"Introduction to Managerial Accounting," 5/e by Brewer/Garrison/Noreen is based on the market-leading text, "Managerial Accounting," by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; Brewer 5e has been rethought and retooled to meet the needs of the market. Brewer 5e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

Intermediate Accounting, 3e, by Spiceland/Sepe/Tomassini will gain support in traditional and technology-driven accounting departments, especially those looking for a more concise, decision-making text that reinforces challenging concepts via CD-ROM. The revision of this text is based around a "Learning System." The revision of this "Learning System" was built on

improving the clarity of the chapters, emphasizing more decision-making in order to prepare students for the changes taking place on the CPA exam, acknowledging the diversity of students and their learning styles by creating supplemental materials to assure the success of every student, and creating a consistent text and supplemental package for both students and instructor's giving us the best possible intermediate text on the market. Returning to the Third edition is the award winning "Coach" CD-ROM. The Coach CD-ROM is a multimedia product integrating audio and video clips, animated illustrations, cases, and alternative reading material that helps students comprehend some of the more difficult topics associated with intermediate accounting. Designed specifically for the Spiceland text, instructors and students will find these learning tools placed strategically throughout the text. This is the most comprehensive Learning System in Intermediate Accounting. At only 1120 pages (300 pages less than the average intermediate accounting text), Spiceland/S/T has not sacrificed content for pages. Instead, the authors have created a very flexible text with a student friendly writing style that focuses on explaining not just how to apply a procedure, but why it's applied.

This book provides a comprehensive, authoritative, and thought-provoking examination of the ethical issues encountered by accountants working in the industry, public practice, nonprofit service, and government. Gordon Klein's, *Ethics in Accounting: A Decision-Making Approach*, helps students understand all topics commonly prescribed by state Boards of Accountancy regarding ethics literacy. *Ethics in Accounting* can be utilized in either a one-term or two-term course in Accounting Ethics. A contemporary focus immerses readers in real world ethical questions with recent trending topics such as celebrity privacy, basketball point-shaving, auditor inside trading, and online dating. Woven into chapters are tax-related issues that address fraud, cheating, confidentiality, contingent fees and auditor independence. Duties arising in more commonplace roles as internal auditors, external auditors, and tax practitioners are, of course, examined as well.

Are you looking for an engaging, decision-focussed approach to financial reporting that encourages students to develop their interpretative skills? Building on the success of the first edition, this textbook takes a 'how, why, what' approach to financial accounting, interwoven in each chapter. From chapter one, students understand how financial information is prepared and presented, why it is prepared and presented in this way, and what the resulting financial information means for users. Designed for students taking a step beyond their introductory financial accounting training, the textbook equips them with all the key tools they will require when they enter professional practice. Reflective of the latest International Financial Reporting Standards (IFRS) and International Accounting Standards (IAS), this textbook delivers concise, clear explanations of all the key issues in accounting standards that students need to know. Content maps to professional accounting body syllabi, making this the perfect choice for accounting courses which offer exemptions. Chapters are rich with 3 types of examples to enhance understanding: - Illustrative examples of real-world situations; - Worked examples demonstrating the calculation of figures required for financial statements; - Extracts from company annual reports demonstrate how the theory relates to financial reporting in practice. More engaging, more balanced, and more applied than other offerings, this is exactly the textbook your financial reporting students need! An extensive Online Resource Centre accompanies the textbook and includes: For students: DT Solutions to all the end-of-chapter questions in the book including walkthroughs of solutions to key questions; DT Additional graded questions including professional body questions; DT Additional interpretative case studies based on real-life companies; DT A guided tour through a company report DT Specific study skills tips for accounting students For lecturers: DT Customisable PowerPoint slides DT Solutions to all the additional online questions DT Outline solutions to the interpretative case studies DT Group discussion questions

Financial Accounting

This text is intended for a first course in introductory financial accounting. It was updated to reflect current International Financial Reporting Standards (IFRS). For example, it reflects the recent change in IAS38, para. 98, allowing the use of multiple methods in amortizing intangible assets. It focuses on core Introductory Financial Accounting topics that match pre-requisite requirements for students advancing to Intermediate Financial Accounting. Excluded are advanced topics that are covered in Intermediate Financial Accounting, such as leases and bond amortization. The text takes a corporate approach (vs. beginning with a sole proprietorship emphasis and then converting to a corporate approach); this consistency throughout the book reduces confusion for the introductory student. The book covers all essential topics: the accounting cycle, merchandising, assigning costs to inventory, cash and receivables, property, plant and equipment, debt financing, equity financing, statement of cash flows, financial statement analysis, and proprietorships and partnerships. Additionally, this version of the open text is supported by Lyryx Learning, offering at an affordable price editorial services to develop and adapt the content, formative online assessment, course supplements, and daily support to both the students and instructors.

Financial Accounting, Reporting, and Analysis

The much anticipated fourth edition of Craig Deegan's Financial Accounting Theory delivers authoritative and completely up to date material with the discussion of both existing theories and newer theories that have surfaced as financial reporting has become more international. This edition includes a new selection of modern 'Accounting Headlines' which provide current examples of organisations and individuals putting accounting theory into practice in both local and global settings. Financial Accounting Theory covers additional topics such as critical perspectives, public sector accounting and fair value. Workflows and processes are presented using enhanced visual charts to help demonstrate how accounting works in practice. Deegan presents the concepts in a clear and straightforward style, while challenging students to think critically about the range of accounting theories. Financial Accounting Theory provides a sound basis for readers contemplating further research and develops habits of analytical reasoning and critical thinking.

Advanced Financial Accounting

This successful book continues to provide accountants with an understanding of the fundamental concepts necessary to use accounting effectively. The sixth edition offers new discussions on IFRS, including new codification numbers, examples of IFRS financial statements, and additional exercises. A look at more recent frauds such as the Bernie Madoff scandal have been added. Enhanced discussions of ethics and international accounting are presented. The coverage of non-cash items and their impact on decision making has been expanded. In addition, comprehensive case studies and problems help accountants tie the material together.
