radiation oncologist Jeffrey Long and his wife, Jody, have gathered thousands of accounts of near-death experiences (NDEs) from all over the world. In addition to sharing the personal narrative of their experiences, visitors to the website are asked to fill out a one hundred-item questionnaire designed to isolate specific elements of the experience and to flag counterfeit accounts. The website has become the largest NDE research database in the world, containing over 1,600 NDE accounts. The people whose stories are captured in the database span all age groups, races, and religious affiliations and come from all over the world, yet the similarities in their stories are as awe-inspiring as they are revealing. Using this treasure trove of data, Dr. Long explains how medical evidence fails to explain these reports and why there is only one plausible explanation—that people have survived death and traveled to another dimension.

The Jewish poets of medieval Spain combined elements of the dominant Arabic-Islamic culture with Jewish religious and literary traditions to create a rich new Hebrew literature that is as richly entertaining today as it was in the twelfth century. In this delight delightful book, Scheindlin presents the original Hebrew poetry with his own melodic English translations, each followed by commentary that explains its cultural context.

"A powerful, revealing story of hope, love, justice, and the power of reading by a man who spent thirty years on death row for a crime he didn't commit"--

When a middle-aged alcoholic is found brutally battered to death on a roadside in West London, the case is assigned to a nameless detective sergeant, a tough-talking cynic and fearless loner from the Department of Unexplained Deaths at the Factory police station. Working from cassette tapes left behind in the dead man's property, our narrator must piece together the history of his blighted existence and discover the agents of its cruel end. What he doesn't expect is that digging for the truth will demand plenty of lying, and that the most terrible of villains will also prove to be the most attractive. In the first of six police procedurals that comprise the Factory series, Derek Raymond spins a riveting, and vividly human crime drama. Relentlessly pursuing justice for the dispossessed, his detective narrator treads where few others dare: in the darkest corners of London, a city of sin plagued by unemployment, racism and vice, and peopled by a cast of low-lives, all utterly convincing and brought to life by Raymond's pitch-perfect dialogue.

Dear Raymond

A NEW YORK TIMES NOTABLE BOOK A “thoroughly captivating biography” (The San Francisco Chronicle) of American icon Arthur Ashe—the Jackie Robinson of men’s tennis—a pioneering athlete who, after breaking the color barrier, went on to become an influential civil rights activist and public intellectual.

Born in Richmond, Virginia, in 1943, by the age of eleven, Arthur Ashe was one of the state's most talented black tennis players. He became the first African American to play for the US Davis Cup team in 1963, and two years later he won the NCAA singles championship. In 1968, he rose to a number one national ranking. Turning professional in 1969, he soon became one of the world's most successful tennis stars, winning the Australian Open in 1970 and Wimbledon in 1975. After retiring in 1980, he served four years as the US Davis Cup captain and was inducted into the International Tennis Hall of Fame in 1985. In this "deep, detailed, thoughtful chronicle" (The New York Times Book Review), Raymond Arsenault chronicles Ashe's rise to stardom on the court. But much of the book explores his off-court career as a human rights activist, philanthropist, broadcaster, writer, businessman, and celebrity. In the 1970s and 1980s, Ashe gained renown as an advocate for sportsmanship, education, racial equality, and the elimination of apartheid in South Africa. But from 1979 on, he was forced to deal with a serious heart condition that led to multiple surgeries and blood transfusions, one of which left him HIV-positive. After devoting the last ten months of his life to AIDS activism, Ashe died in February 1993 at the age of forty-nine, leaving an inspiring legacy of dignity, integrity, and active citizenship. Based on prodigious research, including more than one hundred interviews, Arthur Ashe puts Ashe in the context of both his time and the long struggle of African-American athletes seeking equal opportunity and respect, and "will serve as the standard work on Ashe for some time" (Library Journal, starred review).

The groundbreaking, bestselling classic, now available in a special fortieth-anniversary edition that includes a new Foreword from Eben Alexander, M.D., author of Proof of Heaven, and a new Afterword by the author. Raymond Moody is the “father” of the modern NDE (Near Death Experience) movement, and his pioneering work *Life After Life* transformed the world, revolutionizing the way we think about death and what lies beyond. Originally published in 1975, it is the groundbreaking study of one hundred people who experienced “clinical death” and were revived, and who tell, in their own words, what lies beyond death. A smash bestseller that has sold more than thirteen million copies around the globe, *Life After Life* introduced us to concepts—including the bright light, the tunnel, the presence of loved ones waiting on the other side—that have become cultural memes today, and paved the way for modern bestsellers by Eben Alexander, Todd Burpo, Mary Neal, and Betty Eadie that have shaped countless readers notions about the

end life and the meaning of death.

