This volume of essays honours the life and work of Stephen A. Wild, one of Australia's leading ethnomusicologists. Born in Western Australia, Wild studied at Indiana University in the USA before returning to Australia to pursue a lifelong career with Indigenous Australian music. As researcher, teacher, and administrator, Wild's work has impacted generations of scholars around the world, leading him to be described as 'a great facilitator and a scholar who serves humanity through music' by Andrée Grau, Professor of the Anthropology of Dance at University of Roehampton, London. Focusing on the music of Aboriginal Australia and the Pacific Islands, and the concerns of archiving and academia, the essays within are authored by peers, colleagues, and former students of Wild. Most of the authors are members of the Study Group on Music and Dance of Oceania of the International Council for Traditional Music, an organisation that has also played an important role in Wild's life and development as a scholar of international standing. Ranging in scope from the musicological to the anthropological—from technical musical analyses to observations of the sociocultural context of music—these essays reflect not only on the varied and cross-disciplinary nature of Wild's work, but on the many facets of ethnomusicology today.

How to Make a Living from Music

A study of the substantial evidence for a former race of giants in North America and its 150-year suppression by the Smithsonian Institution • Shows how thousands of giant skeletons have been found, particularly in the Mississippi Valley, as well as the ruins of the giants' cities • Explores 400 years of giant finds, including newspaper articles, first person accounts, state historical records, and illustrated field reports • Reveals the Stonehenge-era megalithic burial complex on Catalina Island with over 4,000 giant skeletons, including kings more than 9 feet tall • Includes more than 100 rare photographs and illustrations of the lost evidence Drawing on 400 years of newspaper articles and photos, first person accounts, state historical records, and illustrated field reports, Richard J. Dewhurst reveals not only that North America was once ruled by an advanced race of giants but also that the Smithsonian has been actively suppressing the physical evidence for nearly 150 years. He shows how thousands of giant skeletons have been unearthed at Mound Builder sites across the continent, only to disappear from the historical record. He examines other concealed giant discoveries, such as the giant mummies found in Spirit Cave, Nevada, wrapped in fine textiles and dating to 8000 BCE; the hundreds of red-haired bog mummies found at sinkhole "cenotes" on the west coast of Florida and dating to 7500 BCE; and the ruins of the giants' cities with populations in excess of 100,000 in Arizona, Oklahoma, Alabama, and Louisiana. Dewhurst shows how this suppression began shortly after the Civil War and transformed into an outright cover-up in 1879 when Major John Wesley Powell was appointed Smithsonian director, launching a strict pro-evolution, pro-Manifest Destiny agenda. He also reveals the 1920s' discovery on Catalina Island of a megalithic burial complex with 6,000 years of continuous burials and over 4,000 skeletons, including a succession of kings and queens, some more than 9 feet tall--the evidence for which is hidden in the restricted-access evidence rooms at the Smithsonian.

White Space Is Not Your Enemy

The MacArthur Study Bible

Randall Wilkes, his big-city journalism career in ruins, has returned after twenty years to Pilgrim's Rest, the Tennessee hill town where he grew up. He has taken on a lucrative but low-prestige writing job for Sonny McMahan, a former governor and Randall's boyhood friend, whose own career is under a shadow and who needs a ghost-written autobiography to ease his way back into politics. Randall encounters Faye McMahan, Sonny's mother, who is addled with age, imagining that her dead husband is alive and worrying that her son might be in danger. Hours later, amid a violent autumn storm, Randall finds Faye murdered, hanging by the neck from a bridge over the town landmark called Damnation Falls. Within days, a second murder, even more grisly than the first, targets another member of the McMahan clan. And the bones of a third, long-buried murder victim—a young woman—emerge from the earth. Randall has ties to all the victims, and the murders force him to acknowledge debts that go back decades. Drawing on his investigative skills and his roots in the region, he sets out to discover who is behind the killings. His search takes him from the flatlands of the Mississippi delta to the Great Smoky Mountains in the east. Tennessee is a state that was split by the Civil War, where history still lies close to the surface, and tales of murder and betrayal have weighed heavily on the town of Pilgrim's Rest. Before all the answers are in, more people will die, an old score will be settled, and the dead will finally tell their stories.

The Routledge Companion to Remix Studies

The Routledge Companion to Remix Studies comprises contemporary texts by key authors and artists who are active in the emerging field of remix studies. As an organic international movement, remix culture originated in the popular music culture of the 1970s, and has since grown into a rich cultural activity encompassing numerous forms of media. The act of recombining pre-existing material brings up pressing questions of authenticity, reception, authorship, copyright, and the techno-politics of media activism. This book approaches remix studies from various angles, including sections on history, aesthetics, ethics, politics, and practice, and presents theoretical chapters alongside case studies of remix projects. The Routledge Companion to Remix Studies is a valuable resource for both researchers and remix practitioners, as well as a teaching tool for instructors using remix practices in the classroom.

Homeowner's Handbook to Prepare for Natural Hazards

Multiword expressions (MWEs) are a challenge for both the natural language applications and the linguistic theory because they often defy the application of the machinery developed for free combinations where the default is that the meaning of an utterance can be predicted from its structure. There is a rich body of primarily descriptive work on MWEs for many European languages but comparative work is little. The volume brings together MWE experts to explore the benefits of a multilingual perspective on MWEs. The ten contributions in this volume look at MWEs in Bulgarian, English, French, German, Maori, Modern Greek, Romanian, Serbian, and Spanish. They discuss prominent issues in MWE research such as classification of MWEs, their formal grammatical modeling, and the description of individual MWE types from the point of view of different theoretical frameworks, such as Dependency Grammar, Generative Grammar, Head-driven Phrase Structure Grammar, Lexical Functional Grammar, Lexicon Grammar.

The Distant Echo

The iconic drummer of The Doors investigates his own relationship with creativity and explores the meaning of artistry with other artists and performers in this compelling and spellbinding memoir. Whether it's the curiosity that blossoms after we listen to our favorite band's newest record, or the sheer admiration we feel after watching a knockout performance, many of us have experienced art so pure-so innovative-that we can't help but wonder afterwards: "How did they do that?" And yet, few of us are in a position to be able to ask those memorable legends where their inspiration comes from and how they translated it into something fresh and new. Fortunately for us, this book is here to offer us a bridge. In The Seekers,

John Densmore—the iconic drummer of The Doors and author of the New York Times bestseller *Riders on the Storm*—digs deep into his own process and draws upon his privileged access to his fellow artists and performers in order to explore the origins of creativity itself. Weaving together anecdotes from the author's personal notebooks and experiences over the past fifty years, this book takes readers on a rich, thought-provoking journey into the soul of the artist. By understanding creativity's roots, Densmore ultimately introduces us to the realm of everyday inspirations that imbue our lives with meaning. Inspired by the classic spiritual memoir *Meetings with Remarkable Men*, this book is fueled by Densmore's abundant collection of transformative experiences—both personal and professional—with everyone from Ravi Shankar to Patti Smith, Jim Morrison to Janis Joplin, Bob Marley to Gustavo Dudamel, Lou Reed to Van Morrison, Jerry Lee Lewis to his own dear, late Doors bandmate Ray Manzarek. Ultimately, the result is not only a look into the hearts and minds of some of the most important artists of the past century—but a way for readers to identify and ignite their own creative spark, and light their own fire.
