as a guest speaker, me telling different people real-life stories about myself, my stories about my twenty-two months in the army, and my coworkers and many of my former students telling me that I should be putting my stories and experiences in a book. So I decided to write it. For those of you that know me well and those that don't know as well, you will find this book to be very interesting, downright hilarious, very entertaining, and thought-provoking. I believe you will have so much fun reading it while you laugh.

From the Mind of Hursh Saha

An irreverent, yet powerful exploration of race relations by the New York Times-bestselling author of *The Chris Farley Show* Frank, funny, and incisive,

Read Free My Favourite Teacher New South Books

Some of My Best Friends Are Black offers a profoundly honest portrait of race in America. In a book that is part reportage, part history, part social commentary, Tanner Colby explores why the civil rights movement ultimately produced such little true integration in schools, neighborhoods, offices, and churches—the very places where social change needed to unfold. Weaving together the personal, intimate stories of everyday people—black and white—Colby reveals the strange, sordid history of what was supposed to be the end of Jim Crow, but turned out to be more of the same with no name. He shows us how far we have come in our journey to leave mistrust and anger behind—and how far all of us have left to go.

Connecting Children

I HATED YOU BECAUSE YOU WERE MY FAVORITE TEACHER is a compilation of anecdotes & memories that Donna Wilberding collected during the first 15 years of her 19-year teaching career. "The kids encouraged me to do a book. Writing the book was easy. I had 10 scrapbooks & 600 quotes from kids." It took a one year leave of absence, writing eight hours a day, to complete the volume. As stated in the Foreword, "I HATED YOU permits the reader to step inside the author's shoes & walk through the labyrinth of the classroom, experiencing the highs & lows that teachers experience on a daily & sometimes hourly basis." Wilberding revisits & discusses the happy &

Read Free My Favourite Teacher New South Books

sad, positive & negative relationships she has had with her students. What makes "I HATED YOU" UNIQUE is that she describes the MANY, MANY times, that she has LEARNED MORE from her students than they did from her!! One reviewer writes, "From its intriguing title to its uplifting conclusion, I HATED YOU is a moving story of one teacher's journey toward personal-fulfillment & professional growth & the UNFORGETTABLE STUDENTS who made the journey possible." Votes & Proceedings

Focusing on Alabama's textile industry, this study looks at the complex motivations behind the "whites-only" route taken by the Progressive reform movement in the South. In the early 1900s, northern mill owners seeking cheaper labor and fewer regulations found the South's doors wide open. Children then comprised over 22 percent of the

Read Free My Favourite Teacher New South Books

southern textile labor force, compared to 6 percent in New England. Shelley Sallee explains how northern and southern Progressives, who formed a transregional alliance to nudge the South toward minimal child welfare standards, had to mold their strategies around the racial and societal preoccupations of a crucial ally--white middle-class southerners. Southern whites of the "better sort" often regarded white mill workers as something of a race unto themselves--degenerate and just above blacks in station. To enlist white middle-class support, says Sallee, reformers had to address concerns about social chaos fueled by northern interference, the empowerment of "white trash," or the alliance of poor whites and blacks. The answer was to couch reform in terms of white racial uplift--and to persuade the white middle class that to demean white children through factory work was to undermine "whiteness" generally. The lingering effect of this "whites-only" strategy was to reinforce the idea of whiteness as essential to American identity and the politics of reform. Sallee's work is a compelling contribution to, and the only book-length treatment of, the study of child labor reform, racism, and political compromise in the Progressive-era South.

Proceedings of the Parliament of South Australia

Connecting Children focuses on children's understandings of care and their views of different family lives. It portrays the lives of children aged 11-12 and shows how families connect children in

Read Free My Favourite Teacher New South Books

different ways both in the household but also in their wider kinship networks. The children studied reflect upon family life and especially upon situations where their own family lives change dramatically, such as when parents divorce or are unable to care for them. This book will be of interest to those working in education, social work, child care, counselling, social policy and childhood studies.
