Mobile Web 2.0

From basic concepts to research grade material, *Mobile Web 2.0: Developing and Delivering Services to Mobile Devices* provides complete and up-to-date coverage of the range of technical topics related to Mobile Web 2.0. It brings together the work of 51 pioneering experts from around the world who identify the major challenges in Mobile Web 2.0 applications and provide authoritative insight into many of their own innovations and advances in the field. To help you address contemporary challenges, the text details a conceptual framework that provides modeling facilities for context-aware, multi-channel Web applications. It compares various platforms for developing mobile services—from the developer and user perspectives—and explains how to use high-level modeling constructs to drive the application

development process through automatic code generation. Proposes an expanded model of mobile application context Explores mobile social software as an Information and Communications Technology (ICT) Discusses the effect of context on mobile usability Through empirical study, the book tests a number of hypotheses on the use of software implementation technology and location context in mobile applications. It introduces Reusable End-User Customization (REUC)—a technique that allows users to adapt the layout of Web pages and automatically reapplies those preferences on subsequent visits. It also investigates the need for non-visual feedback with long system response times, particularly when downloading Web pages to mobile devices.

The user's manual for the rocket combustor interactive design (ROCCID) computer program is presented. The program, written in Fortran 77, provides a standardized methodology using state of the art codes and procedures for the analysis of a liquid rocket engine combustor's steady state combustion performance and combustion stability. The ROCCID is currently capable of analyzing mixed element injector patterns containing impinging like doublet or unlike triplet, showerhead, shear coaxial, and swirl coaxial elements as long as only one element type exists in each injector core, baffle, or

barrier zone. Real propellant properties of oxygen, hydrogen, methane, propane, and RP-1 are included in ROCCID. The properties of other propellants can easily be added. The analysis model in ROCCID can account for the influence of acoustic cavities, helmholtz resonators, and radial thrust chamber baffles on combustion stability. ROCCID also contains the logic to interactively create a combustor design which meets input performance and stability goals. A preliminary design results from the application of historical correlations to the input design requirements. The steady state performance and combustion stability of this design is evaluated using the analysis models, and ROCCID guides the user as to the design changes required to satisfy the user's performance and stability goals, including the design of stability aids. Output from ROCCID includes a formatted input file for the standardized JANNAF engine performance prediction procedure. Muss, J. A. and Nguyen, T. V. and Johnson, C. W. Unspecified Center

In her third book in the Awaken Your Authentic Leadership series, Authentic Leadership Conversations for Meaningful Connection, Tana Heminsley, CEO and Founder of Authentic Leadership Global(TM), continues to share groundbreaking insights, and practical tools for leading and living as an authentic and emotionally and socially intelligent leader. With the global pandemic changing the world forever, the need for leaders who are moral and

ethical role models is greater than ever. These are authentic leaders. In this book, Tana provides a number of different elements including: 18 Action Worksheets to stimulate new ways of thinking, to work through in detail, and to engage in learning conversations in order to: build important well-known business skills such as facilitating a performance conversation or the process of delegation; build newly recognized and emerging skills such as managing the inner critic or navigating transition and change; build skills that support being authentic, including saying no and setting boundaries, living from the three centers of intelligence, and having authentic conversations; transform your leadership by taking it to the next level by discovering new ways to lead when the old rules no longer resonate with you including skills such as how to cultivate joy at work. Contextual introductions for each topic - why it was written and who it was meant for. Instructions for how to use this book as an individual leader and as part of a team, in order to unleash the potential of every employee.

The Atkinson family is back with a sequel to Golden Ribbons covering post World War One to 1923. Todd and Rachael, now in their late twenties, see their future within a society of changed social norms. Todd, in his role of healer to the injured and broken soldiers, becomes infatuated with a beautiful nurse/ ambulance driver but, after a few false starts, Todd and his bride make a home together in a dilapidated mansion with a resident ghost. Rachael is given the task of promoting further education for women - formerly in male-dominated occupations during the war. She is relentlessly pursued by a mysterious and obsessive scholar, and is plagued with the dilemma that must take into account their differing positions regarding the inclusive/ exclusive aspect of married life. Joey leaves the three-way farming operation to wander without destination. Along the way he is detained in a minute community within the Cariboo-Chilcotin area of British Columbia's interior where he finds an opportunity that could lead to a dream of

establishing a riding stable. A dashing young Bush Pilot arrives in the B.C. interior community, making himself unwelcome, but later, in an act of compassion, he embarks on a journey of self discovery involving misadventures and coincidences that eventually finds him in the middle of a circle.

