The sniper is a battlefield threat second to none. Mastering the art of marksmanship is critical but is only part of what makes a Navy SEAL sniper. Snipers must be able to apply the craft in an urban environment or alone on a hostile mountain top with equal effectiveness. Today's sniper must not just leverage technological advances but also have the foreknowledge to select the best rifle and gear for the mission. Increasingly, he must have the mental toughness to adapt to a constantly changing environment, gather intelligence, and truly act as a force multiplier. In this comprehensive look through the eyes of former Navy SEAL sniper instructor Brandon Webb and fellow Navy SEAL snipers Chris Kyle and Glen Doherty, the authors reveal not just the fundamentals of marksmanship but also the science of shooting, stalking, and camouflage and how technological advances have changed the training and increased the effectiveness of the modern sniper. Including maritime, helicopter, and urban sniper operations, this updated edition also goes into detail on the latest research, development, testing, and evaluation of weapons and optics. From the basics like compensating for wind and bullet drop, to camouflage and placing yourself or your team in the best position to take a photo or pull a trigger, Webb and Doherty cover the critical elements that comprise the twenty-first century sniper.

Still Looking Up

Steve Martin has been an international star for over thirty years. Here, for the first time, he looks back to the beginning of his career and charmingly evokes the young man he once was. Born in Texas but raised in California, Steve was seduced early by the comedy shows that played on the radio when the family travelled back and forth to visit relatives. When Disneyland opened just a couple of miles away from home, an enchanted Steve was given his first chance to learn magic and entertain an audience. He describes how he noted the reaction to each joke in a ledger - 'big laugh' or 'quiet' - and assiduously studied the acts of colleagues, stealing jokes when needed. With superb detail, Steve recreates the world of small, dark clubs and the fear and exhilaration of standing in the spotlight. While a philosophy student at UCLA, he worked hard at local clubs honing his comedy and slowly attracting a following until he was picked up to write for TV. From here on, Steve Martin became an acclaimed comedian, packing out venues nationwide. One night, however, he noticed empty seats and realised he had 'reached the top of the rollercoaster'. BORN STANDING UP is a funny and riveting chronicle of how Steve Martin became the comedy genius we now know and is also a fascinating portrait of an era.

The Autobiography of Methuselah

Mick Foley is a nice man, a family man who loves amusement parks and eating ice cream in bed. So how to explain those Japanese death matches in rings with explosives, golden thumbtacks and barbed wire instead of rope? The second-degree burn tissue? And the missing ear that was ripped off during a bout-in which he kept fighting? Here is an intimate glimpse into Mick Foley's mind, his history, his work and what some might call his pathology. Now with a bonus chapter summarizing the past 15 months-from his experience as a bestselling author through his parting thoughts before his final match. A tale of blood, sweat, tears and more blood-all in his own words-straight from the twisted genius behind Cactus Jack, Dude Love, and Mankind.

David Kenyon Webster's memoir is a clear-eyed, emotionally charged chronicle of youth, camaraderie, and the chaos of war. Relying on his own letters home and recollections he penned just after his discharge, Webster gives a first hand account of life in E Company, 101st Airborne Division, crafting a memoir that resonates with the immediacy of a gripping novel. From the beaches of Normandy to the blood-dimmed battlefields of Holland, here are acts of courage and cowardice, moments of irritating boredom punctuated by moments of sheer terror, and pitched urban warfare. Offering a remarkable snapshot of what it was like to enter Germany in the last days of World War II, Webster presents a vivid, varied cast of young paratroopers from all walks of life, and unforgettable glimpses of enemy soldiers and hapless civilians caught up in the melee. Parachute Infantry is at once harsh and moving, boisterous and tragic, and stands today as an unsurpassed chronicle of war—how men fight it, survive it, and remember it. This instant New York Times bestseller—"a jaw-dropping, fast-paced account" (New York Post) recounts SEAL Team Operator Robert O'Neill's incredible four-hundred-mission career, including the attempts to rescue "Lone Survivor" Marcus Luttrell and abducted-by-Somali-pirates Captain Richard Phillips, and which culminated in the death of the world's most wanted terrorist—Osama bin Laden. In *The Operator*, Robert O'Neill describes his idyllic childhood in Butte, Montana; his impulsive decision to join the SEALs; the arduous evaluation and training process; and the even tougher gauntlet he had to run to join the SEALs' most elite unit. After officially becoming a SEAL, O'Neill would spend more than a decade in the most intense counterterror effort in US history. For extended periods, not a night passed without him and his small team recording multiple enemy kills—and though he was lucky enough to survive, several of the SEALs he'd trained with and fought beside never made it home. "Impossible to put down...*The Operator* is unique, surprising, a kind of counternarrative, and certainly the other half of the story of one of the world's most famous military operations...In the larger sense, this book is about...how to be human while in the very same moment dealing with death, destruction, combat" (Doug Stanton, New York Times bestselling author). O'Neill describes the nonstop action of his deployments in Iraq and Afghanistan, evokes the black humor of years-long combat, brings to vivid life the lethal efficiency of the military's most selective units, and reveals details of the most celebrated terrorist takedown in history. This is "a riveting, unvarnished, and wholly unforgettable portrait of America's most storied commandos at war" (Joby Warrick).