Raymond, Or, Life and Death

What happens to consciousness during the act of dying? The most compelling answers come from people who almost die and later recall events that occurred while lifesaving resuscitation, emergency care, or surgery was performed. These events are now called near-death experiences (NDEs). As medical and surgical skills improve, innovative procedures can bring back patients who have traveled farther on the path to death than at any other time in history. Physicians and healthcare professionals must learn how to appropriately treat patients who report an NDE. It is estimated that more than 10 million people in the United States have experienced an NDE. Hagan and the contributors to this volume engage in evidence-based research on near-death experiences and include physicians who themselves have undergone a near-death experience. This book establishes a new paradigm for NDEs.

following topics-
* How recent findings in medicine, psychiatry and sociology bring us closer to unravelling mankind's greatest mystery- What happens to us after we die?
* Startling, newly confirmed phenomena such as- the experience of meeting one's loved ones in the afterlife and the ability to 'tap into' knowledge of any sort
* What the moving near-death experiences of children can teach us
* Why NDE's inspire permanent change, greater appreciation of life, more concern for others, increased belief in an afterlife, and decreased fear of death
* Why doctors want more research into near-death experiences and much more
Based on Dr Moody's groundbreaking studies, THE LIGHT BEYOND offers both answers and peace of mind to anyone who has ever wondered about death and beyond.

Life After Life

“The first noteworthy treatment of its subject—and a definitive one at that—Fascinating narrative threads proliferate” (The New York Times Book Review). The most authoritative biography—featuring dozens of rarely seen photographs—of film legend Bruce Lee, who made martial arts a global phenomenon, bridged the divide between Eastern and Western cultures, and smashed long-held stereotypes of Asians and Asian-Americans. Forty-five years after Bruce Lee’s sudden death at age thirty-two, journalist and bestselling author Matthew Polly has written the definitive account of Lee’s life. It’s also one of the only accounts; incredibly, there has never been an authoritative biography of Lee. Following a decade of

research that included conducting more than one hundred interviews with Lee's family, friends, business associates, and even the actress in whose bed Lee died, Polly has constructed a complex, humane portrait of the icon. Polly explores Lee's early years as a child star in Hong Kong cinema; his actor father's struggles with opium addiction and how that turned Bruce into a troublemaking teenager who was kicked out of high school and eventually sent to America to shape up; his beginnings as a martial arts teacher, eventually becoming personal instructor to movie stars like James Coburn and Steve McQueen; his struggles as an Asian-American actor in Hollywood and frustration seeing role after role he auditioned for go to a white actors in eye makeup; his eventual triumph as a leading man; his challenges juggling a sky-rocketing career with his duties as a father and husband; and his shocking end that to this day is still shrouded in mystery. Polly breaks down the myths surrounding Bruce Lee and argues that, contrary to popular belief, he was an ambitious actor who was obsessed with the martial arts—not a kung-fu guru who just so happened to make a couple of movies. This is an honest, revealing look at an impressive yet imperfect man whose personal story was even more entertaining and inspiring than any fictional role he played onscreen.

Raymond Revised

The long-intertwined communities of the Oglala Lakota Pine Ridge Reservation and the bordering towns in Sheridan County, Nebraska, mark their histories in sensational incidents and quiet human connections, many recorded in detail here for the first time. After covering racial unrest in the remote northwest corner of his home state of Nebraska in 1999, journalist Stew Magnuson returned four years later to consider the border towns' peoples, their paths, and the forces that separate them. Examining Raymond Yellow Thunder's death at the hands of four white men in 1972, Magnuson looks deep into the past that gave rise to the tragedy. Situating long-ranging repercussions within 130 years of context, he also recounts the largely forgotten struggles of American Indian Movement activist Bob Yellow Bird and tells the story of Whiteclay, Nebraska, the controversial border hamlet that continues to sell millions of cans of beer per year to the "dry" reservation. Within this microcosm of cultural conflict, Magnuson explores the odds against community's power to transcend misunderstanding, alcoholism, prejudice, and violence.