Time to Change

On a warm August evening in a Cape Cod community, the popular Starlight Pavilion plays host to a brutal murder. When twenty-one year old Tammy Wilson is found strangled under the steps of the pavilion, Detective Mike Farnham is called in to solve the crime. The night of the murder, beautiful and tenacious Killette Bennett, a college English professor and murder mystery aficionado is at The Starlight on a first date with charismatic Lance Sterling. Just before the murder occurs, Killette receives a warning note written with lipstick on the bathroom mirror from Tammy regarding Lance. BE CAREFUL. When Killette questions Lance, he denies being involved with Tammy. Later, Killette talks to the handsome rugged detective and discovers Lance's real name is Scott Ryder, and he has a record of abusing women. However Scott is not the only suspect with motive and opportunity. There are three others, and they all harbor secrets. There is Carl Sharp, enigmatic bartender at The Starlight, Dr. Charles Rayburn,

Tammy's middle-aged boss, and Monica Wilson, Tammy's arrogant, verbally abusive mother. As Detective Farnham and Kilette become romantically involved and work to solve the murder, Kilette finds herself in imminent danger. "This murder mystery is a fun read with an intriguing plot and interesting characters." Peggy D. Ball, copy editor for SpaceCoast Living Magazine

The Cain Saga, Vol. 3

Tuck's work is an attempt at the rehabilitation of Karl Radek, a sidekick of Lenin's who fell victim to Stalin's vengeance in the 1930s. Though not a full-scale academic biography, it is satisfying and fast-moving without being superficial, and offers an intellectually intriguing thesis. . . . Where others have seen betrayal, Tuck sees Radek the mischief maker. Although Radek implicated many guiltless people and testified to lies, Tuck argues Radek's performance was a master stroke of mischief making, turning the tables against Vyshinsky, showing up and revealing the truth about the show trials themselves. Choice

The enigmatic Karl Radek, a victim of the Moscow purge trials, was by turns a Pole, a Jew, a West European social democrat, a Soviet official, a Trotskyist, and a Stalinist. A born iconoclast, he began his career by attacking established political orders and ended it by defending one of the world's most blatant tyrannies. Tuck opens this analytical biography with an account of Radek's atypical early adolescence and then traces the evolution of Radek's political thought from Polish nationalism to patriotic and later international socialism. Radek's six years in Germany were marked by his journalistic success and subsequent disgrace as well as his expulsion from the German and Polish social-democratic parties. His fortunes turned when he joined Lenin in Switzerland, and thereafter he established himself as one of the leading rightists in the Communist movement. His romantic liaison with Larissa Reissner, his allegiance to Trotsky and later to Stalin, and his downfall following the publication of his satire on Stalin are treated in subsequent chapters. The work then

presents an account of Radek's trial and banishment to the Gulag and an analysis of Radek's ultimate fate. It concludes with an overall assessment that challenges Arthur Koestler's evaluation of the man.

"In the United States, income inequality-the income gap between rich and poor-has widened steadily for the past fifty years. This gap affects women, immigrants, and racial and ethnic minorities most, and it can create problems that ripple through many aspects of our lives for generations to come. Why does income inequality exist, how does it affect our society, and how can we address it? The wide-ranging viewpoints in this volume explore these questions and provide important explanation and context for this complicated issue"--

Spurred by recent governmental transitions from dictatorships to democratic institutions, this highly original work argues that negotiated civil society-

oriented transitions have an affinity for a distinctive method of constitution making— one that accomplishes the radical change of institutions through legal continuity. Arato presents a compelling argument that this is the preferred method for rapidly establishing viable democratic institutions, and he contrasts the negotiated model with radical revolutionary change. This exceptionally engaging work will be of interest to students and scholars of comparative politics, constitutional law, and East European studies.
