Most of us hope to retire someday, and we want to have the assurance that we will be able to live comfortably and continue supporting our family. We want to know that the work we've done throughout our lives will pay off in the end. And we also want to ensure that we provide our family with any remaining assets after our death. In this book, retirement financial advisor Eric Peterson offers advice and techniques to the soon-to-be retiree. He covers a variety of topics, including:

- Financially and mentally planning for retirement
- Shifting from accumulation to income and preservation of assets
- Organizing documents and managing spending patterns
- Who to go to for retirement advice and what questions to ask
- Risks that can impact retirement
- Taxes and what can be done about them
- Hidden fees
- Pensions and Social Security
- Health-care costs and insurance
- Estate planning and leaving a will

Are you completely ready for retirement? If your answer is yes, this book may not be for you. But if you have even a shred of doubt, Eric's advice can help you consider those things you may not have even known about. You have a right to live the rest of your life in peace and comfort.

### **Golf's Greatest Championship**

"A fresh and concise look at Payne Stewart's victory at the 1999 U.S. Open." ---Golf Digest It has been called the greatest

U.S. Open in the Open's over one hundred-year history. Veteran sports journalist, Bill Chastain, crafts the dramatic story of Payne Stewart's 1999 U.S. Open victory by combining extensive research with interviews of those who made it unique. Payne at Pinehurst shows how Stewart dealt with his stunning U.S. Open defeat in 1998 and planned victory for the championship that meant so much to him. Stewart's conquest of Pinehurst No. 2, while fending off Phil Mickelson, Tiger Woods, David Duval, and Vijay Singh in an epic battle where every swing held significance, is the stuff of which golf legends are made. From compelling action by the best golfers in the world to the tournament's dramatic conclusion, Payne at Pinehurst shows readers why the 1999 U.S. Open is regarded as the best U.S. Open ever played. "Exciting golf history combined with the poignant personal story of Stewart's life and death." ---Booklist "You don't have to be from North Carolina to understand what happened at the 1999 U.S. Open, and how it felt; it was an Open brushed by an angel's wing, an Open that in retrospect seems almost fictional. That Sunday in Pinehurst, when it all happened there in the mist, is one of the most memorable days in the history of the U.S. Open. Everything about it is more profound now, and yet somehow unreal." ---Ron Green Sr., PGATOUR.com columnist and author of Shouting at Amen Corner "While the 1999 U.S. Open may not have been the greatest Open ever, through Chastain's effort it now makes the short list." ---bookreporter.com "Chastain's book is a thoughtful look at one of America's favorite golfers and at a tournament that raised his status to near legend." ---News & Record (Greensboro, North Carolina)

### **All Quiet on the Western Front**

On April 6th, 2003, twenty-six Green Berets, including those of Sergeant 1st Class Frank Antenori's Special Forces A-team (call sign Roughneck Nine-One), confronted a vastly superior force—one that included battle tanks and more than 150 well-trained, well-equipped, and well-commanded soldiers—at a remote crossroads near the small village of Debecka, Iraq. The rest is history. Along the way, they endured a U.S. Navy F-14 dropping a 500-pound bomb on supporting Kurdish Peshmerga fighters, the ever-present threat of WMDs, and countless other deadly obstacles. This is the never-before-told, unsanitized story of how one Special Forces A-team recruited and organized, trained and eventually fought—and won—a legendary conflict that will influence American military doctrine for years to come.

Almost every major American city is experimenting with school choice—a deeply controversial idea that is dramatically reshaping public education. Will the wider array of school options help parents and educators identify better strategies for

helping all children learn? Or will the high stakes of the marketplace end up privatizing this most public of institutions? Education activist Sam Chaltain believes that before we can answer these questions, we must put a human face on the modern landscape of teaching and learning. *Our School* documents a year in the life of two schools in the nation's capital—one a new charter school just opening its doors, the other a neighborhood school that first opened in 1924. Chaltain weaves together the observations and emotions of the people whose lives intersect there, and the triumphs and the challenges they experience. The result is an unsettling, complex portrayal of American public education. *Our School* is important reading for educational policymakers, administrators, parents, the media, and anyone who aspires to be a teacher. **Book Features:** Specific recommendations for creating a healthy, high-functioning school. A detailed account of what school choice actually looks and feels like to the people who experience it. A vivid description of the modern classroom and what it's really like to teach in public school. An important focus on the humanity of teachers (their personal histories, their reasons for entering the profession, their day-to-day challenges). An intimate look at the inner lives of children (their biggest fears and needs, their moments of triumph and understanding). Sam Chaltain is a national educator and organizational change consultant based in Washington, DC. He was the National Director of the Forum for Education and Democracy and the founding director of the Five Freedoms Project. Visit his blog at [samchaltain.com](http://samchaltain.com). "What *Our School* shows with passion and precision is that education is about real people leading real lives in real places. If school doesn't engage them, it doesn't work, no matter what the accountants and policymakers may say. That's what this book is really about and why it's so important for anyone who genuinely cares about schools, communities, and their children." —From the Foreword by Sir Ken Robinson, world-renowned author and educator "This is an important book. *Our School* is vibrant and alive. Sam Chaltain's keen insights and warm, readable prose invite readers to experience the complex, challenging, often frustrating, and occasionally triumphant lives of four caring teachers and their students. I urge you to accept the invitation." —John Merrow, education correspondent, PBS NewsHour, and president and executive producer, Learning Matters, Inc. "Sam Chaltain is one of the most important voices in public education today, and he writes wonderfully well. In *Our School*, Sam puts a human face on urban education, showing us what it's like to be a teacher, student, or parent in the Brave New World of school choice. Parents, educators, and policymakers should read this book. The result will be a more informed and creative conversation about what public education ought to be, and how to make it that way." —Parker J. Palmer, author of *Healing the Heart of Democracy*, *The Courage to Teach*, and *Let Your Life Speak*