Because of the many roles he has played in the country, Looking Back is much more than Dr. Sama Banya's life story. In a lively and entertaining manner, he takes the reader through the chequered history of Sierra Leone from the colonial era to the present providing, along the way, accounts of the origin of Kailahun, his home town, the Kissy/Mende chiefs from whom he descends, life in Bo School where he had the early part of his secondary school education, as well as insights into the workings of the civil service in his day. A physician by profession, Dr. Sama BANYha is best known as a politician. He served as a cabinet minister under two presidents, and his deep knowledge of political machinations in Sierra Leone as seen from both sides of the parliamentary divide, makes this autobiography an altogether fascinating read.

Thomas Jefferson is known by most as the third president of the United States, but his legacy extends much further than that. Born to a wealthy plantation owner, Thomas was the third of nine children. When he was just fourteen, his father died, leaving him half his land, slaves, and wealth. These circumstances allowed Thomas to attend college at the age of sixteen, and later on, to study under one of the top lawyers of the time. His political history is one of great triumph and struggle. Jefferson first practiced law and served in the government as a member of the House of Burgesses, later serving as a member of the Continental Congress, where he wrote the Declaration of Independence. Jefferson left Congress in 1776 and returned to Virginia to serve in the legislature, and then as Governor of Virginia for two years. He took a brief sabbatical until 1784, when he replaced Benjamin Franklin as minister to France. In 1790, Jefferson became Secretary of State under George Washington and later served as Vice President to John Adams. Jefferson won the presidency in a heated election in 1800. His first term resulted in some notable achievements, including the purchase of the Louisiana Territory in 1803, and then his support of the Lewis and Clark expedition. In his second term, he faced difficulties in the domestic and foreign fronts and was most remembered for his effort to remain neutral in the midst of the conflict between France and Britain. In 1809, President Jefferson was succeeded by James Madison. While he lived out his final seventeen years at his Virginia plantation, Monticello, Jefferson sold his collection of books to the government. Not only did he lay the foundation for the Library of Congress, but he was also the founder of the University of Virginia. Thomas Jefferson passed away on July 4,

Allen Carr's Easy Way to Stop Smoking

The inspiration for a major motion picture by Mark Wahlberg: A Navy SEAL's firsthand account of American heroism during a secret military operation in Afghanistan. On a clear night in late June 2005, four U.S. Navy SEALs left their base in northern Afghanistan for the mountainous Pakistani border. Their mission was to capture or kill a notorious al Qaeda leader known to be ensconced in a Taliban stronghold surrounded by a small but heavily armed force. Less than twenty-four hours later, only one of those Navy SEALs remained alive. This is the story of fire team leader Marcus Luttrell, the sole survivor of Operation Redwing, and the desperate battle in the mountains that led, ultimately, to the largest loss of life in Navy SEAL history. But it is also, more than anything, the story of his teammates, who fought ferociously beside him until he was the last one left-blasted unconscious by a rocket grenade, blown over a cliff, but still armed and still breathing. Over the next four days, badly injured and presumed dead, Luttrell fought off six al Qaeda assassins who were sent to finish him, then crawled for seven miles through the mountains before he was taken in by a Pashtun tribe, who risked everything to protect him from the encircling Taliban killers. A six-foot-five-inch Texan, Leading Petty Officer Luttrell takes us, blow by blow, through the brutal training of America's warrior elite and the relentless rites of passage required by the Navy SEALs. He transports us to a monstrous battle fought in the desolate peaks of Afghanistan, where the beleaguered American team plummeted headlong a thousand feet down a mountain as they fought back through flying shale and rocks. In this rich, moving chronicle of courage, honor, and patriotism, Marcus Luttrell delivers one of the most powerful narratives ever written about modern warfare -- and a tribute to his teammates, who made the ultimate sacrifice for their country.

