## **English History Made Brief, Irreverent, and Pleasurable**

Some desires are impossible to resist For fans of Laurel K. Hamilton and Shana Abé In the elegant, subtropical city of Caracole, Erik the Golden is widely known as irresistible; his Voice an instrument of incredible pleasure, the stroke of velvet on bare skin. But the Voice is a curse as much as a blessing, for once Erik used it to steal a soul, and now he must pay. Pruella Takimori McGuire is the business manager for the beautiful courtesans of the Garden of Nocturnal Delights. She deals in numbers, not Magick, and when Erik turns his charms in her direction, she sees only vanity, not a golden gift. If Erik cannot use his power to win Prue's heart, how can he truly possess her? How is it she can resist what others can't? She's either a torment devised by the gods to drive him mad or Erik's last hope of salvation. And all the while, a far darker power corrupts the foundations of Caracole—the Necromancer, who feasts on souls. When the Necromancer's hired assassin kidnaps Prue, Erik must harness his air Magick to recover the woman he has come to love more than life itself.

## **The Bachelor**

One of the world's great folk story-cycles adapted for the stage by leading theatre maker Tim Supple, from the stories written by the seminal Lebanese novelist Hanan al-Shaykh. This unique edition will unlock the ancient tales for a new generation of readers and performers. Written by Arabic writers from tales gathered in India, Persia and across the great Arab Empire, the One Thousand and

One Nights are the never-ending stories told by Shahrazad night after night, under sentence of death, to the king Shahrayar who has vowed to marry a virgin every night and kill her in the morning. Shahrazad prolongs her life by keeping the King engrossed in a web of stories that never ends - a fascinating kaleidoscope of life, love and destiny. The tales that unfold are erotic, violent, supernatural and endlessly surprising. The web of tales woven by Shahrazad were exoticised and bowdlerised in the West under the title of the Arabian Nights. This adaptation unearths the true character of One Thousand and One Nights as it is in the oldest Arabic manuscripts. In turns erotic, brutal, witty, poetic and complex, the tales tell of love and marriage, power and punishment, rich and poor, and the endless trials and uncertainties of fate. The great cities and thriving trade routes of the Islamic world provide the setting for these stories that employ supernatural mystery and intense realism to portray the deep and endless drama of human experience.

### **Visual C++ Object-oriented Programming**

A “brave memoir” by a woman who left her husband and her church to find her own spiritual path (Kirkus Reviews, starred review). Carlene Cross joined the world of evangelical Christianity as a teenager, and after attending Bible college and marrying a charismatic young man who appeared destined for greatness as a fundamentalist minister, she thought the pieces of her life had fallen into place. But her feelings of hope and promise started to crumble when she realized that her

husband had fallen victim to the same demons that had plagued his youth. When efforts to hold their family together failed, she broke away—despite the condemnation of the congregation and the anger of many she had considered friends. Once outside, she realized that the secular world was not the seething cauldron of corruption and sin she had believed, and found herself questioning the underpinnings of the fundamentalist faith. In this “absorbing” account, Cross tells of waiting tables, going on welfare in order to earn a degree and support her children, and making peace with her past; and offers a plea for greater tolerance and understanding in an era when religion so often divides people instead of uniting them (Publishers Weekly). “A painfully candid account of faith gained and faith lost, of forgiveness, and of the often rocky road of spiritual growth.” —Booklist

Here at last is a history of England that is designed to entertain as well as inform and that will delight the armchair traveler, the tourist or just about anyone interested in history. No people have engendered quite so much acclaim or earned so much censure as the English: extolled as the Athenians of modern times, yet hammered for their self-satisfaction and hypocrisy. But their history has been a spectacular one. The guiding principle of this book's heretical approach is that "history is not everything that happened, but what is worth remembering about the past. . .". Thus, its chapters deal mainly with "Memorable History" in blocks of time over the centuries. The final chapter "The Royal Soap Opera," recounts the achievements, personalities and idiocies of the royal family since the arrival of William the Conqueror in 1066. Spiced with dozens of hilarious cartoons from Punch and other publications, English History will be a welcome and amusing tour of a land that has always fascinated Anglophiles and Anglophobes alike.

