Defying Her Mafioso

North Korea's brinkmanship diplomacy has continued to disturb the world with its seemingly reckless missile testing, as the country's leader, Kim Jong-Il, is rumored to be terminally ill with pancreatic cancer. North Korea appears to be in a state of serious internal crisis not only because its dictatorial system, albeit skillful and ruthless leadership, is inherently unstable, if not skillful and ruthless leadership, but also because the main pillar of Kim Jong-Il's legitimacy is rapidly eroding due to both mass starvations and the exodus of grassroots and mass exodus of the North Korean people into nearby regions. The main objective of this book is to explore the probability of North Korea's implosion, and second to search for a feasible way for Korean reunification as a possible consequence of a big bang event on the peninsula. The geopolitics of the Korean Peninsula is historically very complicated as Korea is bordered and surrounded by four big powers; namely, China, Russia, Japan, and the United States. Each country has its own varying degrees of political, economic, and military stakes with respect to the Korean Peninsula. Thus, the Land of the Morning Calm has remained divided since 1945 mainly as a result of the domain war among these super powers. As the North nears a turning point, however, there is a new possibility for the two Koreas to reunite if the international environments work in their favor, and if both countries are well prepared to assume reunification.

Inner Dynamics of Successful Relationships

In the first half of the twentieth century, modernist works appeared not only in obscure little magazines and books published by tiny exclusive presses but also in literary reprint magazines of the 1920s, tawdry pulp magazines of the 1930s, and lurid paperbacks of the 1940s. In his nuanced exploration of the publishing and marketing of modernist works, David M. Earle questions how and why modernist literature came to be viewed as the exclusive purview of a cultural elite given its availability in such popular forums. As he examines sensational and popular manifestations of modernism, as well as their reception by critics and readers, Earle provides a methodology for reconciling formerly separate or contradictory materialist, cultural, visual, and modernist approaches to avant-garde literature. Central to Earle's innovative approach is his consideration of the physical aspects of the books and magazines - covers, dust wrappers, illustrations, cost - which become texts in their own right. Richly illustrated and accessibly written, Earle's study shows that modernism emerged in a publishing ecosystem that was both richer and more complex than has been previously documented.

Ciro Donati was many things: My father's most valued and trusted soldier. My brother's best friend and second in command.

And the only man I would give up everything for. I fell hard for the Mafioso at the tender age of eleven. This beast of a man who I knew made people disappear-and probably enjoyed every second of it-was also the sixteen-year-old boy who had picked me up after I'd fallen flat on my face during my dance recital and told me I was the best ballerina he'd ever seen. He's watched over me, protected me like I was the most precious thing in the world to him. And then he sent me away. Scarlett Vitucci was many things: The daughter of the biggest Cosa Nostra boss from New York to Chicago. The sister of the man I would gladly take a bullet for. And the only woman I would ever love. Sending her away was the hardest thing I've ever done, but I didn't deserve her or her love. For three years I stayed away, ignoring the gnawing ache that her absence left in my chest. Now, she was back and fighting what I felt for her was impossible. Letting her go had been a huge mistake. One I would never repeat.

Marie is a waitress at an upscale Dallas steakhouse, attuned to the appetites of her patrons and gifted at hiding her private struggle as a young single mother behind an easy smile and a crisp white apron. It's a world of long hours and late nights, and Marie often gives in to self-destructive impulses, losing herself in a tangle of bodies and urgent highs as her desire for obliteration competes with a stubborn will to survive. 100 Great Business Leaders

It is no mystery that today the name of Jack Iverson is virtually unknown. For most of his life he was an unexceptional estate agent in Australia. He died in obscurity, by his own hand, at the age of only 58. He was a clumsy fielder, and a hopeless batsman. But for four years he was the best spin bowler in the world. Mystery Spinner is more than the beautifully written life of an elusive and forgotten hero who, after his brief burst of celebrity, has left strangely little trace in posterity. It is also the utterly compelling story of Gideon Haigh's quest to solve the enduring riddle of Jack Iverson's life - a quest which led him across Australia following tenuous clues in school registers and county records. And above all it is a moving study, for an age that presumes sporting prowess to be the ultimate definition of personal identity, of how skill is only half the battle in sport, and how it takes an extraordinary individual to cope successfully with extraordinary achievement.