Documenting Danny Marianino's days as a metalhead from childhood into adulthood, Don't Ever Punch a Rockstar somehow rationalizes playing in a few hardcore/punk bands, touring, fighting, drinking, internet bullying, celebrity encounters, satanic curses, house fires, harassment and collecting an immeasurable amount of hate mail from some of the most illiterate human beings the world has to offer. Though Oprah will never add this into her book club, it's still a good lesson in accepting the negative with a laugh and gaining a new sense of temperance and humility. At the very least I will entertain you with a campy memoir and a detailed eye-opening account of the chaos that followed the infamous event that VH1 called one of the Most Shocking Moments in Rock and Roll. This is by no means the same old autobiography that you have read before. Don't Ever Punch a Rockstar combine elements of Get in The Van, Emails from an Asshole and Shit My Dad Says all in one hot mess of a story. Praise for the book - "Danny Marianino's Never Punch A Rockstar is a sock in the jaw to punk/metal scene conformity, and it hurts so good! Final score: North Side Kings 2, Danzig, 0." - STEVEN BLUSH, author/filmmaker, American Hardcore "As trenchant, sometimes funny, insightful and shocking as a punch in the face. WHICH is incidentally what started this whole ball rolling. A pretty potent look into the power of image and the punching of the face of arguably a legend of, well, face punching, Glenn Danzig, and the ensuing firestorm that followed. I'd give it 5 black eyes." -- EUGENE S. ROBINSON, singer for Oxbow & author of FIGHT: Everything You Ever Wanted to Know About Ass Kicking But Were Afraid You'd Get Your Ass Kicked For Asking "With Don't Ever Punch a Rock Star author Danny Marianino has written an entertaining, humorous and humble autobiography. The often times laugh-out-loud recollections of Danny's life up to and following the infamous run-in with the drama-queen of dark metal is more than engaging and, with the inclusion of hate mail, zany rumors, message board threats and internet tough guys, you're sure to get a good giggle while learning what truly transpired that fateful night in Tuba City." - DUSTIN LAVALLEY, author of Spinner "As we have always said on the streets of NY - don't start none -there wont be none - and if you do, at least keep your hands up and guard your grill. Way to K.O. rock star attitudes Danny Boy!" - John Joseph author of The Evolution of a Cro-Magnon and Meat is For Pussies

Getting governmental approval before he sells stocks is simply a formality that Bellamy doesn't have time to deal with. What he does have time for is a Bulgarian beauty who joins him in his quest. Throughout it all, he phones Conover, hoping to stay one step ahead of the authorities as he tries to get the pot of money of his dreams. How long can he keep it up? SEAL Team Six

The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for Clint Eastwood's blockbuster movie which was nominated for six academy awards, including best picture. From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great

The Operator

In the spring of 1974, Second Lieutenant Hiroo Onoda of the Japanese army made world headlines when he emerged from the Philippine jungle after a thirty-year ordeal. Hunted in turn by American troops, the Philippine police, hostile islanders, and successive Japanese search parties, Onoda had skillfully outmaneuvered all his pursuers, convinced that World War II was still being fought and that one day his fellow soldiers would return victorious. This account of those years is an epic tale of the will to survive that offers a rare glimpse of man's invincible spirit, resourcefulness, and ingenuity. A hero to his people, Onoda wrote down his experiences soon after his return to civilization. This book was translated into English the following year and has enjoyed an approving audience ever since.

Take Me Home

The New York Times best selling book that takes you inside SEAL Team Six - the covert squad that killed Osama Bin Laden SEAL Team Six is a secret unit tasked with counterterrorism, hostage rescue, and counterinsurgency. In this dramatic, behind-the-scenes chronicle, Howard Wasdin takes readers deep inside the world of Navy SEALs and Special Forces snipers, beginning with the grueling selection process of Basic Underwater Demolition/SEAL (BUD/S)—the toughest and longest military training in the world. After graduating, Wasdin faced new challenges. First there was combat in Operation Desert Storm as a member of SEAL Team Two. Then the Green Course: the selection process to join the legendary SEAL Team Six, with a curriculum that included practiced land warfare to unarmed combat. More than learning how to pick a lock, they learned how to blow the door off its hinges. Finally as a member of SEAL Team Six he graduated from the most storied and challenging sniper program in the country: The Marine's Scout Sniper School. Eventually, of the 18 snipers in SEAL Team Six, Wasdin became the best—which meant one of the best snipers on the planet. Less than half a year after sniper school, he was fighting for his life. The mission: capture or kill Somali warlord Mohamed Farrah Aidid. From rooftops, helicopters and alleys, Wasdin hunted Aidid and killed his men whenever possible. But everything went quickly to hell when his small band of soldiers found themselves fighting for their lives, cut off from help, and desperately trying to rescue downed comrades during a routine mission. The Battle of Mogadishu, as it became known, left 18 American soldiers dead and 73 wounded. Howard Wasdin had both of his legs nearly blown off while engaging the enemy. His dramatic combat tales combined with inside details of becoming one of the world's deadliest snipers make this one of the most explosive military memoirs in years.