### **Arabian Nights In English Literature**

Michael Schofield's daughter January is at the mercy of her imaginary friends, except they aren't the imaginary friends that most young children have; they are hallucinations. And January is caught in the conflict between our world and their world, a place she calls Calalini. Some of these hallucinations, like "24 Hours," are friendly and some, like "400 the Cat" and "Wednesday the Rat," bite and scratch her until she does what they want. They often tell her to scream at strangers, jump out of buildings, and attack her baby brother. At six years old, January Schofield, "Janni," to her family, was diagnosed with schizophrenia, one of the worst mental illnesses known to man. What's more, schizophrenia is 20 to 30 times more severe in children than in adults and in January's case, doctors say, she is hallucinating 95 percent of the time that she is awake. Potent psychiatric drugs that would level most adults barely faze her. A New York Times bestseller, *January First* captures

Michael and his family's remarkable story in a narrative that forges new territory within books about mental illness. In the beginning, readers see Janni's incredible early potential: her brilliance, and savant-like ability to learn extremely abstract concepts. Next, they witness early warning signs that something is not right, Michael's attempts to rationalize what's happening, and his descent alongside his daughter into the abyss of schizophrenia. Their battle has included a two-year search for answers, countless medications and hospitalizations, allegations of abuse, despair that almost broke their family apart and, finally, victories against the illness and a new faith that they can create a life for Janni filled with moments of happiness. A compelling, unsparing and passionate account, *January First* vividly details Schofield's commitment to bring his daughter back from the edge of insanity. It is a father's soul-baring memoir of the daily struggles and challenges he and his wife face as they do everything they can to help Janni while trying to keep their family together.

Video and Image Processing in Multimedia Systems treats a number of critical topics in multimedia systems, with respect to image and video processing techniques and their implementations. These techniques include: Image and video compression techniques and standards, and Image and video indexing and retrieval techniques. Video and Image Processing in Multimedia Systems is divided into three parts. Part I serves as an introduction to multimedia systems, discussing basic concepts, multimedia networking and synchronization, and an overview of multimedia applications. Part II presents comprehensive coverage of image and video compression techniques and standards, their implementations and applications. Because multimedia data (specifically video and images) require efficient compression techniques in order to be stored and delivered in real-time, video and image compression is a crucial element of an effective multimedia system. In Part III attention is focused on the semantic nature of image and video source material, and how that material may be effectively indexed and retrieved. Topics discussed include static images, full-motion video, and the manner in which compressed representations can facilitate structural analysis. Part III concludes with an extended discussion of a case study. This book serves as an invaluable

reference with respect to the most important standards in the field. Video and Image Processing in Multimedia Systems is suitable as a textbook for course use.

### **THE CASE OF THE MESMERIZING BOSS**

Once upon a time, the name Baghdad conjured up visions of the most magical, romantic city on earth, where flying carpets carried noble thieves off on wonderful adventures, and vicious viziers and beautiful princesses mingled with wily peasants and powerful genies. This is the world of the Arabian Nights, a magnificent collection of ancient tales from Arabia, India, and Persia. The tales - often stories within stories - are told by the sultana Scheherazade, who relates them as entertainments for her jealous and murderous husband, hoping to keep him amused and herself alive. Though early Islamic critics condemned the tales' 'vulgarity' and worldliness, the West has admired their robust, bawdy humour and endless inventiveness since the first translations appeared in Europe in the eighteenth century. Today these stories stand alongside the fables of Aesop, the fairy tales of the Brothers Grimm, and the folklore of Hans Christian Andersen as some of the Western literary tradition's most-quoted touchstones.

An explorer of linguistics as well as a mathematician, he often combined his love of both subjects such that the essence of his writings resides not in its "content" but in the sounds and the form of the text. He often argued that the real subject of his work is language itself. Because of this many of his novels, and especially his poems, are virtually impossible to translate into English as they are based on spoken versus literary French, puns, street slang, and complex variations of word play and spelling. *Les Ziaux (Eyeseas)* presents a survey of his poems as written from his early Surrealist days of the 1920's through to 1943 and is representative of Queneau's range of poetic voices."--Jacket.