His Wicked Kiss

It is entirely appropriate that this book should be produced in Dundalk. Located on the Northern rim of the Irish Pale, this town has straddled a border for centuries. Over the past thirty years, it has come to be closely identified with violent Republicanism both by the Unionist community in Northern Ireland and by Constitutional Nationalists in the South. Against such a hostile background academics attached to the Institute of Technology there have bravely confronted and interrogated these processes which have so blighted the history not only of Dundalk but of places and spaces throughout the world similarly located. In a wide-ranging series of articles, perhaps the strongest message to emerge is that of border as limitation. The notion of border as a liminal space where worlds converge, new realities emerge and transcendence is possible rarely surfaces. Instead, the border as a physical manifestation of divisiveness is repeatedly explored. In a passionate statement of solidarity with the Palestinians, Lavalette describes the construction of the apartheid wall: "The wall is eight feet high and has a watchtower every three hundred metres. Although there are no maps, it is thought it could end up being close to one thousand kilometres in length by the time it is completed" (p. 18). Yndigeñ shows how spatial borders gradually become mental borders such that, as visual borders disappear, new invisible borders appear (p. 33). The article explores the dualism of borders—simultaneously protecting those inside from external threats while also preventing those inside from reaching or engaging with the outside world. Ni Eigartaigh takes up the duality theme in the exploration of individualism as a process either of liberation or one of alienation. Taking the title from an aphorism of Kafka's "My Prison Cell, My Fortress", she explores a view of contemporary society as repressive, and of its inhabitants as complicit in the repression. Drawing on a wide span of literature and disciplines, she teases through the paradox of contemporary society that the freedom gained from the liberation of the individual from communal obligations and repression has resulted in a loss of identity and an overwhelming sense of isolation and powerlessness. She concludes that in the "absence of a restrictive system of social control, the individual is forced to take responsibility for his own actions....It is to avoid this responsibility that many...choose the security of the prison cell above the hardship of the outside world." Her paper does not go on to look at the potential role of the State or of fundamentalist movements in playing on the fear and disconnectedness of the citizenry as an equally likely outcome to that of a stronger capability for personal responsibility. One could argue for instance that the European Fascist movement and the Nationalist movement of the early- to mid-twentieth century were both based precisely on the dislocation at personal and social level resulting from the breakdown of pre-industrial communitarian ties. While there is no attempt in the book to elucidate any particular developmental relationship between the different contributors, two broad themes may be detected—a concern with borders as socio-political and geographical constructs on the one hand and a concern with the formation of identity in the individual's relationship to the wider society on the other. Some light is cast on the latter issue by de Gregorio-Godeo who posits

discourse as a core concept in identity formation. This leads to the conclusion that individual identity, in this case individualism, is in fact socially constructed in a “dialectical interplay between the discursive and the social identities included—so that they are mutually shaped by each other” (p.93). Using critical discourse analysis, he goes on to explore changing notions of masculinity as evidenced in the Health sections of men’s magazines.

This life of Marcel Proust will send readers back to Proust's classic Remembrance of Things Past. To those who have never read it, or to those who have previously tried and failed, Edmund White's evocation of Proust's life and work will be the guide. White has a psychologist's appreciation for the strange personality of this charismatic genius. We see Proust the recluse who lay in bed all night long in his cork-lined room, obsessively rewriting his one massive work - but we also see the yearning, lonely boy, the brilliant wit and socialite, the ambitious grasper after honours, and the miserably closeted homosexual. White, the author of an award-winning biography of Jean Genet and of the classic gay novel A Boy's Own Story, is uniquely suited to write this book, and Proust is currently enjoying a renaissance.