From Mark Bowden, the preeminent chronicler of our military and special forces, comes *The Finish*, a gripping account of the hunt for Osama bin Laden. With access to key sources, Bowden takes us inside the rooms where decisions were made and on the ground where the action unfolded. After masterminding the attacks of September 11, 2001, Osama bin Laden managed to vanish. Over the next ten years, as Bowden shows, America found that its war with al Qaeda—a scattered group of individuals who were almost impossible to track—demanded an innovative approach. Step by step, Bowden describes the development of a new tactical strategy to fight this war—the fusion of intel from various agencies and on-the-ground special ops. After thousands of special forces missions in Iraq and Afghanistan, the right weapon to go after bin Laden had finally evolved. By Spring 2011, intelligence pointed to a compound in Abbottabad; it was estimated that there was a 50/50 chance that Osama was there. Bowden shows how three strategies were mooted: a drone strike, a precision bombing, or an assault by Navy SEALs. In the end, the President had to make the final decision. It was time for the finish.

No Ordinary Time

I entered this incarnation on March the twenty-ninth, A.D. 1831, at the ancient town of Ulverston, Lancashire, England. My soul came with me. This is not always the case. Every observing mother of a large family knows that the period of spiritual possession varies. For days, even weeks, the child may be entirely of the flesh, and then suddenly, in the twinkling of an eye, the mystery of the indwelling spirit is accomplished. This miracle comes not by observation; no mother ever saw it take place. She only knows that at one moment her child was ignorant of her; that at the next moment it was consciously smiling into her face, and that then, with an instinctive gladness, she called to the whole household, “the baby has begun to notice.” I brought my soul with me—an eager soul, impatient for the loves and joys, the struggles and triumphs of the dear, unforgotten world. No doubt it had been aware of the earthly tabernacle which was being prepared for its home, and its helper in the new onward effort; and was waiting for the moment which would make them companions. The beautifully fashioned little body was already dear, and the wise soul would not suffer it to run the risks of a house left empty and unguarded. Some accident might mar its beauty, or cripple its powers, or still more baneful, some alien soul might usurp the tenement, and therefore never be able effectually to control, or righteously use it. I was a very fortunate child, for I was “possessed by a good spirit, yea rather being good, my spirit came into a body undefiled and perfect” (Wisdom of Solomon, 8:20). Also, my environments were fair and favorable; for my parents, though not rich, were in the possession of an income sufficient for the modest comforts and refinements they desired. My father was the son of Captain John Henry Huddleston, who was lost on some unknown sea, with all who sailed in his company. His brother, Captain Thomas Henry Huddleston, had a similar fate. His ship, *The Great Harry*, carrying home troops from America, was dashed to pieces on the *Scarlet Rocks*, just outside *Castletown*, the capital of the *Isle of Man*. When the storm had subsided the bodies of the Captain and his son Henry were found clasped in each other’s arms, and they were buried together in *Kirk Malew churchyard*. During the years 1843 and 1844 I was living in *Castletown*, and frequently visited the large grave with its upright stone, on which was

carved the story of the tragedy. Fifteen years ago my sister Alethia went purposely to Castletown to have the lettering on this stone cleared, and made readable; and I suppose that it stands there today, near the wall of the inclosure, on the left-hand side, not far from the main entrance.

Hang on, it's a hell of a ride! From the band that lived by the motto "Anything worth doing was worth overdoing" -- Steven Tyler, Joe Perry, Tom Hamilton, Brad Whitford, and Joey Kramer -- comes a quarter century of rock godhood: the life, the music, the truth, the hell, the lost years, and the raunchy, unsafe sex. And, of course, the drugs. Learn how they did it in a book that is pure Aerosmith unbound: where they came from, what they are now, and what they will always be -- a great American band.
