Annual Report of the Education Department

In the tradition of *The Dangerous Book for Boys*, a visually dazzling compendium of practical knowledge, fascinating trivia, and worldly wisdom for young boys—designed as a charming and informal full-color family scrapbook treasured by generations of one family at their Adirondack summer camp. On a late summer afternoon, while rustling around in his family's Adirondack cabin, a boy named Charlie Whistler finds a dusty cloth-bound scrapbook. It is the *Omnium Gatherum*, a colorful, illustrated grab bag of stories, arcana, and much more, faithfully collected over generations by Charlie's father, grandfather, and generations of Whistlers before them. Its pages hold a universe of age-old wisdom, from the simple—how to tie a slipknot—to the esoteric—how to find your way in the forest, or predict the tides—to the exotic—how to understand simple phrases in dozens of languages. *Charlie Whistler's Omnium Gatherum* is a delightful, ceaselessly readable, and unique gift book for boys of all ages: a nostalgic evocation of American childhood, a keepsake for modern fathers to hand down to their sons, and an irresistible, page-turning read for everyone who loves to lose themselves in the world of imagination.

Although numerous books have been written about the Adirondacks and Adirondackers, not very many have become regional classics. Early authors such as John Todd, Charles Fenno Hoffman, Jephtha R. Simms, S. H. Hammond, J. T. Headly, Alfred B. Street, William H.H. Murray and Verplanck Colvin earned well-deserved popularity in their day and their literary output still exerts a potent appeal more than a century later. One more volume is eminently entitled to consideration as top-bracket upstate literature and that is Adirondack French Louie by the late Harvey L. Dunham of Utica.

The Children of Raquette Lake: One Summer That Helped Change the Course of Treatment for Autism is an inspiring account of author Mira Rothenberg's experience with eleven autistic and schizophrenic children during the summer of 1958.

In order to avoid the regression that often occurred during the summer months, Rothenberg, a trained psychologist, and her colleagues Zev Spanier and Tev Goldsman, decided to bring their young patients to a camp in Raquette Lake, located in the Adirondack region of Northern New York. As Rothenberg explains, this was a time when severely disturbed children were considered untreatable and often sent to live out their lives in institutions where their needs were neglected and ignored. Many of Rothenberg's patients exhibited signs of abuse and emotional trauma. On the island, Rothenberg, Spanier, and Goldsman discovered that by applying what was then an unconventional treatment of loving care and tolerance, their young patients improved and were able to heal many of the emotional and physical issues associated with their conditions. Written like a narrative journal that follows the children's progress from week to week, *The Children of Raquette Lake* is interwoven with personal histories and fascinating case stories that demonstrate the healing power of the human heart. The book also provides a valuable list of resources for therapists and parents of autistic children.

Around Raquette Lake illustrates the intriguing history of a lake region in the heart of the Adirondacks: Raquette Lake, the village of the same name, and the surrounding countryside. Hard to access in the early years, the area became home to famed Adirondack guides. After the late 1800s, it entered its heyday: the great camp era. People with names like Vanderbilt, Morgan, Carnegie, and Collier arrived and invited equally famous guests, including Benjamin Harrison, Ulysses

S. Grant, Alexander Graham Bell, Henry Ford, Thomas Edison, and Harvey Firestone. Today Raquette Lake continues to attract visitors, many of whom return year after year and some of whom decided to make it their home.

A Paradise For Boys and Girls

New York Times bestselling author Iris Krasnow reflects with humor and heart on her summer camp experiences and the lessons she and her fellow campers learned there that have stayed with them throughout their lives. Iris Krasnow was 8 years old when she first attended sleep-away camp, building lasting friendships and essential life skills amid the towering pine trees and open skies of Wisconsin. Decades later, she returned to Camp Agawak as a staff member to help resurrect Agalog, the camp's defunct magazine that she wrote for as a child. There, she revisits the activities she loved as a young girl: singing songs around a campfire, swimming in a pristine lake, sleeping under the stars-experiences that continue to fill her with wisdom and perspective. A nostalgic, inspiring memoir with a universal message on the importance of long-term friendship for campers and non-campers alike, *Camp Girls* weaves between past and present, filling the page in delicious detail with cabin pranks, canoe trips in rainstorms, and the joy of finding both your independence and your interdependence in nature alongside your peers. Through rich storytelling, Iris shares her own and other campers' adventures and the lessons from childhood that can shape fulfilling and successful adulthoods. Ultimately, Iris powerfully demonstrates that camp is more than a place or a collection of activities: it's where we learn what it means to be human and what it feels like to truly belong to a family-not of blood, but of history, loyalty, and tradition.

Children's Camps in New York State

Genealogy of Josiah Munroe, Revolutionary Soldier, who Died in the Service of the Continental Army at Valley Forge, February 19, 1778

For over a century children have spent their summers at "sleepaway" camps in the Adirondacks. These camps inspired vivid memories and created an enduring legacy that has come to be a uniquely American tradition. In "A Paradise for Boys and Girls": Children's Camps in the Adirondacks, a complement to the Adirondack museum exhibit of the same name, the authors explore the history of Adirondack children's camps, their influence on the lives of the campers, and their impact on the communities in which they exist. Drawing on the rich documentary and pictorial evidence gathered from the histories of

331 camps located in the Adirondacks from 1886 to the present, this collection chronicles the changing attitudes about children and childhood. Historian Leslie Paris details social change in "Pink Music: Continuity and Change at Early Adirondack Summer Camps." In the title essay of the book, Hallie Bond offers a history of Adirondack camping from the establishment of Camp Dudley on Lake Champlain in 1892 to the present. Finally, historian Joan Jacobs Brumberg concludes the collection with "A Wiser and Safer Place: The Meaning of Camping During World War II." Lavishly illustrated with historic photographs, the book includes a directory of Adirondack camps, with brief descriptive notes for each of the camps. The photographs and essays in this volume offer readers a richer understanding of this singular region and its powerful connection to childhood.

