For every transnational lawyer, it is vital to know the differences between national secured transactions laws. Since the applicable law is determined by the place where the collateral is situated, it may change when movables are brought from one state to another. Introductory essays from comparative lawyers set the scene. The book then presents a survey of the law relating to secured transactions in the member states of the European Union. Following the Common Core approach, the national reports are centred around fifteen hypothetical cases dealing with the most important issues of secured transactions law, such as the creation of security rights in different business situations, the relationship between debtor and secured creditor, the nature of the creditor's rights and their enforcement as against third parties. Each case is followed by a comparative summary. A general report evaluates the possibilities of European harmonisation in the field of secured transactions law.

Sources of English Legal History fills the need for a source book illustrating the development of English private law to 1750 and promises to be the definitive work in its area. The book makes available much source material and original documentation that has hitherto been unavailable or inaccessible. It may be used as a companion volume to An Introduction to English Legal History and Milsom: Historical Foundations of the Common Law.

## **Judges and Judging in the History of the Common Law and Civil Law**

In this collection of essays, leading legal historians address significant topics in the history of judges and judging, with comparisons not only between British, American and Commonwealth experience, but also with the judiciary in civil law countries. It is not the law itself, but the process of law-making in courts that is the focus of inquiry. Contributors describe and analyse aspects of judicial activity, in the widest possible legal and social contexts, across two millennia. The essays cover English common law, continental customary law and *ius commune*, and aspects of the common law system in the British Empire. The volume is innovative in its approach to legal history. None of the essays offer straight doctrinal exegesis; none take refuge in old-fashioned judicial biography. The volume is a selection of the best papers from the 18th British Legal History Conference.

In Christopher Moore's lively and engaging history of the Court of Appeal for Ontario, he traces the evolution of one of Canada's most influential courts from its origins as a branch of the lieutenant governor's executive council to the post-Charter years of cutting-edge jurisprudence and national influence. Discussing the issues, personalities, and politics which have shaped Ontario's highest court, The Court of Appeal for Ontario offers appreciations of key figures in Canada's legal

and political history – including John Beverly Robinson, Oliver Mowat, Bora Laskin, and Bertha Wilson – and a serious examination of what the right of appeal means and how it has been interpreted by Canadians over the last two hundred years. The first comprehensive history of the Ontario Court of Appeal, Moore's book is the definitive and eminently readable account of the court that has been called everything from a bulwark against tyranny to murderer's row.
