Arden and Partington on Quiet Enjoyment

Chambers & Partners' Directory of the Legal Profession

This book is a collection of essays honouring and engaging with the work of the late Professor Patrick McAuslan. It is a collection that narrates, analyses and

critiques McAuslan's contributions, as well as offering substantive perspectives on how his work has impacted the legal fields in which he was involved: including those of land law, urban planning law and policy, land use and participation in developing countries, democratic constitutionalism, and legal education. The essays present McAuslan's contributions in the contexts in which they emerged, and according to both the circumstances and motivations that shaped them, as well as the challenges they encountered. It thus provides an ideal point of engagement for scholars, students and policy makers that have already interacted with McAuslan's ideas and work, or who have yet to do so.

Law Books Published

Clear and comprehensive, Landlord and Tenant Law examines the current law with an eye to possible reforms whilst drawing attention to matters of legal policy where relevant.

People of Today

An up-to-date and practical guide to advising the victims of unlawful eviction and harassment. The focus of the book remains the rights of occupiers against their landlords. But the enjoyment and security of home life may also be disrupted by

others - such as stalkers, neighbours and neighbourhood gangs. The book leads the adviser through the various remedies available not only to assist victims of unlawful eviction but also to combat other forms of anti-social behaviour.

Remedies in Contract and Tort

The Solicitors' Journal

Law and Social Control

An innovative and timely guide to housing law that integrates the disciplines of law and public policy so that readers see how the subject fits together – both the letter of the law and the way it is practised. The innovative three-part structure covers all the topics of a typical Housing Law module and it is written in a clear and conversational style, with a wide range of source material to show how the law is created, interpreted and used in real life. Students are expertly guided through the

complexities of housing law by a leading academic who has taught the subject for more than 20 years. Where relevant, chapters end with a section on 'the future' that discusses proposed changes to the law and the impact of those changes. It also discusses the conceptual issues raised by the Human Rights Act.

Land Law

This unique collection of essays, written by leading practitioners, policy makers and academics, looks at patterns of landlord and tenant law: past, present and future. Each sector is explored - commercial, long residential, housing, and agricultural - by taking a look backwards and forwards. The chapters explore the role that legislative, judicial, and policy developments, and market forces have played, and will continue to play, in shaping the law. Two chapters are devoted to the seminal case of *Street v Mountford* and its contemporary significance. A comparison is also made with the position in Australia and the United States. The book provides a scholarly reflection on the principles of leasehold law that will be of interest to practitioners, academics, and students of landlord and tenant law.

Current Law Statutes Annotated

Remedies is one of the key organizing concepts of the obligations approach to the common law. This second edition modernizes the former 1995 edition quite considerably. It determines the place of remedies in contract and tort within the debate about the reform of the common law obligation.

Critical Issues in Welfare Law

The welfare system of the United Kingdom has been undergoing a radical overhaul in the past decade. The structure of social security, housing provision, the care of the elderly, mentally disordered and physically handicapped, and the welfare system for children are all being rethought. Major reports and reviews, new legislative structures and significant judicial decisions make this an appropriate time for leading academics on the subject to ask and answer searching questions in relation to these changes.