The Span Cookbook: A Practical Guide to Accessing Span

Central to the aim of both this book is to rethink the concept of diaspora as it is used both academically and popularly at the beginning of the twenty-first century. It seeks to interrogate the notion of “diaspora” in an interdisciplinary way, and to explore the contradictions inherent in contemporary notions of place and identity. It presents explorations of both “traditional” diasporas, such as the Irish community in the United States and in Great Britain, as well as recently established diasporas being formed through new patterns of migration and resettlement. Traditional conceptions of diaspora focused on forced exile from the homeland and the adoption of conscious strategies of integration upon arrival in the new land. In the past, it was assumed that migrants would rapidly assimilate into their receiving societies. Alternatively, migrant workers were regarded by themselves and their host societies as “sojourners”: they were not expected to integrate precisely because their alien presence was perceived to be temporary. Two poles then framed the traditional interpretation of migration and settlement. On the one hand, migrants assimilated rapidly; on the other, migrants were temporarily in the host-land. Yet, the realisation both that the melting pot is a myth and that migrant workers do not, in the main, go home, has forced an increasing acceptance of ethnic diversity. This, combined with ongoing improvements in travel and communications technologies, facilitates today’s migrants in maintaining links with their home countries. The increased visibility of transnational ethnic communities and a resurgence in labour migration in the twenty-first century, have stimulated academic interest in both contemporary diasporas and in recovering the hidden narratives of earlier global migrations. The renewed interest in the formation and narrative of diasporas is evident across a range of disciplines. Moreover, the meaningful exploration of any aspect of the humanities and social sciences requires an inter-disciplinary

approach. Thus is the aim of this volume. Contributors approach the issue of diaspora from a variety of academic backgrounds: sociology, politics, history, literature and the visual arts. Concomitantly, data sources are diverse, with contributors drawing on official government publications, literary sources and personal memoirs, paintings and photographs, popular culture and personal interviews. This diversity of data sources indicates the multifarious approaches to the exploration diaspora. More importantly, it highlights the critical role played by unofficial, and often hidden, narratives in representing the experiences of those who find themselves, through a variety of political, social and economic factors, displaced. "This edited collection is a timely and precocious answer to a gap in the literature of identities and nationhood. It is a response to the new challenges and opportunities facing diasporic communities and, what is more, sets out key pointers for rethinking diaspora in the twenty-first century. At a time when western states are facing the need to re-evaluate traditional responses to ethnic difference arising from migration in the mid-twentieth century, this book posits an important perspective on the multiculturalism debate. Contrary to previous political and scholarly assumptions, this book shows that the children and grandchildren of immigrants can continue to have an ambiguous relationship to the state in which they were born in part because of the very nature of diaspora. The enduringly complex and sometimes volatile insider/outsider relationship is explored in these chapters through analysis of various narratives, in textual, spoken and visual forms. Analysis of such 'hidden narratives' reveals that the meaning and pertinence of membership of a diasporic community is defined as much by the context of the host country as by the discourses of the homeland. Across their various sources and case studies, the authors demonstrate the power of the juncture between dominant national discourses of the host state and the identity of its immigrants. Each author notes how different the diasporic community in question would be – not to mention the impact on its relationship to the host state and the homeland – if some of narratives hidden over time were to be reclaimed. As one author puts it, flux in elements of identity-formation in postmodern society represents a chance to 'engage in dialogue with our own diversity'. In constructing a coherent volume from such a diverse range of cases and disciplines, the editors successfully demonstrate the wide validity of their case for 'rethinking diasporas'. Nonetheless, the specific origins of this book – a conference held in a border town in Ireland – are, it may be argued, uniquely significant. For the current process of change in Irish national identity is inseparable from central features of diaspora-formation that the authors highlight, including economic pressures. Moreover, just as the town of Dundalk has historically felt the effects of its proximity to Northern Ireland, so the 'imagined borders' of diaspora explored in this book are shown to be all the more powerful for the fact that their delineation is contested." —Katy Hayward (Institute for British-Irish Studies, UCD