Who's who Along the North Shore of Massachusetts Bay

A paddling classic back in print with new maps, photos, details, and afterword. Christine Jerome walked into the Adirondack Museum in Blue Mountain Lake, NY, and promptly fell in love with a 9-foot, 10½-pound canoe named the Sairy Gamp. More than a century before, in 1883, the Sairy Gamp had been paddled and portaged through the Adirondacks by a sixty-one-year-old writer named George Washington Sears (his pen name was Nessmuk). The more Jerome learned about Sears, the more she wanted to follow his route, despite her lack of camping or canoeing experience. In August 1990 she embarked in a 9-foot canoe made of Kevlar and, with her husband, John, accompanying her in a slightly larger boat, set off to retrace Sears's journey. An Adirondack Passage is part social history, part natural history, part biography of Sears, and part chronicle of a voyage. Summer turns to fall while the Jeromes make their way north, through sunshine and storms, down cottage-lined lakes and lonely wild streams. Gusting winds bully their light canoes and by mid-September the days are colder and shorter; but the longer they paddle, the more attached they become to the beauty around them. Canada geese fly overhead, monarch butterflies flutter southward, and on the larger lakes, young loons gather for their first migration to the sea. Along the way the author pauses to tell us what Sears saw when he passed by, and what happened to his favorite haunts in the ensuing century. As the history of the region unfolds we meet hermits and millionaires, hunting guides and society women, hotelkeepers and dime-novel writers, and one lost dancing bear. Christine Jerome has given us a memorable wilderness experience that readers who have never lifted a paddle will find fascinating and invigorating. This new release from Breakaway Books is the third edition, revised and updated with extra photos, maps, and a new afterword. a canoe trip.” —The New Yorker “A writer of fine and watertight prose. . . . An Adirondack Passage is uncategorizable—at once history, naturalism, sociology, and a love story—but unfailingly graceful.” —Boston Globe “Personal, witty, and thoughtful—one of the best introductions to the area ever produced.” —Audubon “As refreshing a break from the busyness of life as I’ve come across in awhile.” —Newsday “The writing . . . is a constant pleasure. Jerome has a style that suits her subject, quiet and gentle as a paddle in still water. She delivers her lore with wit and whimsy, with fine descriptions and without shrill preaching or righteous posturing.” —Smithsonian “The closest thing to a national nonfiction best-seller that the region has seen in ages, and deservedly so.” —Adirondack Life “A captivating account. . . . She takes us into a world of hermits and millionaires, of wild streams and glorious mountain scenery.” —Publishers Weekly “A delightful tale. . . . An informative, readable adventure whose history and environmental lessons are taught well.” —Library Journal

Tupper Lake lies at the center of the magnificent Adirondack forests. The first settlers were hunters, anglers, and trappers. In 1850, the Pomeroy Lumber Company began operations, and with the first logging ventures came the rush of settlers. As the logging industry grew, the railroad arrived. At the junction point for Hurd's and Webb's railroad, downtown Tupper Lake became the Adirondacks' leading rail center. Soon other sawmills were erected, and dams were built along the Raquette River. Today, Tupper Lake still thrives, and Sunmount Developmental Center is the lifeblood of the community and main source of livelihood for Tupper Lake residents.

"History, like love, is so apt to surround her heroes with an atmosphere of imaginary brightness." - James Fenimore Cooper, Last of the Mohicans. Set in the 1870s, the dawn of the Gilded Age, and while the American economy is reeling from over-speculation in railroads, the Durant family saga tells the story of William West Durant and his sister Ella, the children of the powerful American industrialist and railroad tycoon Dr. Thomas C. Durant. William and Ella find their fortunes and reputations threatened by their father's questionable business dealings as head of the Union Pacific Railroad. As the family's finances teeter on the brink of bankruptcy, both brother and sister are whisked from their privileged lifestyle in high society London to the untamed Adirondack forests. It is in this wilderness landscape that the tension between passion and propriety, their future and their family, turn their worlds upside down. Imaginary Brightness explores the early conquest of the great north woods, eavesdrops on America's robber barons from the supper clubs of Manhattan, and unravels the mystery of William West Durant's secret passions and conflicting loyalties.

Great Camp Sagamore was built by William West Durant and bought by Alfred Vanderbilt in 1901 to be his family's Adirondack retreat. Vanderbilt and his wife, Margaret, welcomed family and friends, who enjoyed its sprawling grounds and buildings for decades. After Margaret's death, though, the camp changed hands and began to decline until it was rescued by preservationists and then became a National Historic Landmark in 2000. Today, visitors to the camp participate in maintaining its grandeur, learning about and preserving the past. Read the remarkable story of one of the most unique places in the Adirondacks, written by Sagamore's director, Beverly Bridger.
