Winner of the ALA Coretta Scott King–John Steptoe New Talent Award, *The Rock and the River* was described in a Booklist starred review as a “taut, eloquent first novel [that] will make readers feel what it was like to be young, black, and militant.” *The Time: 1968 The Place: Chicago* For thirteen-year-old Sam it’s not easy being the son of known civil rights activist Roland Childs. Especially when his older (and best friend), Stick, begins to drift away from him for no apparent reason. And then it happens: Sam finds something that changes everything forever. Sam has always had faith in his father, but when he finds literature about the Black Panthers under Stick’s bed, he’s not sure who to believe: his father or his best

friend. Suddenly, nothing feels certain anymore. Sam wants to believe that his father is right: You can effect change without using violence. But as time goes on, Sam grows weary of standing by and watching as his friends and family suffer at the hands of racism in their own community. Sam beings to explore the Panthers with Stick, but soon he's involved in something far more serious—and more dangerous—than he could have ever predicted. Sam is faced with a difficult decision. Will he follow his father or his brother? His mind or his heart? The rock or the river?

The Teachers Guide, to Accompany the Text-book of Elementary Physical Geography

The Guide is designed to help teachers implement a series of novellas set in the 1600s called The River Quintet: Young Lives in a Changing World by Ray E. Phillips. As the subtitle may suggest, these stories are about young adults learning to understand their abilities and goals and to adapt to the ever-evolving societies around them. The main characters are Native American, Dutch and English, all with various levels of talents and flaws. As the books proceed from 1-5, the plots and

the problems become more complicated. The seventh grader might find Books 1 and 2 to be the "easiest" in those terms, while the following ones present situations that an older reader might better appreciate. Seen in their entirety, all five books should prove enjoyable to read as well as informative. The seventeenth century indigenous culture of the "New World" is contrasted with the mercantile and well-defined societies of Holland and England. History, medicine, nature, navigation, science and technology, too, are well represented in the stories and in the carefully researched reference notes. The diverse aspects of the series make clear that The River Quintet offers a unique interdisciplinary contribution to the middle school curriculum. The Teacher's Guide presents practical instructional information. Key aspects of the stories as they pertain to the Social Studies and the English Language Arts curricula are offered, as well as a sampling of reading comprehension questions, classroom projects and activities, and websites. There is also a timeline showing the events in the stories in relationship to actual history.

In 1850 the Detroit River was a major track along the Underground Railroad -- the last step to freedom. The journey across the river was dangerous, especially in winter and especially for a 12-year-old boy. When Louis's father left him in charge of the farm he offered his son this advice, "If you don't know what to do, just do what you think I would have done." Louis relies upon his father's words of wisdom when a runaway slave and her two children come looking for safe passage. In the second title in our Tales of Young Americans series Gloria Whelan -- author of National Book Award winning Homeless Bird -- beautifully creates a suspenseful coming-of-age story while illuminating a difficult time in America's past. Ms. Whelan's narrative again shows the human spirit will forever shine brightly in dark times. Freedom River - part of our Young Americans series - will quickly become a favorite for its important message and look at history from a youngster's eye. Artist Gijbert van Frankenhuyzen - a Sleeping Bear Press favorite - treats the material as

only he can. Each illustrated page demonstrates the same mastery and devotion to his craft as the young heroes he brings to life.

Deep in trouble, Deep in the canyons Fourteen-year-old Dylan Sands has come all the way from North Carolina to Big Bend National Park, on the Texas/Mexico border, to paddle the fabled Rio Grande. His partner in adventure is a local river rat, his cousin Rio. As the two are packing their boats for ten days in the canyons, six Black Hawk helicopters appear overhead and race across the river into Mexico. The army won't tell the boys what's happening, but they are given a weather advisory: A hurricane is approaching the Gulf of Mexico. Dylan and Rio have their hearts set on their trip and can't give it up. Rio believes that their chances of running into border troubles or a major storm are slim to none. By canoe and raft, Dylan and Rio venture into the most rugged and remote reaches of the U.S./Mexico border. You may well not see another human being during the duration of your trip, the guidebook tells them. They don't, until a man stumbles into camp with a seven-year-old boy. A storm is brewing as the man who calls himself Carlos begs for help . . . and the boy is trembling with fear.
