The Bones of You

Follow Noel, a captured rebel of the human Resistance, as he endures his punishment at the hands of his supernatural enemies, the vampires. See where his fate lies. Highly erotic and extremely dark and twisted. Prepare yourself "I've been betrayed by someone I trusted. Because of him, I was captured by my loathed enemy: The vampires. Right now, the sun is still high in the sky, but I know when it sets, I'm as good as dead. They can't wait to get their fangs into me. I guess some would say I have it coming. I did raise a lot of hell with my Resistance crew, and I was planning on raising a hell of a lot more at dawn before I was sold out by Jonah. The vampires, werewolves and dragons, have been trying to track me down for months and I'd always been two steps ahead of them. I guess my number is up. I just hope they make it quick. You see, the vampires in my reality aren't the romantic lot you read about in books. They don't sparkle or hang out at high schools with their teenage

girlfriends. Hell no, vampires are brutal, calculating, sadistic and bloodthirsty. As a matter of fact, all of the monsters are! That's how they were able to take over the world so easily and change an entire civilization to suit their needs. Whatever happens, I know it's not going to be pretty, so I'm preparing myself for the worst. May God help me." Warning: This novelette series contains hardcore sexual situations between men, not meant for sensitive eyes. I'm talking crude, lewd and full of attitude. This series will most likely either offend you or get ya revved up. This series isn't going to be pulling any punches whatsoever, so you've been warned. Mature Adult Content meant for readers looking for something dark, taboo, sexy, and unapologetic in their paranormal erotica. This is NOT a romance.

Parker: Slayground

The sixteenth Parker novel, *Butcher's Moon* is more than twice as long most of the master heister's adventures, and absolutely jammed with the action, violence, and nerve-jangling tension readers have come to expect. It feels like the Parker novel to end all Parker novels, and for nearly twenty-five years that's what it was. After its

publication in 1974, Donald Westlake said, "Richard Stark proved to me that he had a life of his own by simply disappearing. He was gone." Featuring a new introduction by Westlake's close friend and writing partner, Lawrence Block, this classic Parker adventures deserve a place of honor on any crime fan's bookshelf. More than thirty-five years later, *Butcher's Moon* still packs a punch: keep your calendar clear when you pick it up, because once you open it you won't want to do anything but read until the last shot is fired.
