Warning: This book is intended for an adult audience 18 + due to adult content, language, and graphic scenes of a sexual nature. Mia, the saint. Kolton, the sinner. Kolton Royce is a tatted, bad boy rock star at the top of his game. Mia Phoenix is an overly responsible nineteen-year-old striving for stardom since losing her parents in a house fire. When Mia ends up on Kolton's team for the debut of the new nationwide singing competition, The Stage, she's not sure if it's her or her voice that he's hell-bent to control. After he takes special interest in her welfare, they've been warned, any contact between them outside of filming is strictly forbidden. He has other ideas. She's a phoenix rising from the ashes, the only one who understands the pain that lies beneath the persona. Though he's not sure if he's too bad for her, he can't stay away. All sinners have a past. All saints have a future. But does being born in fire make the fissures weak in all the wrong places, or stronger than they've ever known? This is book one in a two book series. There is a preview at the end of The Stage called The Tour Preview. Read it at your own risk. This book does not end in a cliffhanger, but the preview does

There's a sacred and hidden path inside each one of us, a path of mysteries and amazing manifestations, where nothing is impossible, not even our wildest spiritual creations. This is the realm of impossibilities, where imagination is carried away by a spiritual insight, which is here referred as the phoenix. The allegory inside this book takes us to a subconscious realm, that can lead us to the most uplifting and unknown side of ourselves, but also to other realities as well, namely, the ones that are parallel to ours, and also other dimensions and galaxies. It is with this allegory of the phoenix that we understand the role of the dragons and serpents of our planet, and how they interfere in the Tao of our existence. As a dance of forces, vibrations of different natures, these symbols and concepts take us to the deepest truth within, of who we are and how far can we go. This is a book about the adventures of our soul, the journey within that so many Shamans live to explore. It's also about a path that all spiritualists and gurus have experienced, a path that some have called nirvana, enlightenment or awaking, but few have ever had the ability to fully describe in a way that can be perceived by the common mortal. The Native Americans have often told us about the spirit of the eagle that keeps guard over the spiritual world. This eagle, or big bird, is representative of another living force, which is the phoenix, the bird of fire. This is why many mystics of ancient times believed that only fire could take souls to another world. The fire purifies the body, but the most potent fire comes from within, as an energy that we burn with our conscious awareness. This is the fire that Buddhists, Taoists and Hindus persist in awakening from within, commonly using disciplines created specifically for this purpose, such as yoga, chikung

and meditation. This fire represents the power of our own spirituality, which most people are unaware to possess. As mortals and genetically manipulated slaves of a few alien species, we've lost the physical capability to ignite it. But the phoenix can help us reach it, through the spiritual nature that is within each one of us. The one who can ride the phoenix, can travel very far, to amazing lands. And these are the ones that often come back, when they choose to, as our prophets and religious leaders. This book describes their journey to Valhalla, Heaven, Paradise, or more simply, the Laboratory of God.

New Adult Paranormal Romance \*\* Mature Content \*\* Recommended for ages 16+ due to sexual situations and language  
This book includes realistic scenes of domestic violence that are not gratuitously graphic, but may be disturbing to sensitive readers. Hearts break. Souls shatter. Love lies in The Space Beyond. As members of the Phoenix, Jeric and Leni are thrust into their new lives, expected to lead Earth's Guardians. But Leni struggles with trusting her own soul, and Jeric is more concerned about keeping Leni safe than meeting others' demands. When Darkness swarms Lake Haven, they embark on their first mission with little preparation and no idea which soul the Dark hunts. Born and raised in Lake Haven, Bex hopes to escape her small-town life, ideally in the arms of her soul mate. She knows he exists, and her heart aches with the need to find him. When her long-lost mama calls to announce she's knockin' on death's door, Bex reluctantly makes the trip to see the uncaring bitch (bless her heart), only to be knocked off her feet by the sexy and charming Dr. Mason Hayes. Is he really The One? Leni's soul felt an instant connection to Bex, but if Bex found her soul mate, she isn't their mission. So who is, and why does Leni instinctively feel drawn to her? Can Leni even trust her intuition? And will Jeric step up and lead when the time comes or continue to hold them back? If they don't learn to trust themselves and each other quickly, Darkness will claim them allalong with the rest of Earth's souls.