The first biography of america's best-known short story writer of the late twentieth century. The London Times called Raymond Carver "the American Chekhov." The beloved, mischievous, but more modest short-story writer and poet thought of himself as "a lucky man" whose renunciation of alcohol allowed him to live "ten years longer than I or anyone expected." In that last decade, Carver became the leading figure in a resurgence of the short story. Readers embraced his precise, sad, often funny and poignant tales of ordinary people and their troubles: poverty, drunkenness, embittered marriages, difficulties brought on by neglect rather than intent. Since Carver died in 1988 at age fifty, his legacy has been mythologized by admirers and tainted by controversy over a zealous editor's shaping of his first two story collections. Carol Sklenicka penetrates the myths and controversies. Her decade-long search of archives across the United States and her extensive interviews with Carver's relatives, friends, and colleagues have enabled her to write the definitive story of the iconic literary figure. Laced with the voices of people who knew Carver intimately, her biography offers a fresh appreciation of his work and an unbiased, vivid portrait of the writer.

Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the

task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." Raymond, Or Life and Death

On August 31, 1915, a Texas posse lynched five "horse thieves." One of them, it turned out, was General Pascual Orozco Jr., military hero of the Mexican Revolution. Was he a desperado or a hero? Orozco's death proved as controversial as his storied life, a career of mysterious contradictions that Raymond Caballero puzzles out in this book. A long-overdue biography of a significant but little-known and less understood figure of Mexican history, Orozco tells the full story of this revolutionary's meteoric rise and ignominious descent, including the purposely obscured circumstances of his death at the hands of a lone, murderous lawman. That story—of an unknown muleteer of Northwest Chihuahua who became the

revolution's most important military leader, a national hero and idol, only to turn on his former revolutionary ally Francisco Madero—is one of the most compelling narratives of early-twentieth-century Mexican history. Without Orozco's leadership, Madero would likely have never deposed dictator Porfirio Díaz. And yet Orozco soon joined Madero's hated assassin, the new dictator, Victoriano Huerta, and espoused progressive reforms while fighting on behalf of reactionaries. Whereas other historians have struggled to make sense of this contradictory record, Caballero brings to light Orozco's bizarre appointment of an unknown con man to administer his rebellion, a man whose background and character, once revealed, explain many of Orozco's previously baffling actions. The book also delves into the peculiar history of Orozco's homeland, offering new insight into why Northwest Chihuahua, of all places in Mexico, produced the revolution's military leadership, in particular a champion like Pascual Orozco. From the circumstances of his ascent, to revelations about his treachery, to the true details of his death, Orozco at last emerges, through Caballero's account, in all his complexity and significance.

Conversations with Raymond Carver

This collection of Raymond Carver's interviews reveals him to have been perhaps the premier short-story writer of his generation, a lyric-narrative poet of singular resonance, and a staunch proponent of realistic fiction in the wake of postmodern formalism. The twenty-five conversations gathered here, several available in English for the first time, include craft interviews, biographical portraits, self-analyses, and wide-ranging reflections on the current literary scene. Carver discusses his changing views of his widely influential fiction collections *What We Talk About When We Talk About Love* (1981), *Cathedral* (1983), and *Where I'm Calling From* (1988). Carver explains

In this beautifully written, personal meditation on life and living, Raymond Tallis reflects on the fundamental fact of existence: that it is finite. Inspired by E. M. Forster's thought that "Death destroys a man

but the idea of it saves him,” Tallis invites readers to look back upon their lives from a unique standpoint: one’s own future corpse. From this perspective, he shows, the world now vacated can be seen most clearly in all its richness and complexity. Â Tallis blends lyrical reflection, humor, and the occasional philosophical argument as he explores his own postmortem recollections. He considers the biological processes and the senses that opened up his late world and the million-nooked space in which he passed his life. His inert, dispossessed body highlights his ceaseless activity in life, the mind-boggling inventory of his possessions, and the togetherness and apartness that characterized his relationships in the material and social worlds. Tallis also touches on the idea of a posthumous life in the memories of those who outlive him. Readers who accompany Tallis as he considers his life through death will appreciate with new intensity the precariousness and preciousness of life, for here he succeeds in his endeavor to make “the shining hour” shine more brightly.
