Repair Manual For Honda Hrt216

Honda engines are designed for good performance and efficient operation using gasoline containing from 0 to 10% ethanol. E85, a mixture of 85% ethanol and 15% gasoline, has been in the news recently. E85 is an alternative fuel; it is not gasoline. Honda engines are not designed or certified to run on E85 or any other alternative fuel.

You don't necessarily need an engineer or mechanic to work with a Honda lawnmower. Honda lawnmowers are well labeled, ensuring that machine information is easily accessible. The information can be found either in the manual or right on the unit. Model number, serial number, tag locations and model types can be found directly on the equipment.
